A little classified ad. in The Sentinel is better than any four-sheet poster on your house.

ESTABLISHED 1833. FORT WAYNE, IND., TUESDAY, SEPT. 4, 1900. PRICE TWO CENTS

FIGHTING IS OVER

AND CHAFFEE WANTS TO KNOW WHAT IS THE PROGRAM.

HIS FORCE IS LARGE ENOUGH

UNLESS THERE ARE POLITICAL REASONS FOR A LARGER.

A MESSAGE FROM MR. CONGER

REPORTS NO CHANGE IN THE SITUATION.

Washington, Sept. 4.—The following dispatch was received today by the war department from General Chaffee:

"Taku (no date).—Adjutant General, Washington: Written report of operations up to relief of legations will be forwarded as soon as possible. Present indications are that hostilities have practically ceased, only occasional shots fired from cover, small party repairing telegraph line and foraging.

"No considerable body of Chinese troops (boxers) discovered here or along line of communication. We hear Li Hung Chang has full power, but he is not here.

"Will United States keep military force here until terms of peace are arranged?

"Now in China about 5,000 effectives—Sixth cavalry, light battery F, Fifth Artillery, batteries Third, Ninth infantry, Fourteenth infantry, 1,000 marines. I think ample force for United States unless political reason, not apparent to me, demands larger forces. Shall take 5,000 as basis of my requirement for supplies.

"If troops remain must winter in tents and conical wall tents will be required, one tent ten men. Ecort wagons mentioned in —— of 18th, will be required immediately.

"Have mules for same shipped. No more pack trains required, wagon transportation best. Water falling in river rapidly, must soon haul supplies 40 miles. Satisfied railroad will not be required before river freezes.

"Chaffee."

All the transportation and tentage asked for by General Chaffee has been anticipated by the department and has been shipped.

Much of it is at Taku and the balance is due there very soon.

Washington, Sept. 4.—Minister Conger has been heard from again, his last advice being dated at Pekin on August 30th. This message was received last evening. Preceding dispatches have occupied a week in their transmission from Pekin, according to the estimate of the state department, so that Mr. Conger's message marks a distinct betterment of the means of communication.

Besides, it includes the date of the dispatch, something the department has been trying to have done for many weeks. The supposition is that this particular message came down from Pekin to Tien Tsin by courier and was put on the wires either at that point or at Taku.

The state department decided to make no statement as to the contents of the message, beyond the simple one that Mr. Conger's communication did not mark any material change in the situation in Pekin.

It appears that whatever responses are to be made by the powers to the proposition to evacuate Pekin are expected to be directed to the government of Russia and not to our state department. The Russian government undoubtedly will in turn notify the United States government, as well as all the other governments concerned, as to the nature of the responses.

It is stated that up to the present less than a majority of the powers interested in the Chinese question have responded to the Russian proposal so far as our government is advised, and our officials here agree with the general tenor of the European dispatches this morning in the conclusion that final action on the part of all the powers may not be had for several days at least.

Everything now depends on the action of Russia, the attitude of the other nations being negative, and if she does not hasten to carry out her announced purpose to withdraw the troops, the other governments probably will be content, cherishing the hope that in the meantime some kind of Chinese government can be re-established in Pekin, with which the powers may negotiate for a final settlement.

Li Hung Chang's attempt to secure imperial warrant for the institution of peace negotiations, through himself and the Chinese notables referred to in the European dispatches, is regarded here as a step in the right direction, while on the other hand some disquiet has been caused by the report that the internationals in Pekin have been arresting some of the members of the tsung li yamen, who were seeking to open negotiations and re-establish the government. There is no disposition here to condone the offenses of any of these Chinese officials who may have participated in the outrages in Pekin, but it is questioned whether the present is an opportune time to administer punishment.

General Barry, who can be reached at Taku, has been instructed to spare no pains or expense to get dispatches to Chaffee and replies from him, which the department feels are necessary for a correct disposition of the Chinese questions that have arisen since the occupation of Pekin.

SITUATION CONFUSED.

London, Sept. 4.—The absence of news regarding the actual situation of affairs at Pekin continues as complete as the lack of authentic information regarding the ultimate attitude of the powers towards the proposals now before the concert.

Shanghai reports that an imperial edict issued at Tai-Yuan-Fu appoints Li Hung Chang, Yung Lu, Hsu Tung (tutor of the heir apparent), and Prince Ching commissioners to negotiate peace.

Four German warships arrived at Woo-Sung September 3.

The unmistakable condemnation of the proposal to immediately withdraw from Pekin, which is voiced from all the foreign colonies in the far east, is taken in some quarters as a forecast of the opinion which may be expected from the ministers when their views are obtainable.

As already suggested, the Russian proposals are capable of modification and it is thought in well-informed circles that Lord Salisbury is striving to conform them more closely to the terms first formulated by the government at Washington.

According to a special dispatch from St. Petersburg, dealing with the question of Manchuria, the Russian officials repudiate any intention to permanently occupy or annex Manchuria.

The dispatch adds that Russia will claim no territorial concessions provided the other powers refrain from so doing and expresses the hope that the question of indemnities can be settled by the co-operation of the allied powers.

GUNBOAT DOES GOOD.

Paris, Sept. 4.—The French consul at Canton, under date of Monday, Sept. 3, cables that the French gunboat Comete has returned to Canton. He adds that her trip to Swatow (on an estuary of the river Hang-Kiang), has had a good effect and has ended the troubles and agitation against foreigners which were spreading in the region north of Kouang-Toung.

The consul also reports that a missionary was attacked and wounded in the district of Fat-Kong, 100 kilometers from Canton.

GERMAN TROOPS IN PEKIN.

Berlin, Sept. 4.—An official dispatch from Taku announces the receipt of a telegram there from Pekin, dated August 25, saying the German troops have taken possession of a hill within the imperial city.

The dispatch adds that 2,000 additional Italian troops have reached Taku.

MISSIONARIES PROTEST.

New York, Sept. 4.—Rev. Dr. Dodd, one of the secretaries of the Methodist Episcopal Missionary society, received the following cablegram from Shanghai today, signed "Central China:"

"Protest government against evacuation Pekin and recognition Li Hung Chang. Both disastrous to missions."

Robert E. Speer, of the Presbyterian board of foreign missions, received a number of letters from Presbyterian missionaries to China today. One from Samuel Cochrane, M. D., dated Arima, Japan, Aug. 8, gives an account of the decapitation of nine missionaries near Hang Chow. Rev. Henry V. Noyes, writing from Canton, confirms previous reports that the authorities there were making extensive preparations to resist foreign attack.

Mr. and Mrs. C. O. Lepper entertained Mr. and Mrs. H. P. Schwennesen, of Chicago, at dinner, on Sunday, in honor of the twenty-fifth anniversary of the wedding of Mr. and Mrs. Schwennesen.

WILL NAME TICKET

THIRD PARTY ANTI-IMPERIALISTS TO MEET.

CONVENTION IN NEW YORK

EMPIRE STATE REPUBLICANS GATHER AT SARATOGA.

WOODRUFF MADE CHAIRMAN

ODELL TO BE NOMINEE FOR GOVERNOR.

New York, Sept. 4.—Acceptances of invitations to the third party convention meeting in this city tomorrow to nominate candidates for president and vice president, now insure an attendance of more than a hundred delegates.

Among those who are likely to take an active part in the convention are William Everett, of Massachusetts; Chairman T. M. Osborne, of New York; Henry W. Lamb, of Massachusetts; Louis Ehrich, of Colorado; Francis P. Nash, of Massachusetts; Fiske Warden, of Massachusetts, and Paul Fuller, of this city.

From Kentucky, where the managers expect to make a number of fights for the control of congressional districts, there will come as delegates J. H. Joubert, E. Spears Haveley and Prof. R. H. Dorn.

Judge Wm. R. Hough and Ralph G. Wells are expected from Indiana. Among others, Congressman A. B. Farquhar and Charles J. Hiller will represent Pennsylvania; and Colorado sends six or seven delegates, including William J. Palmer and Louis R. Ehrich.

REPUBLICANS ASEMBLE.

Saratoga, N. Y., Sept. 4.—The republican convention which is to nominate a full state ticket was called to order soon after noon by State Chairman Odell, who is to be nominated for governor. Lieutenant Governor Woodruff, who is to be renominated, was chosen temporary chairman by acclamation.

TINY TIM'S SPEECH.

Mr. Woodruff's speech in part was as follows:

Mr. Woodruff, in opening, said the republican party is the giant instrument for the attainment and maintenace of high political ideals. "The republican party is more than the instrument of republicans," said the speaker, "it is the ever-renewing hope of others. Since the democracy of Seymour, Tilden and Cleveland became the prey of populistic fanaticism and vagaries of dreamers supplanted the doctrines of statesmen, the republican party has become the home of many thus driven from the household of their ancient faith.

"They do not look for us to renounce republicanism. They do not ask us to become democrats. Nor do we insist that they shall become republicans. Either as allies or republicans we welcome them for the country's good.

"The people of this state believe in honest money; they believe in the protection of American industry and labor; they believe in the establishment of the independence of Cuba, a sound government in Porto Rico and the Philippines, and the protection of our people in China. They believe in the suppression of unlawful combinations of every character."

Referring to the money question, Mr. Woodruff said that should Mr. Bryan be elected it would be within his power and his duty, in view of his platform, to pay the interest and principal of the bonded debt in silver. The speaker declared that free trade had always been the fundamental principle of democracy. "The attempted subordination of sound money and protection," he continued, "to the 'paramountcy' of so-called 'imperialism' cannot retire these issues from the campaign. The absurdity of 'imperialism' is that there is no imperialism. The republican party simply stands for the establishment in the Philippines and Porto Rico of such government as it gives its own people. If that is imperialism, then the republican party is imperialistic.

"Our opponents may call it imperialism, or even piracy if they please, but the republican party will not be swerved from the line of its duty, nor will the people be fooled by so transparent a device.

"Is he an intruder and 'usurper of inalienable rights' who has rescued helpless children from wild beasts that orphaned them? Does he deprive them of liberty because he fosters and protects them until they are able to care for themselves? The man who denounces our work of rescue and the establishment of a just and generous government in which the inhabitants shall have the largest participation of which they are capable, and who undertakes to base that denunciation upon a phrase of our declaration of independence, is an insincere and base perverter of that immortal document."

Mr. Woodruff denounced the attitude of the democratic party on trusts as hypocritical, praised the republican state administration and closed with a eulogy of the national republican ticket.

Mr. Woodruff arraigned the officials of New York city for their alleged connection with the ice trust. References to McKinley and Roosevelt were greeted with loud applause.

At the close of the temporary chairman's address, the usual resolutions for permanent organization, etc., were adopted and a recess was voted until 4 p. m.

PLENTY OF TALENT.

A telegram was received today from former Governor Frank S. Black saying that he would make the speech nominating Benjamin B. Odell, jr., for governor tomorrow. This makes the list of orators for tomorrow's session of the republican convention include Theodore Roosevelt, Chauncey M. Depew, Frank S. Black and N. Stranahan. Senator Depew is now here and Governor Roosevelt is expected this afternoon.

The only discussion before the convention met at noon was over the trust plank, and it was thought the party declaration on this point might give the committee on resolutions some work to do.

REV. SIMPSON TRANSFERRED

PASTOR OF A. M. E. CHURCH GOES TO SOUTH BEND.

Has Filled the Pulpit of the Local Church Successfully for a Term of Three Years.

Rev. William Madison Simpson, pastor of the African M. E. church for the past three years, has been appointed to the charge at South Bend, Ind., and will leave in two weeks for his new field of labor. Rev. Simpson was appointed to the new pastorate at the Michigan conference of the African M. E. church, held last week at Grand Rapids, Mich., and he will be succeeded by Rev. Alexander Smith, late of Bethel church, Detroit.

Rev. Simpson's pastorate in this city, covering a period of three years, has been most successful and he has been instrumental in greatly strengthening the church. He is an able speaker, an excellent Biblical scholar, and his appointment to the charge at South Bend is a just recognition of his capabilities as a pastor.

The conference this year was the largest and most successful in many years. Right Rev. Alexander Grant, the presiding bishop at the conference, is one of the ablest colored orators in the United States, and many other colored speakers of prominence were present at the meeting. But one other appointment was made for Indiana, Rev. I. F. Williams for the Wabash charge.

TRYING TO START FACTORIES.

Pittsburg, Pa., Sept. 4.—Efforts are being made by the American Glass company to start its factories regardless of the trouble with the flatteners and cutters over the wage scale. Officials of the combine reported work was resumed today at the factories at Dunkirk, Ind.; Greenfield, Ind.; New Castle, Pa.; Hazelhurst, Pa., and Coudersport, Pa. The Phillips plant in this city will start up tonight and the large plants at Arnold and Jeanette, Pa., have been ordered to resume operations tomorrow. Telegrams from Dunkirk, Greenfield, Hazelhurst, New Castle and Coudersport report the factories working in full.

GENERAL M'CLERNAND IS ILL

Springfield, Ill., Sept. 4.—General John McClernand is again dangerously ill. He is suffering with malarial fever and dysentery, and his friends are considerably alarmed over his condition. General McClernand has been in feeble health since his last illness. The attending physician, Dr. C. M. Bowcock, says the greatest danger is due to the fact that he can take no proper nourishment. The veteran soldier's temperature has reached 102. He has been unable to sleep and has continued in a restless state.

Mr. and Mrs. C. Shulz have returned from Detroit, where they have been visiting friends for a week.

BRYAN EN ROUTE

DEMOCRATIC LEADER GOING INTO SOUTHEAST.

MAKES SPEECH IN OHIO TOWN

DECLARES IMPERIALISM IS THE GREAT ISSUE.

AVERTED PANIC IN CHICAGO

THE NEBRASKAN'S COOLNESS PREVENTED DISASTER.

Cambridge, Ohio, Sept. 4.—Mr. Bryan found several hundred people awaiting when he arrived at Zanesville early this morning. The train carrying him to his destination in West Virginia made a five-minute stop at that point, and in response to repeated calls for the presidential candidate, Mr. Bryan appeared on the rear platform of the sleeper.

Mr. Bryan declared, laughingly, that he could not shake hands and make a speech, but he came near doing so, for he grasped a large number of outstretched hands and while doing so proceeded to make a brief talk to the people who stood eagerly waiting.

The speech was informal and was frequently applauded. After recalling his visit to Zanesville in 1896, at which time, he said, he was compelled to climb up the fire escape in order to get into the hall where he was to speak, Mr. Bryan said:

"We are in the midst of another campaign and you are to have your part in the settlement of the questions which are at issue. In every campaign several issues are considered, but some one issue must be paramount in the mind of each person. In this campaign the democratic party believes the question of imperialism to be most important. The party stands where it did in 1896 on the money question, but it believes that the form of government is more important than the kind of money, and imperialism attacks the principles of government. In saying this we are not indulging in prophesy. The Porto Rican bill asserts the doctrine that the Porto Ricans are beyond the protection of the constitution. Never until within a year has any party asserted the doctrine that the flag could be carried to places where the constitution could not go."

At Cambridge Mr. Bryan also spoke to a good crowd. He suggested a number of questions to be put to republicans.

A TOUR OF WEST VIRGINIA.

Cameron, W. Va., Sept. 4.—At Benwood Mr. Bryan left the regular train and was taken aboard the special in which he is to make the tour of this state. Here he was met by a state committee, of which National Committeeman McGraw is chairman.

The greetings between Mr. Bryan and the West Virginia leaders were cordial.

He was also warmly welcomed by a very good sized crowd, which cheered as Mr. Bryan passed from one train to another.

He had no sooner ascended the platform of the rear car of the special train than the crowd demanded a speech and with this demand Mr. Bryan complacently complied, though very briefly.

The stop here was very short, the special train starting promptly upon its journey. Mr. McGraw announced Mr. Bryan's speechmaking itinerary for the trip as follows:

Cumberland, Md., Tuesday nigth; Morgan's Grove, tri-state meeting for Maryland, Virginia and West Virginia, Wednesday, at 9:30; Kaiser, 11:30 a. m., Wednesday; Clarkesburg, state fair, at 10 a. m., Thursday; Parkersburg, at 3 p. m., Thursday; Wheeling, Thursday night. From Wheeling to Chicago Friday. Tonight will be spent at Cumberland and tomorrow night at Deer Park.

BRYAN AVERTED A PANIC.

Chicago, Sept. 4.—By a trite little joke, sprung with cool but effective declamation William Jennings Bryan yesterday arrested a stampede of frantic men and women in the speakers' stand at Electric park, prevented a panic and, in the belief of all who witnessed the episode, saved many persons from being crushed beneath the falling structure or trampled in a riot for safety.

The Nebraskan had just fought his way through a crowd of 10,000 shrieking admirers and had taken his place in front of the orators' platform when the already overcrowded floor of the small stand creaked, groaned and began to waver. A crash that could not be heard by the vast audience howling its admiration for the democratic candidate for president struck terror to the hearts of all in the frail structure upon which he stood. A section of the worn floor gave way, women shrieked in terror and men tried to jump over the railing upon the heads of the packed throng at the rear of the stand.

Policemen shouted "Be still or the whole thing will fall!" The trembling fabric of weather-beaten pine swayed and the occupants already felt the delirium of abject terror.

"Hello," laughed Bryan, turning a smiling face upon the scared people. "This cannot be a democratic platform! These are no bad planks in that. Come, now, stand still, won't you? If you stand together where you are you'll be all right. If you stampede this thing will fall on you."

And he laughed as if he felt no terror. His voice rose clear and high. What the shouting of policemen and the elbowing of excited committeemen had failed to do, Mr. Bryan did as calmly as if he had rehearsed the scene a hundred times. When the dust cleared away and the occupants began to regard the accident, it was found that a section of the platform had collapsed, precipitating a few into the chamber under the stand. Before the speechmaking was resumed the ten policemen, directed by President Edward Carroll, cleared the platform of about 100 intruders, and the program was resumed.

ARTHUR SEWALL NEAR DEATH

BRYAN'S FORMER RUNNING MATE FATALLY STRICKEN.

Suffers an Apoplectic Stroke and Sinks Into Unconsciousness —No Hope Given.

Bath, Me., Sept. 4.—Up to 11 o'clock today the condition of Arthur Sewall, democratic candidate for vice president four years ago, was unchanged. No sign of returning consciousness had been noted, and no hopeful indication had been seen by the doctors.

Mr. Sewall was stricken Monday night with apoplexy at his summer home near here, and his physicians believe that he will probably not recover. He has not fully recovered consciousness at any time since he succumbed to the stroke. Small Point, the place at which Mr. Sewall has his summer home, is about sixteen miles from Bath. The members of his family are with him.

A report was issued this afternoon by Mr. Sewall's physicians to the effect that if there had been any change it was not for the better. The patient remains in a heavy stupor, from which the doctors expected no relief but death.

DENVER MAY BAR REUNION.

Denver, Col., Sept. 4.—There will be no Grand Army reunion in 1901 at Denver unless the railroads recede from their present position of demanding a single trip fare instead of granting a cent a mile rate, as requested by the G. A. R. committee.

Harper M. Orahood, commander of Colorado and Wyoming G. A. R., said to-day:

"The encampment as far as Denver is concerned will be abandoned unless the one-cent rate is provided, and the only thing that will come out of our efforts to get the reunion for this city will be a business meeting which will only bring a few hundred delegates here."

WOOL MARKET LISTLESS.

Boston, Mass., Sept. 4.—The wool market here continues listless, the demand being much less even than during the past few dull weeks. Manufacturers are holding back and continue to purchase just the grades of wool that are needed to fill their orders. Prices continue the same. Of the territory wools, fine medium and fine with staple in calls for 50c, while strictly staple is held at 52@53c. Fleece wools show a very steady demand and only scattering sales are made. Prices are no firmer. The top quotation for good lines of Ohio washed is 30c. Fine Australian wool sales are very few.

Miss Mary Shreve, stenographer at S. F. Bowser & Co.'s offices, is quite ill with appendicitis.

Miss Margaret Schmoll, of South Hanna street, has gone east on a business visit.

CENSUS OF CITY

OFFICIAL FIGURES OF FORT WAYNE'S POPULATION.

TEN THOUSAND IN TEN YEARS

THE CITY HAS INCREASED IN NUMBERS 27 PER CENT.

POPULATION IS NOW 45,115

INDICATE STEADY, HEALTHY GROWTH.

Washington, Sept. 4.—The census bureau announces that the population of Fort Wayne, Ind., is 45,115, as against 35,393 in 1890. This is an increase of 9,722, or 27.47 per cent.

The foregoing figures will prove a disappointment to many who have fondly hoped that the official result of the enumeration would show Fort Wayne to have reached if not passed the 50,000 mark. But the showing in the main will be satisfactory. Fort Wayne has kept pace in growth with other cities of her class. The improvement over 1890 is not the result of any boom factors, but of steady growth, which after all is more healthy if not so rapid, for reactions do not follow such a growth.

The bureau announces that the population of Charleston, S. C., is 55,807, as against 54,955 in 1890. This is an increase of 852, or 1.55 per cent.

GAMING PALACE FOR MANILA.

Denver, Col., Sept. 4.—George L'Abbe, the Leadville gambler magnate, announces that he will establish in Manila one of the finest gambling houses in the world. It is also to be a strictly first class amusement house for the benefit of the American soldiers and citizens in the Philippine city. All of the games in the Philippines except those started by the soldiers are Chinese or native sports, in which the American does not get a run for his money. It is L'Abbe's idea to give the soldier any game he wants, and also to make his money run—into L'Abbe's coffers.

"There is plenty of room for a first class gambling house there," he said. "Gambling ventures have not proven successful in Nome, where the people went broke early in the game, but in Manila, where everybody has money and there is plenty of sporting blood, the outlook is more encouraging. We will take a company of vaudeville people with us."

L'Abbe is one of Colorado's best known sporting men. He was formerly in the gambling business with Joe Gavin, and while in Denver won $9,000 of Gavin's money at the latter's Curtis street faro rooms. He is said to have lost everything in Nome and then won $25,000, making his total winnings for four months about $65,000. At his gambling house in Seatle only high bets are placed, and it is said that Monte Carlo is the only place on earth where more money is lost on the turn of a card. He had $1,700 up on the Corbett-McCoy fight, taking the pompadour and giving good odds.

DO NOT ISSUE TAGS.

City Comptroller Berghoff is not doing the rushing business selling vihicle tags that he did one year ago. There have been calls for the tags, but the applicants have been turned down until the council takes final action at the meeting next Tuesday evening. The city authorities are all at sea as to what course to pursue.

TAKES NEW POSITION.

E. W. Keyser, formerly county truant officer, has resigned that office and has taken a position in the manual training department of the I. S. F. M. Y. as instructor. Mr. Keser will assume his duties at the institution at once.

VERMONT VOTES.

White River Junction, Vt., Sept. 4.—After one of the hardest campaigns in the history of Vermont politics, this state voted today for a full state ticket, for two congressmen and for county officers. The weather was ideal and an unusually large vote was cast in nearly all sections.

Miss Maude McBride, of Muffton, is the guest of Mrs. Frank Lehr.

Fort Wayne news for Fort Wayne people.

It is not from Maine or Michigan.

Suspicion can't lurk around it.

Honesty is its prominent characteristic.

Home endorsement its salient point.

Mr. C. J. Noll, of 115 Barthold street, butcher, employed at H. Strodel's Meat Market, says: "When I was working in Frenchtown an attack of kidney disorder got hold of me, and though I tried every known remedy I was unable to get rid of it. I heard about Doan's Kidney Pills and got a box at Meyer Bros. & Co.'s drug store. Before I took these pills I was greatly troubled with backache. I could rest at night in only one position, and when I was up it was almost impossible for me to stoop. The kidney secretions were discolored and had a bad odor, and at times I grew dizzy. I commenced feeling better as soon as I started taking Doan's Kidney Pills, and by the time I had finished the first box I was entirely cured. You are welcome to use my name as one who endorses Doan's Kidney Pills and I will be glad to tell anyone who wishes to call on me all the details of my case."

Doan's Kidney Pills for sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

A STERN POLICY.

IS DEMANDED BY FOREIGNERS NOW IN SHANGHAI.

PEKIN MUST BE DESTROYED

CHINESE ALREADY BELIEVE THEY ARE VICTORIOUS.

SHOCKING REPORTS HEARD

UNSPEAKABLE OUTRAGES ON WHITE WOMEN.

[Copyrighted, 1900, The Associated Press.]

Shanghai, Sept. 4.—Dispatches announcing that the American government refuses to agree to the withdrawal of the troops from Pekin before satisfaction for the outrages upon and the losses of its subjects is given, have been received here and are applauded by the entire foreign colony in Shanghai.

Any other policy, according to the business men and missionaries with whom the Associated Press representative has talked, would be a vital blow to the prestige of the foreigners and would weaken their status in China.

WHAT THE CHINESE BELIEVE.

The local English papers fiercely denounce the proposals to evacuate Pekin and say that the Chinese would interpret evacuation as defeat. The masses of Chinamen now believe that the Chinese arms are victorious.

The Chinese papers printed in Shanghai contain long circumstantial accounts of alleged Chinese victories at Pekin, Tien-Tsin and Lung Chao, and the shops in the native quarters display for sale lurid pictures of the Celestial army driving the European soldiers in the sea at Taku and cutting them to pieces at Tien-Tsin.

These also show pictures of the foreign admirals being tortured in the presence of the viceroys. Vice Admiral Seymour is represented with his arms pinioned, kowtowing before the throne. The people accept these reports and pictures as correctly representing the situation and consider the reports of the English press as "merely foreign lies."

WANT PEKIN DESTROYED.

The European community continues to demand the destruction of Pekin and the exemplary punishment of the officials, deeming indemnity and paper promises of new treaties inadequate. Undoubtedly the information in detail of massacres of foreigners daily received inflames this sentiment.

The dowager empress is living in the yamen at Tai Yuan Fu, in Shan-Si province. Fifty missionaries have been slaughtered in that yamen under orders, practically in the presence of the viceroy.

Three were beheaded in the inner court and the others were killed barbarously in the outer court yard. Their bodies were thrown to the dogs.

The empress has ordered a commissioner to investigate the conduct of the southern viceroys who made a compact with the foreign consuls, and their degradation is expected. No investigation of the officials opposed to foreigners has been ordered.

BUTCHERY OF WOMEN.

The Associated Press representative learns from official sources the facts of the killing of several American women missionaries. At the request of the mission board the details were withheld out of regard for the feelings of the relatives of the murdered women, but other prominent Americans, who have long antagonized the policy of sending women to isolated inland posts, think it important that the facts should be known. The names of the victims are withheld by request.

Two of these women were captured while attempting to leave the stations where they were located and were led about the country naked, repeatedly outraged and finally killed by a method too revolting to be described.

UNSPEAKABLE OUTRAGES.

Two other American women were coming to the coast with a party, which a number of Chinamen followed and stoned. The women fell exhausted and were taken by the Chinamen into the presence of the local officials. They were prostrated upon the execution block and a feint was made of beheading them. One of them became hysterical and laughed, and, thinking her insane, the Chinese escorted her to the coast because of their superstition regarding the insane. On the journey, however, the woman was repeatedly criminally assaulted by her escort. The other woman, after being exhibited naked for some days and suffering assault by several men, was tortured to death by the same shameful methods as were practiced in the other cases.

Two Swedish missionary women arrived at Shanghai after similar experiences, except that their lives were spared. The foregoing are matters of official record.

FOURTEEN KILLED.

The fourteen English missionaries, including six women and four children, who were murdered at Chu Chau, in the province of Che Kiang, according to the story of a Spanish priest who escaped, were killed with hay forks and ancient spears by the magistrate's bodyguard and their naked bodies were hanged from trees.

The incidents make a lenient policy unpopular in Shanghai, where all the victims had friends.

Placards appeared today in all public places exhorting foreigners to oppose a compromise with the government and attacking Li Hung Chang, quoting the remark to Consul Goodnow credited to Earl Li that "the foreigners in Pekin except the missionaries were of no account."

THOUSANDS IN THE THRONGS

IMMENSE LABOR DAY CROWDS AT SWINNEY PARK.

Excellent Program Was Carried Out Nicely—Labor Leaders Are Highly Pleased.

Fort Wayne's observance of Labor day was elaborately planned and most successfully conducted. The people entered so heartily into the spirit of the occasion and the program was carried out so satisfactorily that the day will always be a pleasureable memory to the toilers of the city.

Swinney park has seldom held two larger crowds than were present Monday afternoon and evening. Hour after hour the throngs poured into the park, by street car, in carriages, on bicycles and afoot, until a conservative estimate of the crowd at 5 o'clock placed the figures at 20,000. Many did not return home at the conclusion of the afternoon program, but ate lunch at the park and remained for the evening exercises, which were witnessed by fully 12,000 people.

Mayor Scherer presided at the afternoon meeting and the speakers were Hon. J. M. Robinson, Hon. R. B. Hanna, Judge Vesey and W. C. Bohannon. The president of the evening was Hon. J. M. Robinson, and Rev. E. W. Allen, Hon. J. H. Aiken and Theodore Lange delivered addresses. The speakers at both afternoon and evening gatherings spoke briefly, but paid the loftiest tributes to the worth of the laboring classes, and their importance in the structural fabric of the republic. The addresses were most heartily received. Professor Wood made a successful balloon ascension and parachute descent at 5 o'clock, the aeronaut alighting at the south side of the park. Vaudeville performances and excellent band concerts both afternoon and evening assisted in entertaining the crowds. The receipts from the refreshment stands amounted to a total of about $800.

Overloading or overworking	8
Ordered from work and given rest	7
Persons warned for cruelty to animals	11
Boys warned against shooting native birds	2

L. C. Schlaudroff,
Special Officer.

BOONE-KINTZ.

Miss Laura Boone and Valentine Kintz, both residents of Wayne township, were united in marriage this morning at St. Patrick's church. The officiating clergyman was Rev. J. F. Delaney, and the ceremony was performed at 7 o'clock in the presence of numerous friends of the young people. The attendants were Miss Georgia Carter and John Noll. After the ceremony Mr. and Mrs. Kintz drove to their farm home in Wayne township, and the balance of the day was given over to wedding festivities.

TO GRADE COLUMBIA AVENUE

Residents of Lakeside have importuned the board of works to grade Columbia avenue eastward from Crescent avenue to Walton avenue. The new Walton avenue bridge is about completed and the approaches will soon be in readiness for use. Terefore, Lakesiders are very desirous of having a drive to the bridge. The board may act on the suggestion at its next meeting Thursday evening.

BOERS FIGHT FROM HILLS.

Crocodile River Valley, Transvaal, Sunday, Sept. 2.—General Buller today reconnoitered the Boer position in the mountains overlooking Lydenburg. General Botha and 2,000 burghers had previously joined the forces holding the pass. The Boers opened with three Long-Toms and fire continuously all day long. The British had few casualties.

LOSE TRAIL OF ROBBERS.

Rawlins, Wyo., Sept. 4.—Couriers from the posse in pursuit of the Union Pacific train robbers report that the trail has been lost at Timber Lake.

MARRIAGE LICENSE.

Henry Selking and Margaret Reidel.

GRANT MINERS' DEMANDS.

Middlesboro, Tenn., Sept. 4.—Thomas McCracken, secretary and treasurer of the United Mine Workers' union, today stated that he had received notice that six mining companies in the Jellico district have agreed to grant the demands of the miners relative to the new wage scale and the striking miners will immediately return to work.

TOWN WHERE ALL ARE HAPPY.

"The most interesting place it has been my good fortune to visit in many years," said T. M. Gilmore, on his return from the east a few days ago, "is the little town of Economy, Pa. It is well worth a long journey to see, and the people are the most delightful I have ever met. The foundation of this town dates back to 1805. It was settled by a priest, whose name was Father Rapp, and a number of Germans. They organized a society, which was called the Harmony society, and numbered nearly 1,000 people at the time. They pledged themselves never to marry, and since the town was founded there has only been one marriage. The society has now dwindled down to nine persons, but the town is thickly populated becaues of the advent of other persons, who lease and operate the factories. The society owns 3,500 acres of land, which is in a high state of cultivation. Coal, iron and gas abound. Grapes are raised in quantities and are made into wine of fine quality.

"The town is very pretty, with wide and shady streets, and with houses covered with vines. They have no doors, and the only entrance is from the rear. Economy is exercised on all sides, and when the society is reduced to one person he will get the entire vast estate. People visit the place from all parts of the world. Men and women live alone and all seem to be happy and contented. The present head of the society is a married man. He was single when he joined it, but he afterward left it and was married. The people recognize him as a leader, and he was invited back and made their chief. He and his family live in a handsome residence in the center of the town and have everything heart could desire. When the old members die he or his children will get everything, as it is one of the rules of the society that nothing can be willed away. Economy is certainly the garden spot of Pennsylvania."—Louisville Courier-Journal.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

When it was so hot, a week or so ago, hundreds of sparrows that dwelt in the ivy on the walls of a certain block of houses in Philadelphia would fly down to the pavement and take baths in the streams of the lawn sprinklers without the least indication of fear.

The U. V. L.

Will be here next week. Receive them with colors flying. A full line of Bunting and Flags at lowest prices at
THE PEOPLE'S STORE.

A novelty in the way of strikes has occurred at Budapest. All the monks of the Franciscan order, with the exception of the superior, have left the monestery of Budapest and decline to return until certain new regulations are removed.

BASE BALL.

Tomorrow, New Castle vs. Fort Wayne. Game called at 3:30.

MAY FOLLOW AUSTRALIA.

It was a foregone conclusion that the ratification by the imperial parliament of the constitution of the Australian federation would be followed by a demand on the part of Canadian statesmen for new concessions from Great Britain in the direction of more complete independence and democracy. A comparison of the Canadian system with that of United Australia shows that the latter represents a decided advance and is more in keeping with the spirit of the times. The Canadians cannot be expected to remain satisfied with a smaller measure of self-government than the somewhat impetuous and radical democracy of the antipodes has obtained. Their desire to be placed on an equal footing with the Australians is therefore eminently natural. But in what respects does the new federation enjoy advantages? Minor matters apart, here are two important features of the Australian constitution which are lacking in that of the dominion:

1. A popular senate, elected directly by the people and amenable to the voters.

2. The right of interpreting the constitution by the colonial supreme court, without reference or appeal to the imperial privy council, in all cases which involve none but Australian interests and rights.

The first feature makes for progress and the supremacy of the people; the second means independence in construing and enforcing the organic law of the federation. There is no reason, of course, why Canada should not have both.—Chicago Times-Herald.

"THE 'SALT' OF SALTS."

Abbey's Effervescent Salt

Taken these hot mornings

keeps you in better condition throughout the day. Enables you to attack your labors with renewed vigor and interest, and makes work a pleasure.

A teaspoonful of Abbey's Salt in a glass of water, used regularly, will keep you healthy. Good health will make you wealthy and happy.

Abbey's Salt is a preventive of and a cure for Constipation, Dyspepsia, and attendant ills.

Sold by most druggists, or sent by mail.

25c., 50c. and $1 per bottle.

The Abbey Effervescent Salt Co., 9-15 Murray St., N. Y.
Booklet free on request.

"Your Abbey's Effervescent Salt is invigorating, cleans the tongue and teeth and imparts a feeling of freshness and energy to the entire system. I am constantly prescribing it."
DR. W. H. WRIGHT, L.R.C.P.I., L.M., M.R.C.S.E., L.S.A.L., Medical Officer of Health, London, England.

1570 ASBURY AVENUE, EVANSTON, ILL., January 5, 1900.
Your Salt is a very superior article. Am well pleased with it. Bottle waters no comparison.
DR. WM. B. MANN.

866 DRIGGS AVENUE, BROOKLYN, N. Y.
I have prescribed Abbey's Salt in cases of Gout, Rheumatism Gastric Catarrh and Torpid Liver.
In each and every case the results have been gratifying. The patient has not in a single instance complained of a bad after effect. I find it pleasant and agreeable to take, effective and lasting in its results.
There is not a day that I do not prescribe it, with great satisfaction to myself and patients.

A SELECTION OF THE UNFIT.

A careful student of social conditions says that "the unemployed are, as a class, a selection from the unfit; and on the whole, those most in want are the most unfit." Of course, no employer can afford to pay a man for doing poor work. Unfitness may be either a misfortune or a fault. In either case, society suffers, and must learn how to prevent the increase of defective members by making industrial training a part of general education.—Youth's Companion.

SPICES

No food product is as much manipulated and adulterated as are the spices which are so necessary an adjunct to the household. This manipulation is so generally known, that pure food laws were passed by a number of states in an endeavor to stop the practice, but without avail. Recognizing the conditions as they exist, we carry a line of

"PURE FOOD" GROUND SPICES,

and guarantee them to be absolutely free from any admixture whatever. The following comprises a full list of our "PURE FOOD" species:

Allspice, Zanzibar Capsicum, African Capsicum, Saigon Cinnamon, Cloves, Jamaica Ginger, African Ginger, Mace, Mustard, Nutmegs, Black Pepper, White Pepper.

Facing the Future.

There comes a time to most women when they must face the future of wifehood and motherhood. What that future has in store for them depends largely upon themselves. To a healthy woman

the obligations and consequences of marriage are a lasting happiness. To a woman suffering from irregularity or other ailments of the sex, marriage may prove a mockery and motherhood a misery. Where such irregularity exists Dr. Pierce's Favorite Prescription can be used with the assurance that health will speedily be restored. It is the most reliable medicine known to medical science for the cure of diseases which affect the delicate womanly organs. "Favorite Prescription" is a non-alcoholic medicine and is also free from opium cocaine and other narcotics.

"At an early stage of married life," writes Mrs. Flora Arn, of Dallas, Jackson Co., Mo., "I was greatly bothered with painful periods, also a troublesome drain which rendered me very weak and unfit for work of any kind. I became so thin there was nothing left of me but skin and bone. My husband became alarmed and got me a bottle of 'Favorite Prescription.' After he saw the wonderful effects of that one he got me two more, and after I used those up there was no more pain, and I began to gain in flesh very rapidly. I owe all praise to Dr. Pierce and his wonderful curative medicines."

Dr. Pierce's Medical Adviser sent free on receipt of stamps to pay cost of mailing only. Send 21 one-cent stamps for book in paper covers, or 31 stamps in cloth to Dr. R. V. Pierce, Buffalo, N. Y.

INSPECTOR CONGER HERE.

W. L. Conger, of Indianapolis, special inspector for the rural free delivery mail service, was in the city this morning. Mr. Conger left today for Kendallville and within the next few days will drive over a number of routes which have been petitioned for in the northern part of the district.

PERCY H. REMINGTON DEAD.

Percy H. Remington, who was a resident of this city some years ago and was a student at the Fort Wayne High school, died Sunday morning, August 26, from consumption, at his home in Braddock, Pa., at the age of twenty-six years. Mr. Remington was assistant cashier of the state bank of Braddock, a position he has held since the organization of the institution in 1897. He has but recently made a trip to Colorado in the hope of benefiting his health.

FRIENDS HELP.

St. Paul Park Incident.

"After drinking a cup and a half of coffee once a day I always felt languid and dull, having no ambition to get to my morning duties. Then in about an hour or so a weak, nervous derangement of the heart and stomach would come over me with such force I would frequently have to lie down.

"At other times I had severe headaches; stomach finally became affected and digestion so impaired that I had serious chronic dyspepsia and constipation. Mrs. H. A. Hober, for many years state president of the W. C. T. U., a personal friend, told me she had been greatly benefited by quitting coffee and using Postum Food Coffee; she was troubled for years with asthma. She said it was no cross to quit coffee when she found she could have as delicious an article as Postum Food Coffee.

"Another lady, Mrs. Mary Baker, of Red Wing, Minn., had been troubled with chronic dyspepsia for years and found immediate relief on ceasing coffee and beginning Postum Food Coffee twice a day. She was wholly cured. Mrs. Judge Stocker, of Minneapolis, told me that Postum Food Coffee was a Godsend to her, her heart trouble having been relieved after leaving off coffee and taking Postum Food Coffee.

"So many such cases came to my notice that I concluded coffee was the cause of my trouble and I quit and took up Postum. I am more than pleased to say that my days of trouble have disappeared. I am well and happy." Mrs. Mary Harrington, St. Paul Park, Minn.

HARRY O AT HARTFORD.

In a great field of 2:08 pacers at Hartford, Conn., yesterday, Harry O, Centlivre's great son of Atlantic King, won the second heat in 2:07¼. The race then went over until today. Free Bond won the first heat in 2:07¾.

A POLICE COMMITTEE.

The policemen have appointed Captain Whitney, Sergeant Harkenrider and Officers Elliott, Knock and Greer a committee to visit the Wabash railway and try and arrange rates for an excursion to the Lafayette carnival the last week in September. The trip will probably be made on Thursday if it is decided to go at all. Superintendent Gorsline and Lieutenant Lapp are honorary members of the committee.

BIG CHECK ARRIVES.

Monday's mail brought to the Hamilton National bank one of the largest checks ever sent to a Fort Wayne institution. It called for $115,000 and bore the signature of the treasurer of the United States. The check was in payment of United States bonds held by the Hamilton bank and which had matured. They were the old U. S. 4½ issue, which were continued a few years ago at 2 per cent.

LANDAU PARTY INJURED.

Deer Lodge, Mont., Sept. 4.—A team of horses attached to a landau loaded with people returning from a picnic became frightened today and ran away. The landau was dashed against a building and five persons were seriously injured.

ENDURED DEATH'S AGONIES.

Only a roaring fire enabled J. M. Garrettson, of San Antonio, Tex., to lie down when attacked by Asthma, from which he suffered for years. He writes his misery was often so great that it seemed he endured the agonies of death; but Dr. King's New Discovery for Consumption wholly cured him. This marvelous medicine is the only known cure for Asthma as well as Consumption, Coughs and Colds, and all Throat, Chest and Lung troubles. Price 50c and $1.00. Guaranteed. Trial bottles free at Dreier Bros'. drug store.

BOYS' CLOTHING.

A few days more and the boys will be back in school, and you should take advantage of the few remaining days of their holidays to provide them with a new suit. All our new stock is in and, as you must know, we handle nothing but dependable qualities and at prices that are always reasonable.

The diplomatic musician who can tune up that concert of the powers can get a job and no questions asked.

The news of the duke of Manchester's bankruptcy creates a suspicion that he made the mistake of associating with financiers of New York instead of their heiresses.

Let it be noted that Arkansas has taken her usual place in the democratic column when observing tomorrow that Vermont has "grandly wheeled into line," etc. Nothing like keeping the political situation well balanced.

Shanghai would like to see all of China soundly whipped. Probably this feeling has grown naturally out of the relations between Shanghai and the remainder of China. But Shanghai not being in a position to do any of the whipping, might wisely refrain from the attempt to dictate to less biased or better informed statesmen.

To be described as "one of the most influential, able, conservative and distinguished leaders his party has had," etc., etc., it is only needful for the obscure citizen to address an "open letter" to some one and announce that he can no longer maintain his old political affiliations and be honest with himself and mindful of his duty to his country. Fame is dear to every heart and some achieve it at small cost.

Vermont is holding a state election today and next week the state election in Maine will take place. The result in each state is not in doubt, it being a mere question of republican majority. Both are as inevitably republican as Texas and Arkansas are democratic. Notwithstanding the certainty of the result there has been a good deal of activity displayed by the republican managers in the campaign up in that corner of the country. Vermont gave McKinley 40,000 majority in 1896 and Maine gave McKinley above 5,000. Republicans say that confidence in the re-election of McKinley has reduced republicans in those states to a condition of apathy which will affect the republican majorities. However, it has been felt that results will have to be taken as some measure an indication of the strength of the president and his chances in those states. If there is any falling off it will be regarded as a danger signal. But on the other hand it is argued by some of the managers that a closer vote than usual would be a good thing as admonishing the party managers and masses everywhere of the great danger that lurks in an over-confident feeling.

The spread of the bubonic plague in Glasgow is becoming a serious matter. No port city that has extensive trade with the southern Asiatic regions can ever be regarded as wholly secure against importation of the plague, but it certainly seems that the authorities of Glasgow were not only tardy to recognize the danger that has come upon the city, but were represensibly slow to take stringent measures to prevent the spread of it. Something could be learned by European cities of seaport cities in the United States where the utmost vigilance is maintained by the health authorities and where such a danger as developed in Glasgow is stifled the moment it appears.

Hon. Carl Schurz very strongly objects to any confusion of the issues in the present campaign. The great German-American publicist is at the present time above all else anti-imperialistic and he believes the recent interview given out by Secretary Gage ostensibly to show that if Mr. Bryan is elected he will be able to so interpret the new currency law as to reduce the country practically to a silver basis is in reality a subtle attempt to alarm the gold democrats and independents who are going to support Bryan. General Schurz points out that if there is any weakness in the new currency law that will permit such an executive policy as to the standard of money it is due to republican duplicity, because the party had promised to firmly fix the finances of the country on a gold standard. But the most forcible point made by Mr. Schurz is that if there are any serious flaws in the law the secretary as an able financier can easily find them and with a republican congress and executive they may be remedied so effectively next winter before Mr. Bryan's inauguration as to forestall any executive construction that will put the country on a silver basis or any other than a gold basis.

BATTLE FLAGS RETURNED.

Columbus, Ohio, Sept. 4.—The colors of the Thirtieth Louisiana regiment, captured by the Forty-sixth Ohio volunteer infantry during the civil war, were returned to a committee of the survivors of the Louisiana regiment at the reunion of the Forty-sixth Ohio volunteer infantry at Worthington, a suburb of Columbus, today. The flags were captured at Ezra Courthouse, just outside of Atlanta, Ga., and have been in the relic room of the state capitol here for many years. Governor Nash was present and participated in the exercises.

PLACED IN THE ARCHIVES.

The Hague, Sept. 4.—The ratifications of the agreements and treaties resulting from the peace conference were formally placed in the foreign office archives today. The minister of foreign affairs, Dr. W. H. DeBeaufort, in a brief speech expressed the hope that the future historian will be able to declare that the work of the conference was of lasting benefit to humanity and proposed that an expression of this hope be conveyed to the czar. A telegram in this sense was subsequently dispatched to St. Petersburg.

HONORED BY THE EMPEROR.

Berlin, Sept. 4.—Emperor William has conferred the Order of the Red Eagle on Admiral Bendemann, commanding the German squadron in the far east for the services he has rendered in China.

A Wrong Notion
It is a mistake to suppose that baby must come with great pain and suffering. An expectant mother need only use the wonderful liniment called MOTHER'S FRIEND to escape the dread, danger, pain, distress and nervousness. Druggists sell this liniment for $1 a bottle. Wives are invited to send for our free illustrated book. It will tell them things they ought to know.
THE BRADFIELD REGULATOR CO., Atlanta, Ga.

SMALL RACE RIOT

PEACEFUL MARION AMBITIOUS TO BE UP TO DATE.

NEGROES AND WHITES CLASH

THE TROUBLE GREW OUT OF A BASE BALL GAME.

HAPPENINGS IN HOOSIERDOM

GENERAL NEWS OF THE STATE OF INDIANA.

Marion, Ind., Sept. 4.—A race war was started here yesterday at an amateur ball game. J. T. Rademaker was knocked down by a colored man. Rademaker's son-in-law, Charles Dwyer, then struck the negro with a ball bat, and a riot followed. Dwyer escaped to a residence, which was soon surrounded by 200 negroes, crying, "Kill him, lynch him." A riot call was sent to police headquarters, and a patrol wagon full of police dispersed the mob and rescued Dwyer.

A FLASH OF LIGHTNING.

Princeton, Ind., Sept. 4.—John W. Gladish, 27 years old, was struck by lightning near here and instantly killed. Together with his companion, Jesse H. Willits, they had just driven their team of horses under a farm shed for shelter. Willets was stunned and thrown beneath the horses, both of whom were knocked down by the flash. Gladish had been married but four months.

THE TRUNK EXPLODED.

Richmond, Ind., Sept. 4.—I. E. Hodson, a baggageman employed by the Panhandle, met with a peculiar accident yesterday afternoon. While handling a trunk, an explosion took place, reducing the trunk to fragments and badly burning Hodson about the eyes and face.

A LOSS TO THE STATE.

Terre Haute, Ind., Sept. 4.—Rev. William Mitchell has resigned as pastor of St. Luke's Episcopal church, to accept a call to the Church of the Holy Communion, at Redwood Falls, Minn. Rev. Mitchell came here five years ago from Kendallville, where he built a mission church. He has had charge of mission work in Rockville and Brazil, Ind., and Marshall and Martinsville, Ill., in addition to his work at St. Luke's.

HOW ABOUT FORT WAYNE?

Scottsburg, Ind., Sept. 4.—For several years the people of this part of the state have been tying to get the legislature to erect a monument over the graves of the victims of the Pigeon Roost massacre, but they have always met with failure. Recently the G. A. R. of this county began moving in the matter. There are but two points in Indiana of historical interest with reference to early Indian encounters. One of them is the battleground of Tippecanoe and the other Pigeon Roost. Appropriations have been made for the former, but the latter is unmarked, in the midst of an old field overgrown with weeds and briars, with nothing to mark the common grave of the twenty-two persons killed at that time, save an old sassafras tree.

A QUESTION OF BLOOD.

Portland, Ind., Sept. 4.—The marriage of Mrs. Samantha Vincent and Albert Faxon, whose nationality is questioned, and who is under bond awaiting trial in the Jay circuit court, is a very peculiar case. Mrs. Vincent was a well-to-do widow, with a farm of 150 acres, and drawing a pension of $12.50 a month. She also had some other property, and she made a good living for herself, her children all being adults and settled in life. She had reached the age of fifty-three years, and her once auburn hair had turned gray. Mrs. Vincent employed Faxon as a farm laborer. Their friendship ripened into love, and on last Wednesday Faxon came here and made application to the county clerk for a license to wed Mrs. Vincent. His eligibility to wed a white woman was questioned, and Alf Smith, a friend, made affidavit that Faxon had less than one-eighth colored blood. After this the clerk issued the license, and the couple were united in marriage by Rev. M. A. Harlan. They then left on a pleasure trip, going to Greenville, O., and other points. Both were well attired, and the sight of the gray-haired woman with the youthful looking husband, who appeared other than a genuine white man, attracted much attention. The couple returned here last Friday night, and on an affidavit by Corwin Alexander, a son-in-law, City Marshal Carr placed Faxon under arrest. The bride was much distressed over the arrest, and tried hard that night to procure bond, and she cried bitterly when she found that she could not accompany him to jail.

Faxon was given a preliminary hearing on Saturday, and was placed under $500 bonds to await action of the grand jury. During the examination he was not at all disturbed. Friends of Faxon claim that he is really less than one-eighth negro blood, but this remains to be proven. The woman's friends are trying in every possible way to separate the couple, but so far have been unsuccessful. Mr. Faxon is but 22 years old.

TOOK AN OVERDOSE.

Hartford City, Ind., Sept. 4.—One of the saddest deaths that has occurred here in a number of years was that of Miss Margaret Lee, of Albuquerque, N. M., who died Sunday evening at the home of ex-Auditor James T. Trant, at whose home she was a guest. At the morning service at the Catholic church she sang a solo Sunday and at 9 o'clock was a corpse. Her death was due to an overdose of acetanild headache powders, which she had purchased at Terre Houte. The deceased was 29 years of age and the accomplished daughter of Judge W. D. Lee, of Albuquerque, N. M., who was a relative of the late Robert E. Lee, commander-in-chief of the confederate army. She was an accomplished young lady who had spent much of her life in travel. No funeral arangements will be made until the arrival of her relatives, but it is thought the remains will be taken to Albuquerque for burial.

THE PLAGUE IN GLASGOW

THIRTEEN CASES NOW UNDER TREATMENT.

Rumor in London of an Outbreak of the Plague in That City Has No Confirmation.

Glasgow, Scotland, Sept. 4.—A bulletin issued by the medical officers of Glasgow this morning shows that an additional plague case has been reported. The total is now 13; doubtful cases, 3; under observation, 103.

RUMOR OF PLAGUE IN LONDON.

London, Sept. 4.—A report was current to-day that two cases of the plague had been discovered in the vicinity of the London docks, but the medical officer, when questioned on the subject, said he knew nothing about the matter.

CAME FROM PLAGUE PORT.

New York, Sept. 4.—The steamer State of Nebraska arrived to-day from Glasgow and reported all well on board. However, as she came from a plague port she was held at quarantine for examination. After her passengers and crew had been inspected and all found well the steamer was released and she proceeded to her dock at noon.

POLITICAL NOTES.

The democrats of Arcola will have a pole raising next Friday evening. John H. Aiken will deliver an address.

The Jefferson club will hold a special meeting this evening to complete the organization of the marching club. The uniforms have arrived and can be secured at Lehman's clothing store. A drum corps will also be organized and there is talk also of organizing a drill corps of twenty-four men to make fancy movements during parades on the streets.

UNIFORMS ARRIVE.

The first consignment of uniforms for Capt. O. C. Meyer's newly organized company G, of the Indiana national guard, arrived this morning and within a short time will be issued to the members. The entire equipment of the company is to be entirely new and of the most approved pattern.

SOLDIER'S WIFE DIES.

Denver, Col., Sept. 4.—Mrs. Corliss, wife of Col. A. W. Corliss, of the Second United States infantry, died at Fort Logan today after a long illness. Colonel Corliss is now en route to China with his regiment. He passed through Denver a few days ago, but his orders did not permit him to go to his wife's bedside.

DIVIDENDS ON HECLA SHARES.

Boston, Sept. 4.—The directors of the Calumet and Hecla Mining company today declared a dividend of $20 per share.

Detroit is one of the most beautiful cities in America. You can go there next Sunday for $1.60 via Wabash and Steamer. Train leaves 5:50 a. m. 2tf

CONCORDIA'S YEAR BEGINS

LUTHERAN COLLEGE WILL OPEN WEDNESDAY.

Nearly Sixty New Students to Enter—Parochial Schools Convened Today.

Tomorrow morning a new year's work begins at the big Lutheran educational institution on Maumee avenue. Concordia college has always stood in high favor with a wide reputation, and for several days the students have been gathering in from widely divergent points to be in readiness for the opening classes tomorrow.

A very large proportion of those present last year, with the exception of the class of graduates, are returning, and in addition there are about sixty new students enrolled. The attendance will be about 175, and the faculty remains the same as last year, with the addition of Professor Dorn, who succeeds Professor Duemling. Among the new collegians are a number of young men from Europe.

PAROCHIAL SCHOOLS OPEN.

The Catholic parochial schools of the city, with the exception of St. Patrick's, opened this morning for the fall term and each school reports a much increased membership over that of the previous term. The total number of scholars is estimated at about 2,500, an increase of about 200.

The Catholic high school in Library hall opened this morning with forty pupils in attendance, a gratifying increase over last term. Brother Marcellus is in charge and has as assistants Brothers Ephraim, who was superior here three years ago, and Brother Ernest. Brother Marcellus is also principal of the boy's school, and in that department is assisted by Brothers Tobias, Florian, Cassian and Peter. Rev. John Durham is head of the high school and the brothers' school is under the direction of Rev. P. J. O'Reilly. Very Rev. John Guendling is in charge of St. Augustine's academy, which opened this morning with 325 pupils.

St. Patrick's school opens tomorrow morning, with 500 pupils and the largest per cent. increase of any of the parochial schools. Rev. Father Delaney expects to add more school room to that already occupied, and a new teacher will be engaged. A number of improvements have been made in the school during the summer, slate blackboards having been placed in every room.

The various German Lutheran schools commenced the fall season this morning and the reports from the heads of the various schools show a gratifying increase in the number of pupils. There are two new Lutheran schools, Concordia and Emmaus. The latter school has not been completed and will not open until later in the season.

SLAIN BY REJECTED SUITOR.

Denver, Col., Sept. 4.—Alvina Bolen, eighteen years old, a daughter of Hans Bolen, proprietor of the Metropolitan hotel, was shot and instantly killed on Sixteenth street by Wm. Baragar, a rejected admirer. Baragar then swallowed poison, but prompt medical attendance saved his life. He was committed to jail.

THE BRAVERY OF WOMAN

Was grandly shown by Mrs. John Dowling, of Butler, Pa., in a three years' struggle with a malignant stomach trouble that caused distressing attacks of nausea and indigestion. All remedies failed to relieve her until she tried Electric Bitters. After taking it two months, she wrote: "I am now wholly cured and can eat anything. It is truly a grand tonic for the whole system, as I gained in weight and feel much stronger since using it." It aids digestion, cures dyspepsia, improves appetite, gives new life. Only 50c. Guaranteed, at Dreier Bros'. drug store.

FACE HUMORS

Pimples, Blackheads, Red Rough, Oily Skin
PREVENTED BY
Cuticura SOAP

MILLIONS of Women Use CUTICURA SOAP, exclusively, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and healing red, rough, and sore hands, in the form of baths for annoying irritations, inflammations, and chafings, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and many sanative antiseptic purposes which readily suggest themselves to women and mothers, and for all the purposes of the toilet, bath, and nursery. No amount of persuasion can induce those who have once used it to use any other, especially for preserving and purifying the skin, scalp, and hair of infants and children. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odors. No other medicated soap ever compounded is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in ONE SOAP at ONE PRICE, viz., TWENTY-FIVE CENTS, the BEST skin and complexion soap, and the BEST toilet and BEST baby soap in the world.

Cuticura Complete External and Internal Treatment for Every Humor, consisting of CUTICURA SOAP (25c.), to cleanse the skin of crusts and scales and soften the thickened cuticle, CUTICURA OINTMENT (50c.), to instantly allay itching, inflammation, and irritation, and soothe and heal, and CUTICURA RESOLVENT (50c.), to cool and cleanse the blood. A SINGLE SET is often sufficient to cure the most torturing, disfiguring, and humiliating skin, scalp, and blood humors, with loss of hair, when all else fails. POTTER D. AND C. CORP., Sole Props., Boston. "How to Cure Face Humors and all other Humors," free.

REPLIES TO GAGE

CARL SCHURZ ON SECRETARY'S SCARE TALK.

NO DANGER OF SILVER BASIS

REPUBLICANS CAN MAKE LAW STRONGER.

HE ASKS GAGE TO RETRACT

COUNSELS HIM ON EVILS OF PANIC-BREEDING.

New York, Sept. 4.—Carl Schurz has addressed the following open letter to Lyman J. Gage, secretary of the treasury:

"Dear Sir:—The newspapers of August 26 published an interview with you in which you were quoted as saying that 'there is no doubt Mr. Bryan (if elected president) could order his secretary of the treasury to make payment in silver of all the public debt payable in coin, and for all current disbursements of the government as well, which amount to $1,500,000 to $1,750,000 per day, and that he would give such an order, too, is very certain, if he is in the same mind that he was in 1896.' You went on to say that although Mr. Bryan 'would have great difficulty in doing that at once,' owing to the small silver resources of the government, yet he might accomplish it in time, as the mere announcement of such a purpose 'would stop the inflow of gold or at least very largely diminish payments in gold and correspondingly increase payments into the treasury of silver and silver certificates;' that this would practically put the government on a silver basis, ruin its credit and bring incalculable disaster upon the business interests of the country.

DENIED BY MR. SCHURZ.

"Having for a great many years taken a deep and somewhat active interest in the establishment of a sound monetary system in the United States, I may without impropriety publicly address to you a few remarks in reply to your public statement. I emphatically deny, Mr. Secretary, that the danger set forth by you in your interviews really exists, and that any president will be able to do what you say might be done unless the republican party in control of the government in both its legislative and executive branches prove itself utterly dishonest in its profound purpose to maintain the gold standard.

"This denial is not based upon the reasoning of those of your critics who seek to show by figures that a president desiring ever so much to put the country upon a silver basis would lack the means for doing so. On the contrary, for argument's sake, I will accept all you say on that point. But you omit to mention a fact of decisive importance.

EFFORT TO CAUSE ALARM.

"If the executive, as you say, possesses the discretion of 'paying silver in settlement of all interest on the public debt not specifically payable in gold, and of making its daily disbursements to its creditors in silver,' it is owing to a flaw in the currency law passed at the last session of congress—a law which, as the spokesman of the republican party promised, was to put the gold standard upon an impregnable basis. It was suggested at the time by some of the critics that this law was purposely so manipulated by republican politicians in the senate as to leave the possibility of the subversion of the gold standard by executive action open in order to enable the republicans in the present presidential campaign to say that the election of a republican president was absolutely necessary to save the gold standard and to prevent dreadful economic disaster. Whether any such scheme entered into that legislation I do not assume to determine. Certain it is, however, that this feature of the law is now so used, and that you, Mr. Secretary, actually do so use it for the evident purpose of alarming the business community and the possessing classes generally.

A QUESTIONABLE COURSE.

"I hardly need to say to you that the spreading of false alarms of this kind is a very questionable and reprehensible thing for anybody, and especially for a secretary of the treasury. And I call your prediction of the possibilities specified by you and of the disasters sure to follow a false alarm for a very simple reason. Whoever may be elected president on November 6, there will be another session of congress before he will take office on March 4, 1901. The republicans will have strong majorities in both houses of that congress. The executive, too, will be in their hands. They will, therefore, be able to make such laws as they please. They will thus have full power and ample opportunity before the inauguration of the next president to pass any legislation required to make it utterly impossible for any president to break down the gold standard in any way you, Mr. Secretary, describe in your interview. A simple enactment in two or three lines substantially providing that it shall be the duty of the secretary of the treasury to pay in gold or silver, at the option of the creditor, all kinds of indebtedness of the United States now payable in coin may be sufficient.

CAN REMOVE FEAR OF CHANGE.

"And if there should be another flaw in the present law dangerous to the gold standard in any other way you, Mr. Secretary, able financier as you are, will surely detect it and find a legislative remedy and have it ready in the shape of a well-matured bill to be submitted to congress at the opening of the session. In short, the republicans, controlling both the legislative and the executive branches of the government, will next winter have ample power and opportunity to do what they ought to have done at the last session—to put the currency law in such a shape that the gold standard cannot possibly be shaken by executive action, no matter who may occupy the presidential chair—and thus remove, to that extent at least, the basis of our monetary system from the changeful game of party politics.

"Do you see any reason for doubting that congress at its next session will do this? It is quite evident that, if there is any substance at all in your prediction of disaster, the republicans in congress cannot refuse to do it without proving that the professed solicitude of the republican party for the maintenance of the gold standard is arrant hypocrisy. But if there be any wavering I am convinced public opinion will, in case of necessity, compel them to take the necessary steps.

URGES A RETRACTION.

"You will thus have to admit, Mr. Secretary, that when you sounded your note of alarm you had overlooked the most important fact that you and your party friends—that is, the republican majority in congress, led by the administration of which you form so important a part—will be able easily and promptly to remedy the defects of the law which you have described as a source of terrible danger, and therefore your note of alarm was, to say the least, a mistaken one. It may suggest itself to you as a matter worthy of grave consideration whether you should not retract what you have said, in fairness to the business community, which should not be unnecessarily disquieted, especially not by those in authority. I am sure many of your fellow-citizens are anxious to know what you may have to say on this aspect of the situation. Very respectfully yours,

"C. Schurz."

"Bolton Landing, Lake George, N. Y., Sept. 1."

NO SUCCESSOR ELECTED.

New York, Sept. 4.—At the offices of the Southern Pacific Railroad company to-day it was said no meeting of the board of directors had been called as yet to fill the place made vacant by the death of the late Collis P. Huntington. A press dispatch to the effect that the work on the proposed line from Durango to Mazatlan had been abandoned was denied.

STEEL TRUST DIVIDEND.

New York, Sept. 4.—A meeting of the directors of the American Steel and Wire company was held here to-day. The usual dividends were declared. No statement was given out as to the other business transacted by the directors.

EDITOR'S AWFUL PLIGHT.

TALK TO TEACHERS

ALLEN COUNTY INSTITUTE IS WELL UNDER WAY.

ATTENDANCE IS VERY LARGE

ABLE INSTRUCTORS ARE HEARD WITH PROFIT.

DR. BROWN ON PSYCHOLOGY

ARRANGING FOR THE TOWNSHIP GATHERINGS.

More than three hundred and fifty teachers are in attendance at the annual county institute to-day, and this number is in excess of the instructors employed in the public schools of the county. It is believed that practically every Allen county teacher is present, and in addition to these are other instructors from the parochial schools and a few of the public school teachers from adjacent counties. The audience to-day completely fills the auditorium of the West Jefferson Street Church of Christ, and the teachers are taking a deep interest in the proceedings.

Superintendent F. J. Young is presiding, and J. W. Hursh, of Perry township, has been elected secretary. At each session Prof. William Miles, of the Fort Wayne schools, conducts the musical program of several numbers, and this morning Rev. E. W. Allen conducted a brief devotional service.

TALKS OF NATURE STUDY.

Miss Anna E. Logan, primary supervisor of the Cincinnati public schools, is giving the Allen county teachers some valuable instruction in primary work. Miss Logan began with a presentation of "The Child's Basis of Knowing," detailing at some length the primary foundation of the child's receptive faculties, and told of the methods which will best develop the young mind. Miss Logan began this morning upon her topic proper—"Nature Study"—and it is already quite certain that she will prove one of the most popular and valuable instructors of the institute. Miss Logan's work is intensely practical—largely a recital of her own experiences in primary instruction. She explains thoroughly the system of nature study now in general use in the primary schools. All nature, and particularly animal life, appeals to the child life, and is especially valuable in encouraging the development of the powers of observation, and the results of its use in broadening and deepening the child's conception of human life are most pronounced. Interspersed with the instructions Miss Logan charmingly relates incidents of school life showing the adaptation of the methods of nature study, and she holds the attention of the teachers with the closest interest.

DR. BROWN'S LECTURES.

Dr. J. F. Brown, vice president of Earlham college, at Richmond, has awakened a pronounced interest, also, in his presentation of "Educational Psychology," for he handles the subject in a manner that is plain and forcible. This morning, among other things, Dr. Brown said:

"Psychology has for its purpose to give an account, and, so far as possible, an explanation of the facts of consciousness. First, we must get at the facts, and then the explanation. There are three general divisions of the subject—general psychology—such as may be found in the text books; and third, and what is of most value and importance to the teacher, the psychology of the individual.

"A knowledge of psychology is very helpful to the understanding of literature, history and the actions of individuals. We shall discuss only educational psychology, a few selected principals having a special bearing upon education. A knowledge of psychology is not designed to displace a knowledge of subject matter.

THE GREATEST NEED.

"A more thorough scholarship is probably the greatest need of teachers today. Modern psychology is especially devoted to the exploration of the facts of consciousness, by reference to physical conditions; hence the emphasis upon the physical structure of man. Man is a complex being, the product of a long process of development. Differentation of physical structure has been accompanied by a differentation of functions. Within the nervous system, which is the special organ of consciousness, there is a differentation of structure and of function also, certain parts having to do especially with certain activities. A comparison of the human brain with the brains of the higher brutes show many startling resemblances, the great difference being that the human cerebrum is so much more largely developed. To both resemblances and differences we must look for an explanation of many of the facts of human consciousness."

This afternoon Dr. Brown took up "Habit" in its relation to psychology. In part he said: "Habit has its seat in the nervous system, and is due to the elasticity of nerve matter. It is trite to say that it means much in education, but from the physiological point of view the important thing is to make the nervous system an ally and not an enemy."

Another interesting feature of the afternoon was "Our Ancestors," by Dr. B. Von Kahlden, of the Fort Wayne schools, in which the speaker took up German history, religion and mythology.

The institute will continue until Friday noon. Ladies of the West Jefferson street church are serving meals to the teachers in the dining hall of the church.

TOWNSHIP INSTITUTES.

Immediately at the close of the county institutes the townships will each hold their first institute of the year, and committees are now preparing programs for these meetings. The dates selected are as follows:

Friday Afternoon—Wayne and Washington townships, at the Elektron building.

Saturday—St. Joe and Adams townships, at the Elektron building.

Monday—Lafayette and Pleasant townships, at No. 6, Lafayette township.

Tuesday—Jefferson, Jackson and Monroe townships, at Townley.

Wednesday—Madison and Marion townships, at Hoagland.

Thursday—Lake and Aboite townships, at the Elektron building.

Friday—Perry and Eel River townships, at Huntertown.

Saturday—Springfield, Scipio, Maumee, Milan and Cedar Creek township, at Maysville.

County Superintendent Young will be present at each of these township meetings.

NEED A CHECKING SYSTEM.

A well-filled train drew into Victoria station and the passengers crowded around the huge pile of luggage, pulling and hauling with the porters at trunks, bags and bundles of rugs, says the London Daily Mail.

A tall, middle-aged gentleman picked up a black leather steamer trunk, holding it by one end. At the other end of the box was a lady, who said, "Kindly drop this box, it is mine."

"I beg your pardon, madame," retorted the tall man, "I am sure it is mine."

They put down the box and examined it, but it bore no distinguishing marks. Just then a third claimant picked it up and proceeded to carry it away, and he in turn was stopped by a young man who protested loudly that the trunk was his; and he proceeded to prove it by turning the box over and showing three initial letters painted on the leather strap on the side. Even then the third claimant failed to show satisfaction, and the dispute nearly ended in fisticuffs.

These scenes, which are not infrequent, created much consternation and astonishment among the foreigners, who constituted the majority of the passengers. They were loud in their complaints of the manner in which British railways neglect their passengers' luggage, never forgetting, however, to charge for carrying it.

The advent of the "Twopenny Tube," with all its modern improvements, will probably have the effect of stimulating the other railway companies to better things, and the traveling public may some day be most agreeably surprised to learn that the simple system of luggage checking, which is used even in Haiti, has been adopted in England.

AMERICANS MORE RATIONAL.

Our crowds may, and do, have riproaring times when the occasion demands it; but surely they do not become asinine as do European crowds. If they mobbed their president as did that Parisian crowd a few months ago they wouldn't be content with so ignoble a result as breaking his hat with a cane. They may stand around newspaper offices looking at bulletins, but even on election night they don't rush away in mad, screaming hordes, every few moments yelling hysterically "a bas" something or somebody.

In London, wherever crowds gather for any purpose, from an unveiling to an excursion, street hawkers are on hand with two things that they call respectively "teasers" and "ticklers." The "teaser" is an empty bladder tied to a stick, and the "tickler" is a long feather. The "teaser" is affected most by the male representative of English dignity, and the "tickler" captures the fond feminine heart. The male goes into raptures of joy when he succeds in hitting somebody—a respectable elder gentleman preferred—with his toy. The female trips gayly through the streets, tickling the ears of masculine persons to whom she has not been introduced.

And among the "lower orders" who are as undignified as are the costermongers of London? We have no class that delights in wearing grotesquely bell-shaped trousers, with huge pearl buttons down the sides, and coats with immensely broad braid bindings and also profusely covered with pearl buttons as big as trade dollars.—London Press.

The Bell has Rung.
Straw Hats are Called in.

Your fall hat is here waiting—not one style or two, or three, as the "exclusive" hatters, but over fifty distinct blocks to select from. The man we can't fit and fit perfectly ought to go bareheaded. Hat store $3 Derbies for

$2-00.

No charge for the label. Other stylish hats modeled after the Dunlap, Knox and Youman's fall shapes at

$1, $1.50, $2.50 and $3.

We do not deal in back numbers. Our styles are up to date. If you buy your fall hat here you will be satisfied with it.

New Castle	42	84	.333
Marion	35	86	.289

Jack Harper was in the box for Fort Wayne again yesterday afternoon and twirled his usual ineffective game. He was as wild as a March hare and allowed eight visitors to walk to first on balls and hit another, besides being credited with one wild pitch. His support was not gilt-edged and each of the errors credited to the home team was costly, especially so being Hollingsworth's failure to handle Babb's pretty throw which should have retired the Quakers and beat them out of two runs. Figgemeier did the twirling for New Castle and he grew better as the game progressed. The errors behind him were just as costly as those made by Fort Wayne, the first two scores by Fort Wayne in the initial inning counting on Van Buren's rank muff of an easy fly to the outfield. Latimer was behind the bat for New Castle, Graffius being under the weather, and Manager Wadsworth played first base. There were no distinct features of the game outside the wild twirling of Harper. The complete story of the game is best told in the following full score:

GAMES YESTERDAY.

Detroit, 7-2; Chicago, 6-0.
Indianapolis, 3-2; Kansas City, 1-1.
Milwaukee, 1; Cleveland, 0.

NOTES OF THE GAME.

The attendance yesterday did not exceed 700.

After today New Castle plays two more games and then Anderson comes Friday and Saturday.

Reub Waddell returned to the National league yesterday and let the Bostons down with four little singles.

Toledo is climbing the Inter-State ladder very rapidly and if the Fort Waynes do not take a brace the Mud Hens will land in second place.

The South Waynes challenge any club in the city for a game of ball, to be played Sunday, Sept. 9. Answer by calling Home 'phone 158 south.

The Frenchtown Grays defeated the Ravens 20 to 14. Batteries—Grays, J. Linskey, A. Lauer and G. Lauer; Ravens, J. Alt, Walter Wagner and McAfee.

The New Castles played their usual fast game yesterday and deserved to win. Nattress had a trio of errors at short, but Figgemeier never weakened.

Pat Wright has accepted terms with the Marion team and will probably finish the season at first base with the tail-enders. It would be pleasant to Pat if he could beat out his old comrades—the New Castles.

Wheeling has had a monopoly on forfeited games this season, all on account of the changes made in the schedule during the playing season. It is doubtful if the patrons of any base ball league were ever asked to keep track of a worse schedule in the history of the national game.

THE ROUTE TO THE POLE.

Although the eastern coast of Greenland is much nearer to Europe than the western, it is really much more inaccessible to explorers and far less is known about it The eastern side of the continent is colder than the other. A small branch of the gulf stream flows up the western coast and mitigates the severity of the temperature. That route to the pole, therefore, has proved the most popular with explorers. Brainerd and Lockwood were thus enabled to carry the American flag to above 83d parallel of latitude. Peary chose this path as the most promising. And the Norweigen, Sverdrup, who followed him up to the Artic regions two summers ago likewise.—New York Tribune.

BASE BALL

Tomorrow. New Castle vs. Fort Wayne. Game called at 3:30.

A POWDER MILL EXPLOSION

Removes everything in sight; so do drastic mineral pills, but both are mighty dangerous. No need to dynamite your body when Dr. King's New Life Pills do the work so easily and perfectly. Cures Headache, Constipation. Only 25 cents at Dreier Bros'. drug store.

One hundred dozen Knee Pants to choose from at 50c.
KRATZSCH BROS.

GRAND CIRCUIT RACE MEET

at Ft. Wayne, Ind. Tickets on sale via the Nickel Plate Road. Sept. 17th to 21st inclusive, good returning until Sept. 22nd, inclusive, at one fare for the round trip between Bellevue and Valparaiso. Write, wire, 'phone or call on nearest agent, C. A. Asterlin, T. P. A., Ft. Wayne, Ind. 4-6-11-13-18-21-w3t

ROME CITY SUNDAY TRAINS.

Commencing Sunday, July 1st, two trains will run to Rome City, leaving Fort Wayne at 6:30 a. m. and at 8:30 a. m. 2 tf

SHOW YOUR COLORS

Next week. A full line of Red, White and Blue Bunting and National Flags at
THE PEOPLE'S STORE.

THE MARKETS.

Chicago, Sept. 4.—Weakness characterized trading in wheat for the greater part of the morning. The market was affected by larger world's shipments, easy cables and better weather in the northwest. October opened ⅜c lower at 74⅞c, touched 73½c on a little local demand and then dropped to 74⅜c. Local receipts (two days) were 848 cars, 43 of contract grade, while for the same period Minneapolis and Duluth reported 1,143 cars, against 414 last week and 2,200 a year ago. World's shipments were 6,176,000 bushels.

The corn weakness later dragged wheat down. October, on the real buying, rallied to 74⅝c, but broke to 74⅛c and closed weak, 1@1⅛c lower at 74⅛@74¼c.

Corn opened steady, October ⅛c higher at 39⅛c to 39¼c, helped by higher Liverpool cables and light country offerings. On local selling the market reacted to 38⅝c. The volume of trade early was small. Receipts were 546 cars.

Corn closed weak at ¾@⅞c lower at 38¼c.

Oats were dull and steady, October opening a shade higher with corn at 21⅜c to 21½c. Opening prices held for some time. Receipts were 1,009 cars for two days.

Provisions were strong and active early, helped by light hog receipts and a good cash demand over the holiday. October pork opened 12½c higher at $11.17½ and sold to $11.12½; October lard opened 5@7½c higher at $6.82½ to $6.85, and October ribs 5c higher at $7.12½, selling to $7.10.

THE CLOSE.

Prices at the close were as follows:

Wheat—Sept., 73¾c; Oct., 74⅛@74¼c; Nov., 75c.

Corn—Sept., 39½c; Oct., 38¼c; Nov., 36⅜c.

Oats—Sept., 21c; Oct., 21¼c; Nov., 21⅜c.

Pork—Sept., 10.97½; Oct.,$11.07½; Jan., $11.30.

Lard—Sept., $6.77½; Oct., $6.80@6.82½; Nov., $6.77½; Dec., $6.60; Jan., $6.57½.

Ribs—Sept., $7.22½; Oct., $7.10@7.12½; Jan., $5.95@5.97½.

Flax—Cash N. W., $1.43½; Cash S. W., $1.43; Sept., $1.43½; Oct., $1.40.

CHICAGO LIVE STOCK.

Chicago, Sept. 4.—Cattle—Receipts, 6,500, including 2,500 westerns and 1,000 Texans; market generally steady. Good to prime steers, $5.60@6.10; poor to medium, $4.60@5.55; stockers and feeders, $3.35@4.80; cows, $2.80@4.50; heifers, $3.00@5.00; canners, $2.00@2.75; bulls, $2.65@4.65; calves about the same as last Tuesday, closing weak, $5.00@7.50; Texas fed steers, $4.25@5.00; Texas grass steers, $3.25@4.25; Texas bulls, $2.50@3.40.

Hogs—Receipts today, 13,000; tomorrow, 24,000; left over, 2,468. Market active to 10c higher; top, $5.50. Mixed and butchers, $5.00@5.50; good to choice heavy, $5.10@5.42½; rough heavy, $4.90@5.05; light, $5.15@5.50; bulk of sales, $5.15@5.37½.

THE DAY ON WALL STREET.

New York, Sept. 4.—The progress of prices in foreign securities marked during the holidays here caused small gains in the opening dealings in the international stocks. The conspicuous features, however, were Steel and Wire and People's Gas. The former rose 1¼, while the latter on running sales of 2,500 shares was quoted from 93⅞ down to 93¼, compared with 94, Friday's close.

The advancing tendency of the market was checked by heavy sales of high-priced specialties. Sugar fell 1¾, Brooklyn Transit 1⅜, and People's Gas 1¼ in all. Railroad stocks lost their slight gains in some cases, but in others the advantage was maintained. Pittsburg, C., C. & St. L. preferred lost 2⅜. There was very little doing in Standard stocks.

A firmer tone generally permeated the market in the second hour, Sugar rallying a point. People's Gas, on the other hand, continued to droop, reaching a decline of about 2½ points.

Bonds were quiet and firm.

NEW YORK PRODUCE.

New York, Sept. 4.—Butter—Receipts, 17,712 pkgs; market steady; creamery, 17½@22c.

Cheese—Receipts, 10,610 pkgs; market steady; large white, 10¼c; small white, 10c; large colored, 10¼@10⅜c; small colored, 10¼c.

Eggs—Receipts, 17,104 pkgs; market firm; western, regular packing, at mark, 10@16c; western, loss off, 16½@18c.

Sugar—Raw, steady; fair refining, 4¼c; refined, steady; granulated, $6.15.

Coffee—Market easy; No. 7 Rio, 8½@8⅝c.

THE POULTRY MARKET.

New York, Sept. 4.—Alive, steady; springers, 11½@12½c; fowls, 10c; ducks, per pair, 35@60c; geese, 70c@$1.00. Dressed, weak; springers, 11@12½c; fowls, 9@10½c.

THE MONEY MARKET.

New York, Sept. 4.—Money on call nominally at 1¼@1½ per cent; prime mercantile paper, 4@5½ per cent; sterling exchange steady with actual business in bankers' bills at $4.87⅝ for demand and at $4.84¼ for 60 days; posted rates, $4.85 and $4.88½; commercial bills, $4.83¼@4.83¾; silver certificates, 61¾@62¾c; bar silver, 62c; Mexican dollars, 48¾c.

FORT WAYNE MAN LOSES.

Little Rock, Ark., Sept. 4.—The entire democratic ticket, headed by the Hon. Jeff Davis, of Pope county, for governor, was elected in Arkansas yesterday. Early returns indicate that the vote will be lighter than was expected. H. L. Remmell, the republican candidate for governor, made a good showing and his increased vote over two years ago will probably reduce the usually large democratic majority. There was no opposition to the democratic ticket for any office except the governorship. A fair estimate places the total vote as follows: Davis (dem.), 100,000; Remmell (rep.), 40,000; Files (pop.), 3,000. Davis' majority, 57,000.

DEATHS AND FUNERALS.

GOEBEL.

Mrs. Mary Goebel, of this city, died Monday at a hospital at Richmond, where she has been for several weeks receiving treatment. Mrs. Goebel was thirty-seven years of age, and the daughter of Mr. and Mrs. Henry Gardt, of 271 Harrison street. She leaves two little daughters, Margaret and Regina. Other relatives are the parents, three brothers, Henry, Stephen and Peter Gardt, and two sisters, Mrs. Frank Bode and Mrs. Mathias Schrumm, all of this city.

The remains will reach the city at 4 o'clock this afternoon and will be removed to the home of her brother, Stephen Gardt, 101 Force street.

Funeral services are to be held Thursday morning from St. Peter's Catholic church.

ODDOU.

Charles L., the infant son of Mr. and Mrs. Frank Oddou, of 116 East Jefferson street, died on Monday from spasms, at the age of three days.

Funeral services will be held Wednesday morning at 9 o'clock from the Cathedral and will be private.

FUNERAL ANNOUNCEMENTS.

Sisney.—Funeral services of Charles Sisney, infant son of Mr. and Mrs. Henry Sisney, of 20 Locust street, will be held Wednesday morning from Bower's chapel, on the Maysville road.

PYTHAGORAS' THEORY TRUE.

In the earliest times in which men began to give anything like scientific attention to the movements of the heavenly bodies, the planets, or "wanderers," as their name implies, appear to have been regarded sometimes as living beings, mostly deified heroes, and sometimes as the abodes of these beings. The men of these ages naturally took what they saw for granted and believed the earth to be the center of the universe, with the sun, moon and other heavenly bodies moving round it. In course of time, as observation became more exact, the irregularity of the apparent orbits of the planets was noted and accounted for by fixing them in revolving crystalline spheres or zones, the smaller inclosing the earth and the rest outside working at varying instances and at varying speeds. In each of these a planet was fixed, and so the irregularity was accounted for, swiftness or slowness of revolution being taken as a criterion of proximity or distance. This was practically the theory adopted in what is called the Ptolemaic system. This system had been shaping itself from the times of Plato and Aristotle, and remained generally accepted until the demonstrations of Copernicus demolished it. It is, however, well worthy of note that the Pythagoras, about five centuries before Christ, had advanced the true theory of the universe, that is to say, the revolution of the earth and its sister planets around the sun. This, however, conflicted strongly with the preconceived ideas of the philosophers of Greece and Rome, and subsequently with those of the theologians, who considered that they were bound to consider the earth as the center as well as the end and aim of creation. Hence, ie was not until something like 2,000 years after the death of Pythagoras that his theory was practically confirmed by the astronomers of the sixteenth and seventeenth centuries.

A pneumatic rocking chair has just been patented. The air cushions attached to the rockers are very similar to ordinary cycle tires.

HIS EYEBALL BADLY BURNED

GEORGE MOHR HAS A PAINFUL EXPERIENCE.

Bumblebees Cause a Runaway and Lester Sarrazin Is Hurt—The Accidents.

George Mohr is confined to his home on East Washington street suffering from a painful burn upon his right eyeball, the result of a peculiar accident. Mr. Mohr was walking along the street last evening smoking a cigar when a companion playfully pulled the cigar from his mouth. In the scuffle which ensued the lighted end of the cigar came in contact with Mr. Mohr's right eye, severely burning the cornea. Dr. A. K. Hammond dressed the burn, and while it is most painful no permanent injury is anticipated.

BEES CAUSE A RUNAWAY.

Lester Sarrazin, residing along the St. Joe river some miles northeast of the city, was painfully injured in a runaway a few days ago. Mr. Sarrazin's team walked into a nest of bumblebees and the stings of the insects caused the horses to run away. Mr. Sarrazin was thrown from the wagon and badly injured.

TOOK A HEADER.

While riding his cycle near Huntertown Sunday, Andrew Archer, of this city, was violently thrown by his wheel striking an obstruction. Mr. Archer suffered some painful bruises, though his injuries are not serious.

A SALOON AT MAYSVILLE.

For several years the residents of Springfield township have been fighting the establishment of a saloon in Maysville and so successful were they that for more than a year past there has been no place in the little town where liquor could be purchased. This morning Commodore Hickman was granted a license to establish a saloon in the town and there was no remonstrance filed against him. His application was printed in a German paper and residents of Maysville knew nothing of his intentions until too late to make a successful remonstrance.

Thursday afternoon the county commissioners will try the remonstrance against John M. Himbert, who desires to establish a saloon on East Creighton avenue in the Tenth ward. A remonstrance signed by 408 voters of the ward has been filed with the commissioners, and this is fortynine more than half the voters at the last general election. Mr. Hays has retained C. A. Hays as his attorney and makes the claim that many signers had no legal right to do so.

LETTER CARRIERS MEET.

Detroit, Mich., Sept. 4.—A heated but one-sided discussion over the adoption of rules of order as governing the election of officers was the opening feature of the annual convention of the National Association of Letter Carriers, which began at 11:15 this morning. The full representation is 789 delegates, of whom 600 were present on the floor of Harmonic hall. Two Canadian carriers sent by their department were on the platform. The question of rules arose on a motion that the rules of order of the Scranton, 1899, convention be adopted. Among some amendments offered was one by Delegate C. D. Duffy, of Chicago, providing for a watcher and a teller to guard the interests of each candidate for office in the elections. Some vigorous speeches followed, mostly to the effect that if there were no underhand work going on nobody should object to having the count watched. Duffy's amendment finally prevailed by a big majority on a viva voce vote.

DISCUSS A WAGE SCALE.

Detroit, Mich., Sept. 4.—The third conference between the wage committee of the Amalgamated Association of Iron, Steel and Tin Workers and representatives of the great iron and steel firms on the puddling and mill scale for 1900 began this afternoon. The following steel firms are represented at the conference: The Republic Iron and Steel company, the American Steel company, the Union Rolling Mill company, of Cleveland, and the Standard Chain company, of Columbus, O. There are twenty-two members of the amalgamated conference committee and they spent the morning conferring together at the Griswold house. An agreement is looked for from this conference as the Amalgamated association has given its committee more discretionary power than it has had at previous conferences.

THE PRESIDENT'S PLANS.

Washington, Sept. 4.—According to present intention the president will not go to Canton until after his trip to Somerset, Pa., to attend the wedding of his niece, which takes place on the 12th inst. It is probable that the presidential party will leave here for Somerset on Monday, the 10th, but whether he will return to Washington from there or go on to Canton has not yet been determined.

GRAIN-O
THE FOOD DRINK

Do you know that three-quarters of all the world's headaches are the result of using tea and coffee?

So physicians say.

Quit them and the headaches quit.

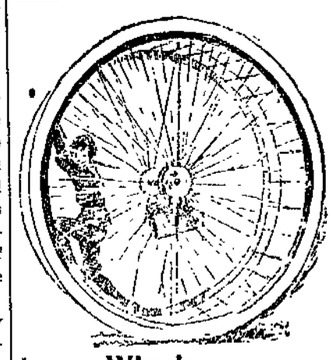
Grain-O has the coffee taste, but no headaches.

All grocers; 15c. and 25c.

GREAT EXPECTATIONS

Are the incentive that often lead people to visit strange butcher stores and test the quality of their meats. There is trouble ahead for any of our patrons that try it. They will never find such tender, succulent, prime and high grade roasts, chops, steaks as we send to your order at all times.

ECKART MEAT MARKET
COR. MAIN & HARRISON STS.



Large Wheels

are going out of date. The small bicycle style of a wheel is the proper thing for a carriage. We want to interest more people in that kind. The cost is not great, and the pneumatic tires afford about one hundred per cent. more comfort than the old style.

SHOP AND RAIL.

MEMPHIS EMPLOYES HONOR THEIR LATE PRESIDENT.

ALL ENGINES AND CARS STOP

AND SILENCE PREVAILS FOR FIVE MINUTES.

OLD MAN'S NARROW ESCAPE

STEVE SCHELLENBERGER RESCUES HIM FROM WHEELS.

From 1:15 to 1:20 o'clock yesterday afternoon every locomotive every car, every piece of machinery and every employe on the Memphis railroad system from Kansas City to Birmingham, Ala., were idle. This action was taken as a mark of respect to the memory of the late president, E. S. Washburn, of the Memphis system, who died at Rye Beach, N. H., last Friday. At the end of the five minutes traffic was resumed. The funeral services of President Washburn were held shortly after noon at St. Andrew's chapel, Rye Beach, N. H.

PREVENTED AN ACCIDENT.

Stephen Schellenberger, foreman of Pennsylvania car inspectors, saved the life of an aged man at the south depot yesterday afternoon. John Goodfellow, of Columbia City, arrived at the station just as No. 9 was pulling out for the west and attempted to climb aboard. He grabbed the hand rail, but was too feeble to pull himself upon the step and was being dragged along in a most perilous position when Mr. Schellenberger came to his assistance. The train was stopped and the old gentleman placed aboard in safety. A moment's delay in rescue must have surely resulted in the death of the old man, for his hold could not have been maintained, and had he loosened it he would have gone under the wheels.

ACTIVITY IN BLACK HILLS.

There is considerable mining activity in the Black hills, and a number of new mines are being opened up. Comparisons made between the present condition of mining in the Black hills and that of Colorado, Idaho and other western precious metal states are not at all unfavorable to the former. Last year upward of $8,000,000 was taken from Lawrence county mines, one of them being the Homestake. There is said to be not more than one stamp mill standing idle in the county. And yet the Black hills mining industry can be said to be practically in its infancy, for there are great areas which will ultimately prove of great productiveness that yet remain unnoticed and unexploited.

PETOSKEY EXCURSION.

The Grand Rapids and Indiana company ran its second excursion of the season to Petoskey and other northern Michigan points today. The number of tickets sold at this point was not as great as the number for the former excursion, but it was fully up to the expectations of the officials. The excursion train proper ran as the second section of No. 7 and it took on excursionists at all points between this city and Kalamazoo, leaving the latter city with every seat in the long string of cars occupied. No. 3, which leaves this city at 4:05 this afternoon, will also carry excursionists and may have to run in two sections also.

NEW CHIEF DISPATCHER.

Yesterday morning W. C. Heth became chief dispatcher on the Detroit division of the Wabash, with headquarters at Montpelier, O., succeeding G. W. Turner, who has been called to a higher position on a western road. Mr. Heth was chief dispatcher some years ago, but resigned to take another position.

INSPECTING THE ROAD.

A party of Nickel Plate officials will arrive in the city about 4 o'clock this afternoon on a special train. They are out on an inspection trip. In the party are A. W. Johnson, general superintendent; John MacKinzie, superintendent of motive power; Mr. Hart, at the head of the maintenance of way department; C. D. Gorham, division superintendent, and S. K. Blair, trainmaster.

BRAKEMAN BADLY HURT.

Brakeman Creager, who resides in Bellevue, O., and works on the Nickel Plate "short haul" between Bellevue and Leipsic, met with an accident Saturday night which will leave him a cripple if he escapes with his life. He was walking over the train and fell between the cars in such a manner that the wheels caught and cut off a portion of his right foot. His left leg was also broken in two places and he sustained other injuries to his body and limbs. His condition is very serious and the attending surgeon does not hold out much hope for his recovery. The unfortunate man is quite a favorite and his fellow trainmen deeply sympahize with him.

GOES OUT OF SERVICE.

The Pennsylvania dummy train which during the assemblage season at Winona ran between that place and Warsaw, went out of service yesterday. Conductor Joseph Keeler and Engineer J. W. McCarthy, who had charge of the dummy, will return to their former positions on the road.

HISTORICAL PARAGRAPHS.

The Romans constructed tracks consisting of two lines of cut stones. These were the precursors of the modern railroad.

The first rail tracks were made of wood and were the invention of miners in the Hartz mountains.

In 1730 the wooden rail was covered with an iron strap, and castiron rails began to be used in 1768. Wrought iron rails were patented in 1820.

The attempt to move wheels by steam dates back to the seventeenth century, when a number of experiments were made.

Newton experimented with a steam motor in 1680. Dr. Robinson described in 1759 a steam vehicle. James Watts devoted himself from 1769 to 1785 to the development of the steam engine which became the parent of the modern engine.

Oliver Evans constructed, at the beginning of the present century, a carriage propelled by steam and exhibited it in 1804 at Philadelphia in the presence of 20,000 spectators.

In 1814 George Stephenson began to apply himself to the construction of an improved locomotive. The first line on which his invention was used was the Liverpool and Manchester railway.

The first railway, or tramway, act was passed in England in 1758.

In 1824 a charter was granted to the Darlington and Stockton railway, and the road was opened in September, 1825, and was the first public carrier of goods and passengers.

The first German railroad was built between the cities of Nuremberg and Furth in 1835. It was four miles long.

In Austria the building of railroads was greatly discouraged until 1836.

The French began railroad agitation in 1832. The first railroad—the Western—was opened between Paris and Rouen in 1837.

Belgium began the construction of railroads in 1834 and the first line (Brussels, Malines) was opened May 5, 1835.

The first line in Switzerland was between Zurich and Aarau and was completed in 1847.

In Italy railroad enterprises have received attention since 1853.

The first road in Spain was opened in 1848, between Barcelona and Mataro.

In Portugal very little railroad building was done previous to 1863.

In Denmark the first railroad was built on the island of Seeland in 1847.

Norway built its first railroad from Christiana to Eidsvold in 1854, and Sweden commenced railroad building two years later.

The first line of railroad in the Russian empire was constructed from St. Petersburg, sixteen miles, to Tsavoksji—Sielo in 1842.

British India opened her first railway for public traffic between Bombay and Tannah in 1852.

In Asiatic Turkey the first line was opened between Smyrna and Trianda, December 24, 1860.

The first and principal line in Japan was opened between Tokio and Yokohama in 1872.

The first railroad in China, seven miles long, was built by an English company and in 1886 it was purchased by a Chinese company.

Lines were opened in Java in 1889, in Ceylon in 1867, Burmah in 1889, Malay peninsula 1885, Sumatra 1876, Cochin China 1885.

The first railroad on African soil was from Alexandria to Cairo and was opened in 1856.

The beginning of the railroad system of Algiers dates back to 1860.

The first road in Tunis was built in 1872.

The French colony, on the Senegal river, has a number of short lines, of which the first was opened in 1883.

Port Natal built her first railroad in 1860. It was two miles long and extended from the city of Durban to its harbor.

The introduction of railroads into Australia dates back to the sixth decade of the present century.

The United States of Colombia built the Panama railroad from Colon to Aspinwall in 1855.

Venezuela opened in 1866 a road fifty-six miles long.

Ecuador constructed in 1876 a road from Jaguachi to Puente de Chimbo, a distance of forty-three miles.

The first railroad in Peru was built in 1851, connecting the seaport Callao with the capital, Lima.

In Bolivia the first railroad was built about twenty-six years ago.

Chile was the first of the South American states to build a railroad, and opened a line from Caldera to Copiapo in 1850.

The Argentine Republic opened its first road from Buenos Ayres to Belgrano in 1862.

The oldest road in Brazil is the Petropolis road. It was opened on December 16, 1856.

The principal roads of Uruguay were built between 1865 and 1875.

Central America has less than 600 miles of railway. Nicaragua completed its first road in 1880, Honduras in 1871, San Salvador in 1882, Guatemala in 1884.

The first railroad in Cuba was opened in 1837.

The first Mexican railway was opened January 1, 1873.

In Canada about fifteen miles of railway was built as early as 1837.

The first American railroad, on which an English locomotive was used, was the Carbondale & Homedale tramway, operated in 1826 by the Delaware & Hudson Canal company.

The first railroad of importance in the United States was the Baltimore & Ohio, opened in 1830. It was then fourteen miles long.

The first road on which a locomotive engine of American manufacture was used was the South Caroline railroad, which was begun in 1830.

The old "Bee Line" road was opened for traffic in 1851.

The Pittsburg, Fort Wayne & Chicago, an extension of the Pennsylvania, was completed to Chicago in 1858.

The first railroad to receive a land grant from the United States government was the Illinois Central. This grant was passed September 20, 1850.

The first consolidation of railroads of any importance took place in 1853, when eleven different roads between Albany and Buffalo were united to form the New York Central.

In 1830 there were twenty-three miles of railroads in operation. In 1899 there are more than 186,000 miles.

Persia's first railroad, seven miles long, was opened June 25, 1888.

INDUSTRIAL NOTES.

A. Wilson, the coppersmith, is at Rome City, visiting his brother-in-law.

S. B. Kleber, engine hostler at the Pittsburg round house, is sick and off duty.

Otto E. Schlink, apprentice boilermaker at the Pittsburg shops, is taking a vacation.

Brakemen C. E. Gaskins, F. E. Lesley and W. B. Rooney, of the Pittsburg, are sick.

After a month's illness, Machinist John Wichmann has returned to his work in the Bass shops.

Master Mechanic B. Fitzpatrick, of the Pittsburg, has returned to the city, after a two weeks' stay in the east.

Eugene Simonton, a flue cutter at the Pittsburg shops, went to Toledo yesterday to spend a week with relatives.

Last week there were repaired and turned out of the Pittsburg back shops engines 161, 247, 316, 427 and 534.

Mr. R. J. Fisher will leave tonight for Columbus and other Ohio railway centers in the interest of the Bass foundry.

Machinist Frank Freuchtnich, of the Wabash shops, was sent to Toledo this morning on business for the company.

W. D. Toomey, of Bourbon, is working at the east yard office of the Pittsburg during the absence of Operator West.

H. E. W. Koenig, of the Pittsburg planing mills, has taken a vacation and last night went to Pitsburg to visit a few days.

Frank Closs, of the electric works, returned from Defiance last night, making the journey home on his bicycle in company with his wife.

Councilman William Hosey, who had been enjoying a two weeks' vacation, resumed his work in the Pittsburg machine shop this morning.

John Mannock and Joseph Fegen, boilermakers in the Pittsburg shops, have returned from Chicago, where the former went to consult an oculist.

An improved turret lathe, built by James & Lamson, arrived at the Wabash shops this morning and is being connected with the shafting and made ready for operation.

C. P. Cherry resumed his place at the desk in the Pennsylvania store room this morning, after an absence of about two weeks. He had been sojourning at Rome City.

C. A. Smith, a fireman on one of the Wabash local freight trains, has gone to Toledo to join his wife and children and accompany them home. They have been visiting in that city.

Engineer Andrew Sullivan, who has charge of a switch engine in the Wabash shops, is sick and was taken to the company's hospital at Peru this morning. Engineer Church, of Peru, will have temporary charge of the switch engine during Mr. Sullivan's sickness.

Brakemen C. Bittner and D. C. Watts, of the Nickel Plate, have been off duty a couple of days on account of sickness.

A. J. Stricker, clerk for Chief Dispatcher W. H. Tigar, of the Pittsburg, is taking a two weeks' vacation and George J. Worth is performing the clerical duties in that office.

C. Scheumann, foreman of the cabinet department of the Pittsburg shops, has recovered from an illness that kept him from his work one month. He reported for duty this morning.

It is stated that the Chicago & Rock Island carried more Grand Army people into Chicago last week than any other line running into that city, its business exceeding that of the Pennsylvania.

Fred H. Jacobs, draftsman at the Bass works, has returned from Latta lake, where he spent a couple of days in fishing. He caught some fine fish, included being a black bass which weighed over four pounds.

Mr. and Mrs. Morris J. Keller and son, of Toledo, are visiting relatives and friends in the city. Mr. Keller has charge of Wabash passenger cars in Toledo. Five or six years ago he resided in this city.

The Pennsylvania has secured estimates of the cost of construction of three large vessels to transport bituminous coal to foreign countries, construction of which will be commenced as soon as keel room can be had.

Engineer S. D. Crist was taken sick at Crestline last night and had to come home on No. 21 this morning. During the dull season Mr. Crist has been firing on the package local train between this city and Crestline.

Engineer W. Slagle is suffering from an accident to his eyes and is off duty. The optics were burned a day or two ago. Engineer J. Leeper and Fireman F. Spiedel are off duty on account of sickness. All are Pennsylvania employes.

Mr. W. W. Atterbury, superintendent of motive power of the Pennsylvania east of Pittsburg, was in the city yesterday. Before taking his present position Mr. Atterbury was master mechanic of the western division of the Fort Wayne road.

Edmund Hindle and David Watterson, Nickel Plate conductors, who had been taking a two weeks' vacation, resumed work yesterday. Switchman C. L. Louthain and Brakeman L. C. Payne also reported for work on the same road after a few days' absence.

Frank Girard, who had a leg injured last week, and I. Sorg, who was sick, were able to resume work in the Pittsburg blacksmith shop this morning. Henry Geerken, the boilermaker, who had an ankle injured last Thursday, was also able to resume work this morning.

Foreman Frank Sarver, of the Pennsylvania boiler shop, was at Pittsburg yesterday to see his wife, who has been lying ill there for two or three weeks. He found the lady better and able to walk about the house. Mrs. Sarver will probably be able to come home the latter part of the present week.

C. O. Ransburg, W. P. O'Brien, H. C. Strangman and J. E. Clark are off duty on account of sickness; Peter Junk is kept at home by the sickness of his baby and Peter Lepper is off duty on account of the sickness of his wife. J. Boone is taking a layoff to look after some private business. They are all employed in the Pittsburg shops.

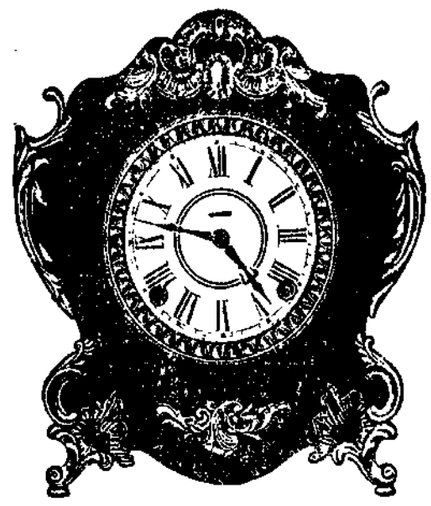
G. F. Warner, assistant to the general secretary of the Pennsylvania Railroad Young Men's Christian Association department, yesterday assumed the secretaryship of the railroad branch of the Y. M. C. A., at Selma, Ala. James C. Nesbit, a fireman on the Pennsylvania lines, succeeds Mr. Warner at Pitcairn. Mr. Warner, previous to engaging in the association work, was a passenger brakeman on the Pennsylvania.

The order prohibiting newsboys selling books and papers on the Lehigh Valley road was the result of a newsboy on the train attempting to sell the president of the road a book of Frenchy character, sealed, for $1.50, finally whispering to the official, whom he did not know, that he might have it for fifty cents. The president ordered an investigation of the stock carried by newsboys, and then ordered that they be dispensed with on trains.

John Sherridan resigned a position he held in the Fruit House for eleven years and this morning became an employe of the Fort Wayne Electric company, being assigned to the instrument packing department in the store room. Other new employes who began work this morning are Harry Wells, Frank DeWald, H. W. Hart, Ed Stephan and Chris E. Rhein. James Dalton, who had been sick about four weeks, resumed his old place in the works this morning.

BASE BALL

Tomorrow, New Castle vs. Fort Wayne. Game called at 3:30.



$3.90 Buys

This elegant 8-day gong striking parlor clock, worth $6.00. We also have other bargains in fine parlor clocks, cut glass, silverware, etc.

THIS ELEGANT BROOCH . . .

Also many other styles, only $2.50, worth $4.50; other styles $1.00 up, worth double.

We make a specialty of fitting glasses and guarantee satisfaction. Eyes tested free. Steel spectacles, $1.00 up; gold spectacles, $5.00 up.

J. L. SIEVERT, Wholesale and Retail Optician and Jeweler, 79 Calhoun Street.

AN ACCIDENT AT THE RACES

FRANK PEARSE THROWN FROM SULKY AND HURT.

He Had Driven Harry C. in Two Winning Heats—Events on Program.

There was a large crowd at the races given yesterday afternoon under the auspices of the Amateur Driving club at the mile track and everything passed off smoothly until the last heat of the 2:25 trot, when an accident to Frank Pearse, driver of C. M. MacDougal's Harry C., marred the otherwise fine sport of the afternoon. Harry C. won two heats and was leading in the third when he fell between the half and three-quarter mile posts and Mr. Pearse was hurled to the ground, the drivers of John N. and W. B. being forced to pull to one side to avoid running over the prostrate man. Mr. Pearse was stunned by the fall and was immediately conveyed to St. Joseph hospital, where he was attended by Dr. J. E. Miller, who found that the seventh and eighth ribs on the right side were fractured and another injured. He was also injured in one hand, but no serious results are anticipated. No time was taken on this heat and no award of money was made, although first will probably be given to Harry C., inasmuch as he had two heats and there would hardly have been time to start another. His showing in the race had been the best.

All the events were hotly contested and altogether the meeting was the most successful given under the auspices of the club. Red Elgin won the 2:20 pace, but was compelled to do some stunts in speed by Carton. Wayne Chief, Herman Tapp's great stallion, lowered his record from 2:21 to 2:18½. Summaries:

CORONER HOLDS INQUEST.

St. Louis, Sept. 4.—The coroner's inquest was held to-day upon the bodies of Patrolmen Nicholas Beckmann and John Looney, who were shocked to death last night by the crossing of the police telephone wires with a heavily charged electric light wire. All of the fourteen other patrolmen and police department employes who received shocks and burns are now reported out of danger.

CENSUS BULLETINS.

Washington, Sept. 4.—The census bureau announces that the population of Hartford, Conn., is 79,850, as against 53,230 in 1890. This is an increase of 26,620, or 50.01 per cent.

The bureau announces that the population of Richmond, Va., is 85,050, as against 81,388 in 1890. This is an increase of 3,662, or 4.5 per cent.

ORDERED TO CHINA.

Winton Bennett, of this city, is a member of the Fourth infantry now stationed at Rosario, P. I., awaiting orders from the war department to proceed to China. Mr. Bennett, who has been in the islands for a year, writes an interesting letter to friends in the city, and states that the boys of the fighting Fourth are very anxious to get a chance at the boxers. Mr. Bennett is a member of company E.

ARRESTING THE RICTERS.

Akron, O., Sept. 4.—Up to the present time nineteen arrests have been made of persons alleged to have taken part in the recent riots in this city. H. Earl and Charles Fink were taken into custody to-day, charged with rioting. A special grand jury will probably be called to-day to take up the cases. Nearly three hundred witnesses will be examined.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney and Co. Testimonials free. Sold by Druggists, price, 75c per bottle. Hall's Family Pills are the best.

One hundred dozen Knee Pants to choose from at 50c. KRATZSCH BROS.

The secretary of one of the largest copper manufactories in New York uses as a paper weight a die for a copper coin struck for the famous campaign between Andrew Jackson and the United States bank. It has been used on the secretary's desk for thirty-five years.

Three hours in Detroit, 130 miles of water ride, and a delightful day's outing, all for $1.60 via Wabash R. R. and Steamer next Sunday. Train leaves at 5:50 a. m. 2tf

In Italy the Southern Railroad company is going to have built eighteen locomotives, 121 passenger cars, thirty-two baggage cars and 1,000 freight cars. Foreign concerns will be allowed to compete.

FIGHTING IS OVER

AND CHAFFEE WANTS TO KNOW WHAT IS THE PROGRAM.

HIS FORCE IS LARGE ENOUGH

UNLESS THERE ARE POLITICAL REASONS FOR A LARGER.

A MESSAGE FROM MR. CONGER

REPORTS NO CHANGE IN THE SITUATION.

Washington, Sept. 4.—The following dispatch was received today by the war department from General Chaffee:

"Taku (no date).—Adjutant General, Washington: Written report of operations up to relief of legations will be forwarded as soon as possible. Present indications are that hostilities have practically ceased, only occasional shots fired from cover, small party repairing telegraph line and foraging.

"No considerable body of Chinese troops (boxers) discovered here or along line of communication. * * * We hear Li Hung Chang has full power, but he is not here.

"Will United States keep military force here until terms of peace are arranged?

"Now in China about 5,000 effectives—Sixth cavalry, light battery F, Fifth Artillery, batteries Third, Ninth infantry, Fourteenth infantry, 1,000 marines. I think ample force for United States unless political reason, not apparent to me, demands larger forces. Shall take 5,000 as basis of my requirement for supplies.

"If troops remain must winter in tents and conical wall tents will be required, one tent ten men. Escrt wagons mentioned in —— of 18th will be required immediately.

"Have mules for same shipped. No more pack trains required, wagon transportation best. Water falling in river rapidly, must soon haul supplies 40 miles. Satisfied railroad will not be required before river freezes.

"Chaffee."

All the transportation and tentage asked for by General Chaffee has been anticipated by the department and has been shipped.

Much of it is at Taku and the balance is due there very soon.

Washington, Sept. 4.—Minister Conger has been heard from again, his last advice being dated at Pekin on August 30th. This message was received last evening. Preceding dispatches have occupied a week in their transmission from Pekin, according to the estimate of the state department, so that Mr. Conger's message marks a distinct betterment of the means of communication.

Besides, it includes the date of the dispatch, something the department has been trying to have done for many weeks. The supposition is that this particular message came down from Pekin to Tien Tsin by courier and was put on the wires either at that point or at Taku.

The state department decided to make no statement as to the contents of the message, beyond the simple one that Mr. Conger's communication did not mark any material change in the situation in Pekin.

It appears that whatever responses are to be made by the powers to the proposition to evacuate Pekin are expected to be directed to the government of Russia and not to our state department. The Russian government undoubtedly will in turn notify the United States government, as well as all the other governments concerned, as to the nature of the responses.

It is stated that up to the present less than a majority of the powers interested in the Chinese question have responded to the Russian proposal so far as our government is advised, and our officials here agree with the general tenor of the European dispatches this morning in the conclusion that final action on the part of all the powers may not be had for several days at least.

Everything now depends on the action of Russia, the attitude of the other nations being negative, and if she does not hasten to carry out her announced purpose to withdraw the troops, the other governments probably will be content, cherishing the hope that in the meantime some kind of Chinese government can be re-established in Pekin, with which the powers may negotiate for a final settlement.

Li Hung Chang's attempt to secure imperial warrant for the institution of peace negotiations, through himself and the Chinese notables referred to in the European dispatches, is regarded here as a step in the right direction, while on the other hand some disquiet has been caused by the report that the internationals in Pekin have been arresting some of the members of the tsung li yamen, who were seeking to open negotiations and re-establish the government. There is no disposition here to condone the offenses of any of these Chinese officials who may have participated in the outrages in Pekin, but it is questioned whether the present is an opportune time to administer punishment.

General Barry, who can be reached at Taku, has been instructed to spare no pains or expense to get dispatches to Chaffee and replies from him, which the department feels are necessary for a correct disposition of the Chinese questions that have arisen since the occupation of Pekin.

SITUATION CONFUSED.

London, Sept. 4.—The absence of news regarding the actual situation of affairs at Pekin continues as complete as the lack of authentic information regarding the ultimate attitude of the powers towards the proposals now before the concert.

Shanghai reports that an imperial edict issued at Tai-Yuan-Fu appoints Li Hung Chang, Yung Lu, Hsu Tung (tutor of the heir apparent), and Prince Ching commissioners to negotiate peace.

Four German warships arrived at Woo-Sung September 3.

The unmistakable condemnation of the proposal to immediately withdraw from Pekin, which is voiced from all the foreign colonies in the far east, is taken in some quarters as a forecast of the opinion which may be expected from the ministers when their views are obtainable.

As already suggested, the Russian proposals are capable of modification and it is thought in well-informed circles that Lord Salisbury is striving to conform them more closely to the terms first formulated by the government at Washington.

According to a special dispatch from St. Petersburg, dealing with the question of Manchuria, the Russian officials repudiate any intention to permanently occupy or annex Manchuria.

The dispatch adds that Russia will claim no territorial concessions provided the other powers refrain from so doing and expresses the hope that the question of indemnities can be settled by the co-operation of the allied powers.

GUNBOAT DOES GOOD.

Paris, Sept. 4.—The French consul at Canton, under date of Monday, Sept. 3, cables that the French gunboat Comete has returned to Canton. He adds that her trip to Swatow (on an estuary of the river Hang-Kiang), has had a good effect and has ended the troubles and agitation against foreigners which were spreading in the region north of Kouang-Toung.

The consul also reports that a missionary was attacked and wounded in the district of Fat-Kong, 100 kilometers from Canton.

GERMAN TROOPS IN PEKIN.

Berlin, Sept. 4.—An official dispatch from Taku announces the receipt of a telegram there from Pekin, dated August 25, saying the German troops have taken possession of a hill within the imperial city.

The dispatch adds that 2,000 additional Italian troops have reached Taku.

MISSIONARIES PROTEST.

New York, Sept. 4.—Rev. Dr. Dodd, one of the secretaries of the Methodist Episcopal Missionary society, received the following cablegram from Shanghai today, signed "Central China:"

"Protest government against evacuation Pekin and recognition Li Hung Chang. Both disastrous to missions."

Robert E. Speer, of the Presbyterian board of foreign missions, received a number of letters from Presbyterian missionaries to China today. One from Samuel Cochrane, M. D., dated Arima, Japan, Aug. 8, gives an account of the decapitation of nine missionaries near Hang Chow. Rev. Henry V. Noyes, writing from Canton, confirms previous reports that the authorities there were making extensive preparations to resist foreign attack.

Mr. and Mrs. C. O. Lepper entertained Mr. and Mrs. H. P. Schwennesen, of Chicago, at dinner, on Sunday, in honor of the twenty-fifth anniversary of the wedding of Mr. and Mrs. Schwennesen.

WILL NAME TICKET

THIRD PARTY ANTI-IMPERIALISTS TO MEET.

CONVENTION IN NEW YORK

EMPIRE STATE REPUBLICANS GATHER AT SARATOGA.

WOODRUFF MADE CHAIRMAN

ODELL TO BE NOMINEE FOR GOVERNOR.

New York, Sept. 4.—Acceptances of invitations to the third party convention meeting in this city tomorrow to nominate candidates for president and vice president, now insure an attendance of more than a hundred delegates.

Among those who are likely to take an active part in the convention are William Everett, of Massachusetts; Chairman T. M. Osborne, of New York; Henry W. Lamb, of Massachusetts; Louis Ehrich, of Colorado; Francis P. Nash, of Massachusetts; Fiske Warden, of Massachusetts, and Paul Fuller, of this city.

From Kentucky, where the managers expect to make a number of fights for the control of congressional districts, there will come as delegates J. H. Joubert, E. Spears Haveley and Prof. R. H. Dorn.

Judge Wm. R. Hough and Ralph G. Wells are expected from Indiana. Among others, Congressman A. B. Farquhar and Charles J. Hiller will represent Pennsylvania; and Colorado sends six or seven delegates, including William J. Palmer and Louis R. Ehrich.

REPUBLICANS ASEMBLE.

Saratoga, N. Y., Sept. 4.—The republican convention which is to nominate a full state ticket was called to order soon after noon by State Chairman Odell, who is to be nominated for governor. Lieutenant Governor Woodruff, who is to be renominated, was chosen temporary chairman by acclamation.

TINY TIM'S SPEECH.

Mr. Woodruff's speech in part was as follows:

Mr. Woodruff, in opening, said the republican party is the giant instrument for the attainment and maintenance of high political ideals. "The republican party is more than the instrument of republicans," said the speaker, "it is the ever-renewing hope of others. Since the democracy of Seymour, Tilden and Cleveland became the prey of populistic fanaticism and vagaries of dreamers supplanted the doctrines of statesmen, the republican party has become the home of many thus driven from the household of their ancient faith.

"They do not look for us to renounce republicanism. They do not ask us to become democrats. Nor do we insist that they shall become republicans. Either as allies or republicans we welcome them for the country's good.

"The people of this state believe in honest money; they believe in the protection of American industry and labor; they believe in the establishment of the independence of Cuba, a sound government in Porto Rico and the Philippines, and the protection of our people in China. They believe in the suppression of unlawful combinations of every character."

Referring to the money question, Mr. Woodruff said that should Mr. Bryan be elected it would be within his power and his duty, in view of his platform, to pay the interest and principal of the bonded debt in silver. The speaker declared that free trade had always been the fundamental principle of democracy. "The attempted subordination of sound money and protection," he continued, "to the 'paramountcy' of so-called 'imperialism' cannot retire these issues from the campaign. The absurdity of 'imperialism' is that there is no imperialism. The republican party simply stands for the establishment in the Philippines and Porto Rico of such government as it gives its own people. If that is imperialism, then the republican party is imperialistic.

"Our opponents may call it imperialism, or even piracy if they please, but the republican party will not be swerved from the line of its duty, nor will the people be fooled by so transparent a device.

"Is he an intruder and 'usurper of inalienable rights' who has rescued helpless children from wild beasts that orphaned them? Does he deprive them of liberty because he fosters and protects them until they are able to care for themselves? The man who denounces our work of rescue and the establishment of a just and generous government in which the inhabitants shall have the largest participation of which they are capable, and who undertakes to base that denunciation upon a phrase of our declaration of independence, is an insincere and base perverter of that immortal document."

Mr. Woodruff denounced the attitude of the democratic party on trusts as hypocritical, praised the republican state administration and closed with a eulogy of the national republican ticket.

Mr. Woodruff arraigned the officials of New York city for their alleged connection with the ice trust. References to McKinley and Roosevelt were greeted with loud applause.

At the close of the temporary chairman's address, the usual resolutions for permanent organization, etc., were adopted and a recess was voted until 4 p. m.

PLENTY OF TALENT.

A telegram was received today from former Governor Frank S. Black saying that he would make the speech nominating Benjamin B. Odell, jr., for governor tomorrow. This makes the list of orators for tomorrow's session of the republican convention include Theodore Roosevelt, Chauncey M. Depew, Frank S. Black and N. Stranahan. Senator Depew is now here and Governor Roosevelt is expected this afternoon.

The only discussion before the convention met at noon was over the trust plank, and it was thought the party declaration on this point might give the committee on resolutions some work to do.

REV. SIMPSON TRANSFERRED

PASTOR OF A. M. E. CHURCH GOES TO SOUTH BEND.

Has Filled the Pulpit of the Local Church Successfully for a Term of Three Years.

Rev. William Madison Simpson, pastor of the African M. E. church for the past three years, has been appointed to the charge at South Bend, Ind., and will leave in two weeks for his new field of labor. Rev. Simpson was appointed to the new pastorate at the Michigan conference of the African M. E. church, held last week at Grand Rapids, Mich., and he will be succeeded by Rev. Alexander Smith, late of Bethel church, Detroit.

Rev. Simpson's pastorate in this city, covering a period of three years, has been most successful and he has been instrumental in greatly strengthening the church. He is an able speaker, an excellent Biblical scholar, and his appointment to the charge at South Bend is a just recognition of his capabilities as a pastor.

The conference this year was the largest and most successful in many years. Right Rev. Alexander Grant, the presiding bishop at the conference, is one of the ablest colored orators in the United States, and many other colored speakers of prominence were present at the meeting. But one other appointment was made for Indiana, Rev. I. F. Williams for the Wabash charge.

TRYING TO START FACTORIES.

Pittsburg, Pa., Sept. 4.—Efforts are being made by the American Glass company to start its factories regardless of the trouble with the flatteners and cutters over the wage scale. Officials of the combine reported work was resumed today at the factories at Dunkirk, Ind.; Greenfield, Ind.; New Castle, Pa.; Hazelhurst, Pa., and Coudersport, Pa. The Phillips plant in this city will start up tonight and the large plants at Arnold and Jeanette, Pa., have been ordered to resume operations tomorrow. Telegrams from Dunkirk, Greenfield, Hazelhurst, New Castle and Coudersport report the factories working in full.

GENERAL M'CLERNAND IS ILL

Springfield, Ill., Sept. 4.—General John McClernand is again dangerously ill. He is suffering with malarial fever and dysentery, and his friends are considerably alarmed over his condition. General McClernand has been in feeble health since his last illness. The attending physician, Dr. C. M. Bowcock, says the greatest danger is due to the fact that he can take no proper nourishment. The veteran soldier's temperature has reached 102. He has been unable to sleep and has continued in a restless state.

Mr. and Mrs. C. Shulz have returned from Detroit, where they have been visiting friends for a week.

BRYAN EN ROUTE

DEMOCRATIC LEADER GOING INTO SOUTHEAST.

MAKES SPEECH IN OHIO TOWN

DECLARES IMPERIALISM IS THE GREAT ISSUE.

AVERTED PANIC IN CHICAGO

THE NEBRASKAN'S COOLNESS PREVENTED DISASTER.

Cambridge, Ohio, Sept. 4.—Mr. Bryan found several hundred people awaiting when he arrived at Zanesville early this morning. The train carrying him to his destination in West Virginia made a five-minute stop at that point, and in response to repeated calls for the presidential candidate, Mr. Bryan appeared on the rear platform of the sleeper.

Mr. Bryan declared, laughingly, that he could not shake hands and make a speech, but he came near doing so, for he grasped a large number of outstretched hands and while doing so proceeded to make a brief talk to the people who stood eagerly waiting.

The speech was informal and was frequently applauded. After recalling his visit to Zanesville in 1896, at which time, he said, he was compelled to climb up the fire escape in order to get into the hall where he was to speak, Mr. Bryan said:

"We are in the midst of another campaign and you are to have your part in the settlement of the questions which are at issue. In every campaign several issues are considered, but some one issue must be paramount in the mind of each person. In this campaign the democratic party believes the question of imperialism to be most important. The party stands where it did in 1896 on the money question, but it believes that the form of government is more important than the kind of money, and imperialism attacks the principles of government. In saying this we are not indulging in prophesy. The Porto Rican bill asserts the doctrine that the Porto Ricans are beyond the protection of the constitution. Never until within a year has any party asserted the doctrine that the flag could be carried to places where the constitution could not go."

At Cambridge Mr. Bryan also spoke to a good crowd. He suggested a number of questions to be put to republicans.

A TOUR OF WEST VIRGINIA.

Cameron, W. Va., Sept. 4.—At Benwood Mr. Bryan left the regular train and was taken aboard the special in which he is to make the tour of this state. Here he was met by a state committee, of which National Committeeman McGraw is chairman.

The greetings between Mr. Bryan and the West Virginia leaders were cordial.

He was also warmly welcomed by a very good sized crowd, which cheered as Mr. Bryan passed from one train to another.

He had no sooner ascended the platform of the rear car of the special train than the crowd demanded a speech and with this demand Mr. Bryan complacently complied, though very briefly.

The stop here was very short, the special train starting promptly upon its journey. Mr. McGraw announced Mr. Bryan's speechmaking itinerary for the trip as follows:

Cumberland, Md., Tuesday night; Morgan's Grove, tri-state meeting for Maryland, Virginia and West Virginia, Wednesday, at 9:30; Kaiser, 11:30 a. m., Wednesday; Clarkesburg, state fair, at 10 a. m., Thursday; Parkersburg, at 3 p. m., Thursday; Wheeling, Thursday night. From Wheeling to Chicago Friday. Tonight will be spent at Cumberland and tomorrow night at Deer Park.

BRYAN AVERTED A PANIC.

Chicago, Sept. 4.—By a trite little joke, sprung with cool but effective declamation William Jennings Bryan yesterday arrested a stampede of frantic men and women in the speakers' stand at Electric park, prevented a panic and, in the belief of all who witnessed the episode, saved many persons from being crushed beneath the falling structure or trampled in a riot for safety.

The Nebraskan had just fought his way through a crowd of 10,000 shrieking admirers and had taken his place in front of the orators' platform when the already overcrowded floor of the small stand creaked, groaned and began to waver. A crash that could not be heard by the vast audience howling its admiration for the democratic candidate for president struck terror to the hearts of all in the frail structure upon which he stood. A section of the worn floor gave way, women shrieked in terror and men tried to jump over the railing upon the heads of the packed throng at the rear of the stand.

Policemen shouted "Be still or the whole thing will fall!" The trembling fabric of weather-beaten pine swayed and the occupants already felt the delirium of abject terror.

"Hello," laughed Bryan, turning a smiling face upon the scared people. "This cannot be a democratic platform! There are no bad planks in that. Come, now, stand still, won't you? If you stand together where you are you'll be all right. If you stampede this thing will fall on you."

And he laughed as if he felt no terror. His voice rose clear and high. What the shouting of policemen and the elbowing of excited committeemen had failed to do, Mr. Bryan did as calmly as if he had rehearsed the scene a hundred times. When the dust cleared away and the occupants began to regard the accident, it was found that a section of the platform had collapsed, precipitating a few into the chamber under the stand. Before the speechmaking was resumed the ten policemen, directed by President Edward Carroll, cleared the platform of about 100 intruders, and the program was resumed.

ARTHUR SEWALL NEAR DEATH

BRYAN'S FORMER RUNNING MATE FATALLY STRICKEN.

Suffers an Apoplectic Stroke and Sinks Into Unconsciousness —No Hope Given.

Bath, Me., Sept. 4.—Up to 11 o'clock today the condition of Arthur Sewall, democratic candidate for vice president four years ago, was unchanged. No sign of returning consciousness had been noted, and no hopeful indication had been seen by the doctors.

Mr. Sewall was stricken Monday night with apoplexy at his summer home near here, and his physicians believe that he will probably not recover. He has not fully recovered consciousness at any time since he succumbed to the stroke. Small Point, the place at which Mr. Sewall has his summer home, is about sixteen miles from Bath. The members of his family are with him.

A report was issued this afternoon by Mr. Sewall's physicians to the effect that if there had been any change it was not for the better. The patient remains in a heavy stupor, from which the doctors expected no relief but death.

DENVER MAY BAR REUNION.

Denver, Col., Sept. 4.—There will be no Grand Army reunion in 1901 at Denver unless the railroads recede from their present position of demanding a single trip fare instead of granting a cent a mile rate, as requested by the G. A. R. committee.

Harper M. Orahood, commander of Colorado and Wyoming G. A. R., said to-day:

"The encampment as far as Denver is concerned will be abandoned unless the one-cent rate is provided, and the only thing that will come out of our efforts to get the reunion for this city will be a business meeting which will only bring a few hundred delegates here."

WOOL MARKET LISTLESS.

Boston, Mass., Sept. 4.—The wool market here continues listless, the demand being much less even than during the past few dull weeks. Manufacturers are holding back and continue to purchase just the grades of wool that are needed to fill their orders. Prices continue the same. Of the territory wools, fine medium and fine with staple in calls for 50c, while strictly staple is held at 52@53c. Fleece wools show a very steady demand and only scattering sales are made. Prices are no firmer. The top quotation for good lines of Ohio washed is 30c. Fine Australian wool sales are very few.

Miss Mary Shreve, stenographer at S. F. Bowser & Co.'s offices, is quite ill with appendicitis.

Miss Margaret Schmoll, of South Hanna street, has gone east on a business visit.

CENSUS OF CITY

OFFICIAL FIGURES OF FORT WAYNE'S POPULATION.

TEN THOUSAND IN TEN YEARS

THE CITY HAS INCREASED IN NUMBERS 27 PER CENT.

POPULATION IS NOW 45,115

INDICATE STEADY, HEALTHY GROWTH.

Washington, Sept. 4.—The census bureau announces that the population of Fort Wayne, Ind., is 45,115, as against 35,393 in 1890. This is an increase of 9,722, or 27.47 per cent.

The foregoing figures will prove a disappointment to many who have fondly hoped that the official result of the enumeration would show Fort Wayne to have reached if not passed the 50,000 mark. But the showing in the main will be satisfactory. Fort Wayne has kept pace in growth with other cities of her class. The improvement over 1890 is not the result of any boom factors, but of steady growth, which after all is more healthy if not so rapid, for reactions do not follow such a growth.

The bureau announces that the population of Charleston, S. C., is 55,807, as against 54,955 in 1890. This is an increase of 852, or 1.55 per cent.

GAMING PALACE FOR MANILA.

Denver, Col., Sept. 4.—George L'Abbe, the Leadville gambler magnate, announces that he will establish in Manila one of the finest gambling houses in the world. It is also to be a strictly first class amusement house for the benefit of the American soldiers and citizens in the Philippine city. All of the games in the Philippines except those started by the soldiers are Chinese or native sports, in which the American does not get a run for his money. It is L'Abbe's idea to give the soldier any game he wants, and also to make his money run into L'Abbe's coffers.

"There is plenty of room for a first class gambling house there," he said. "Gambling ventures have not proven successful in Nome, where the people went broke early in the game, but in Manila, where everybody has money and there is plenty of sporting blood, the outlook is more encouraging. We will take a company of vaudeville people with us."

L'Abbe is one of Colorado's best known sporting men. He was formerly in the gambling business with Joe Gavin, and while in Denver won $9,000 of Gavin's money at the latter's Curtis street faro rooms. He is said to have lost everything in Nome and then won $25,000, making his total winnings for four months about $65,000. At his gambling house in Seattle only high bets are placed, and it is said that Monte Carlo is the only place on earth where more money is lost on the turn of a card. He had $1,700 up on the Corbett-McCoy fight, taking the pompadour and giving good odds.

DO NOT ISSUE TAGS.

City Comptroller Berghoff is not doing the rushing business selling vihicle tags that he did one year ago. There have been calls for the tags, but the applicants have been turned down until the council takes final action at the meeting next Tuesday evening. The city authorities are all at sea as to what course to pursue.

TAKES NEW POSITION.

E. W. Keyser, formerly county truant officer, has resigned that office and has taken a position in the manual training department of the I. S. F. M. Y. as instructor. Mr. Keser will assume his duties at the institution at once.

VERMONT VOTES.

White River Junction, Vt., Sept. 4.—After one of the hardest campaigns in the history of Vermont politics, this state voted today for a full state ticket, for two congressmen and for county officers. The weather was ideal and an unusually large vote was cast in nearly all sections.

Miss Maude McBride, of Bluffton, is the guest of Mrs. Frank Lehr.

LOCAL EVIDENCE.

One Line of It Is Worth a Column of Foreign Testimony.

Make a mental note of this.

The endorser well known in Fort Wayne.

His veracity is unquestioned.

You are reading local evidence.

Investigating home testimony.

Fort Wayne news for Fort Wayne people.

It is not from Maine or Michigan.

Suspicion can't lurk around it.

Honesty is its prominent characteristic.

Home endorsement its salient point.

Mr. C. J. Noll, of 115 Barthold street, butcher, employed at H. Strodel's Meat Market, says: "When I was working in Frenchtown an attack of kidney disorder got hold of me, and though I tried every known remedy I was unable to get rid of it. I heard about Doan's Kidney Pills and got a box at Meyer Bros. & Co.'s drug store. Before I took these pills I was greatly troubled with backache. I could rest at night in only one position, and when I was up it was almost impossible for me to stoop. The kidney secretions were discolored and had a bad odor, and at times I grew dizzy. I commenced feeling better as soon as I started taking Doan's Kidney Pills, and by the time I had finished the first box I was entirely cured. You are welcome to use my name as one who endorses Doan's Kidney Pills and I will be glad to tell anyone who wishes to call on me all the details of my case."

Doan's Kidney Pills for sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no substitute.

$10, $20, $50, $100.00

LOANS MADE

on any amount you may wish on your furniture, piano, horses and wagons, carriage or other like security on easy payments. Everything is left in your possession and you have the use of both. Money and Goods. Persons monetarily embarrassed who desire above everything else to avoid publicity are the ones we desire especially to serve. A STERN POLICY.

IS DEMANDED BY FOREIGNERS NOW IN SHANGHAI.

PEKIN MUST BE DESTROYED

CHINESE ALREADY BELIEVE THEY ARE VICTORIOUS.

SHOCKING REPORTS HEARD

UNSPEAKABLE OUTRAGES ON WHITE WOMEN.

(Copyrighted, 1900, The Associated Press.)

Shanghai, Sept. 4.—Dispatches announcing that the American government refuses to agree to the withdrawal of the troops from Pekin before satisfaction for the outrages upon and the losses of its subjects is given, have been received here and are applauded by the entire foreign colony in Shanghai.

Any other policy, according to the business men and missionaries with whom the Associated Press representative has talked, would be a vital blow to the prestige of the foreigners and would weaken their status in China.

WHAT THE CHINESE BELIEVE.

The local English papers fiercely denounce the proposals to evacuate Pekin and say that the Chinese would interpret evacuation as defeat. The masses of Chinamen now believe that the Chinese arms are victorious.

The Chinese papers printed in Shanghai contain long circumstantial accounts of alleged Chinese victories at Pekin, Tien-Tsin and Lung Chao, and the shops in the native quarters display for sale lurid pictures of the Celestial army driving the European soldiers in the sea at Taku and cutting them to pieces at Tien-Tsin.

These also show pictures of the foreign admirals being tortured in the presence of the viceroys. Vice Admiral Seymour is represented with his arms pinioned, kowtowing before the throne. The people accept these reports and pictures as correctly representing the situation and consider the reports of the English press as "merely foreign lies."

WANT PEKIN DESTROYED.

The European community continues to demand the destruction of Pekin and the exemplary punishment of the officials, deeming indemnity and paper promises of new treaties inadequate. Undoubtedly the information in detail of massacres of foreigners daily received inflames this sentiment.

The dowager empress is living in the yamen at Tai Yuan Fu, in Shan-Si province. Fifty missionaries have been slaughtered in that yamen under orders, practically in the presence of the viceroy.

Three were beheaded in the inner court and the others were killed barbarously in the outer court yard. Their bodies were thrown to the dogs.

The empress has ordered a commissioner to investigate the conduct of the southern viceroys who made a compact with the foreign consuls, and their degradation is expected. No investigation of the officials opposed to foreigners has been ordered.

BUTCHERY OF WOMEN.

The Associated Press representative learns from official sources the facts of the killing of several American women missionaries. At the request of the mission board the details were withheld out of regard for the feelings of the relatives of the murdered women, but other prominent Americans, who have long antagonized the policy of sending women to isolated inland posts, think it important that the facts should be known. The names of the victims are withheld by request.

Two of these women were captured while attempting to leave the stations where they were located and were led about the country naked, repeatedly outraged and finally killed by a method too revolting to be described.

UNSPEAKABLE OUTRAGES.

Two other American women were coming to the coast with a party, which a number of Chinamen followed and stoned. The women fell exhausted and were taken by the Chinamen into the presence of the local officials. They were prostrated upon the execution block and a feint was made of beheading them. One of them became hysterical and laughed, and, thinking her insane, the Chinese escorted her to the coast because of their superstition regarding the insane. On the journey, however, the woman was repeatedly criminally assaulted by her escort. The other woman, after being exhibited naked for some days and suffering assault by several men, was tortured to death by the same shameful methods as were practiced in the other cases.

Two Swedish missionary women arrived at Shanghai after similar experiences, except that their lives were spared. The foregoing are matters of official record.

FOURTEEN KILLED.

The fourteen English missionaries, including six women and four children, who were murdered at Chu Chau, in the province of Che Kiang, according to the story of a Spanish priest who escaped, were killed with hay forks and ancient spears by the magistrate's bodyguard and their naked bodies were hanged from trees.

The incidents make a lenient policy unpopular in Shanghai, where all the victims had friends.

Placards appeared today in all public places exhorting foreigners to oppose a compromise with the government and attacking Li Hung Chang, quoting the remark to Consul Goodnow credited to Earl Li that "the foreigners in Pekin except the missionaries were of no account."

THOUSANDS IN THE THRONGS

IMMENSE LABOR DAY CROWDS AT SWINNEY PARK.

Excellent Program Was Carried Out Nicely—Labor Leaders Are Highly Pleased.

Fort Wayne's observance of Labor day was elaborately planned and most successfully conducted. The people entered so heartily into the spirit of the occasion and the program was carried out so satisfactorily that the day will always be a pleasureable memory to the toilers of the city.

Swinney park has seldom held two larger crowds than were present Monday afternoon and evening. Hour after hour the throngs poured into the park, by street car, in carriages, on bicycles and afoot, until a conservative estimate of the crowd at 5 o'clock placed the figures at 20,000. Many did not return home at the conclusion of the afternoon program, but ate lunch at the park and remained for the evening exercises, which were witnessed by fully 12,000 people.

Mayor Scherer presided at the afternoon meeting and the speakers were Hon. J. M. Robinson, Hon. R. B. Hanna, Judge Vesey and W. C. Bohannon. The president of the evening was Hon. J. M. Robinson, and Rev. E. W. Allen, Hon. J. H. Aiken and Theodore Lange delivered addresses. The speakers at both afternoon and evening gatherings spoke briefly, but paid the loftiest tributes to the worth of the laboring classes, and their importance in the structural fabric of the republic. The addresses were most heartily received. Professor Wood made a successful balloon ascension and parachute descent at 5 o'clock, the aeronaut alighting at the south side of the park. Vaudeville performances and excellent band concerts both afternoon and evening assisted in entertaining the crowds. The receipts from the refreshment stands amounted to a total of about $800.

E W Grove

This signature is on every box of the genuine Laxative Bromo-Quinine Tablets the remedy that cures a cold in one day

A. W. Hanson, formerly general secretary of the state college Y. M. C. A. at Bloomington, has been appointed assistant secretary at the central Y. M. C. A. at Brooklyn, N. Y. Mr. Hanson is well known in this city.

One hundred dozen Knee Pants to choose from at 50c.

KRATZSCH BROS.

NO POLICE COURT.

The police made a record Labor day considering that it was a holiday. There was not one arrest and no complaints for drunkenness were made at headquarters. It was the quietest holiday for the police in the history of the city.

HUMANE OFFICER'S REPORT.

To the Officers and Members of the Fort Wayne Humane Society—The report of my work for the month of August, 1900, is as follows:

—Children.—	
Cases reported and investigated	20
Beaten or abused	19
Abandoned or neglected by father	9
Abandoned or neglected by mother	5
Abandoned or neglected by both parents	10
Incorrigible	10
Imbecile	3
Having improper homes	23
Taken from parents for Board of Guardians	8
Taken to County Orphans' home	3
Destitute families	4
Number of children in these families	8
Husbands failing to provide for families	4
Families reported to township trustee	3
Wife beaters	2
Husbands abusive to families when drunk	3
Prosecuted for same	1
Persons taken or sent to hospital	3
Wife abusive to husband	1
Number of persons warned	31
—Animals.—	
Cases reported and investigated	7
Beating or whipping	2
Driven when galled or lame	6
Deprived of proper food or shelter	4
Prosecuted for same	1
Overloading or overworking	8
Ordered from work and given rest	7
Persons warned for cruelty to animals	11
Boys warned against shooting native birds	2

L. C. Schlaudroff,
Special Officer.

BOONE-KINTZ.

Miss Laura Boone and Valentine Kintz, both residents of Wayne township, were united in marriage this morning at St. Patrick's church. The officiating clergyman was Rev. J. F. Delaney, and the ceremony was performed at 7 o'clock in the presence of numerous friends of the young people. The attendants were Miss Georgia Carter and John Noll. After the ceremony Mr. and Mrs. Kintz drove to their farm home in Wayne township, and the balance of the day was given over to wedding festivities.

TO GRADE COLUMBIA AVENUE.

Residents of Lakeside have importuned the board of works to grade Columbia avenue eastward from Crescent avenue to Walton avenue. The new Walton avenue bridge is about completed and the approaches will soon be in readiness for use. Therefore, Lakesiders are very desirous of having a drive to the bridge. The board may act on the suggestion at its next meeting Thursday evening.

BOERS FIGHT FROM HILLS.

Crocodile River Valley, Transvaal, Sunday, Sept. 2.—General Buller today reconnoitered the Boer position in the mountains overlooking Lydenburg. General Botha and 2,000 burghers had previously joined the forces holding the pass. The Boers opened with three Long-Toms and fire continuously all day long. The British had few casualties.

LOSE TRAIL OF ROBBERS.

Rawlins, Wyo., Sept. 4.—Couriers from the posse in pursuit of the Union Pacific train robbers report that the trail has been lost at Timber Lake.

MARRIAGE LICENSE.

Henry Selking and Margaret Reidel.

GRANT MINERS' DEMANDS.

Middlesboro, Tenn., Sept. 4.—Thomas McCracken, secretary and treasurer of the United Mine Workers' union, today stated that he had received notice that six mining companies in the Jellico district have agreed to grant the demands of the miners relative to the new wage scale and the striking miners will immediately return to work.

TOWN WHERE ALL ARE HAPPY.

"The most interesting place it has been my good fortune to visit in many years," said T. M. Gilmore, on his return from the east a few days ago, "is the little town of Economy, Pa. It is well worth a long journey to see, and the people are the most delightful I have ever met. The foundation of this town dates back to 1805. It was settled by a priest, whose name was Father Rapp, and a number of Germans. They organized a society, which was called the Harmony society, and numbered nearly 1,000 people at the time. They pledged themselves never to marry, and since the town was founded there has only been one marriage. The society has now dwindled down to nine persons, but the town is thickly populated because of the advent of other persons, who lease and operate the factories. The society owns 3,500 acres of land, which is in a high state of cultivation. Coal, iron and gas abound. Grapes are raised in quantities and are made into wine of fine quality.

"The town is very pretty, with wide and shady streets, and with houses covered with vines. They have no doors, and the only entrance is from the rear. Economy is exercised on all sides, and when the society is reduced to one person he will get the entire vast estate. People visit the place from all parts of the world. Men and women live alone and all seem to be happy and contented. The present head of the society is a married man. He was single when he joined it, but he afterward left it and was married. The people recognize him as a leader, and he was invited back and made their chief. He and his family live in a handsome residence in the center of the town and have everything heart could desire. When the old members die he or his children will get everything, as it is one of the rules of the society that nothing can be willed away. Economy is certainly the garden spot of Pennsylvania."—Louisville Courier-Journal.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

When it was so hot, a week or so ago, hundreds of sparrows that dwelt in the ivy on the walls of a certain block of houses in Philadelphia would fly down to the pavement and take baths in the streams of the lawn sprinklers without the least indication of fear.

THE PEOPLE'S STORE.

A novelty in the way of strikes has occurred at Budapest. All the monks of the Franciscan order, with the exception of the superior, have left the monestery of Budapest and decline to return until certain new regulations are removed.

BASE BALL.

Tomorrow, New Castle vs. Fort Wayne. Game called at 3:30.

MAY FOLLOW AUSTRALIA.

It was a foregone conclusion that the ratification by the imperial parliament of the constitution of the Australian federation would be followed by a demand on the part of Canadian statesmen for new concessions from Great Britain in the direction of more complete independence and democracy. A comparison of the Canadian system with that of United Australia shows that the latter represents a decided advance and is more in keeping with the spirit of the times. The Canadians cannot be expected to remain satisfied with a smaller measure of self-government than the somewhat impetuous and radical democracy of the antipodes has obtained. Their desire to be placed on an equal footing with the Australians is therefore eminently natural. But in what respects does the new federation enjoy advantages? Minor matters apart, here are two important features of the Australian constitution which are lacking in that of the dominion:

1. A popular senate, elected directly by the people and amenable to the voters.

2. The right of interpreting the constitution by the colonial supreme court, without reference or appeal to the imperial privy council, in all cases which involve none but Australian interests and rights.

The first feature makes for progress and the supremacy of the people; the second means independence in construing and enforcing the organic law of the federation. There is no reason, of course, why Canada should not have both.—Chicago Times-Herald.

"THE 'SALT' OF SALTS."

Abbey's Effervescent Salt

Taken these hot mornings

keeps you in better condition throughout the day. Enables you to attack your labors with renewed vigor and interest, and makes work a pleasure.

A teaspoonful of Abbey's Salt in a glass of water, used regularly, will keep you healthy. Good health will make you wealthy and happy.

Abbey's Salt is a preventive of and a cure for Constipation, Dyspepsia, and attendant ills.

Sold by most druggists, or sent by mail.

25c., 50c. and $1 per bottle.

The Abbey Effervescent Salt Co., 9-15 Murray St., N. Y.

Booklet free on request.

"Your Abbey's Effervescent Salt is invigorating, cleans the tongue and breath and imparts a feeling of freshness and energy to the entire system. I am constantly prescribing it."

DR. W. H. WRIGHT, L.R.C.P.I., L.M., M.R.C.S.I., L.S.A.L., Medical Officer of Health, London, England.

1570 ASBURY AVENUE, EVANSTON, ILL., January 5, 1900.

Your Salt is a very superior article. Am well pleased with it. Bottle waters no comparison.

DR. WM. H. MANN.

866 DRIGGS AVENUE, BROOKLYN, N. Y.

I have prescribed Abbey's Salt in cases of Gout, Rheumatism, Gastric Catarrh and Torpid Liver.

In each and every case the results have been gratifying. The patient has not in a single instance complained of a bad after effect. I find it pleasant and agreeable to take, effective and lasting in its results.

There is not a day that I do not prescribe it, with great satisfaction to myself and patients.

"Say, Sal, this ere new boarder is entirely too fresh. He ain't been here three hours, and I heard him holler, fifteen love ter our Mary."

A SELECTION OF THE UNFIT.

A careful student of social conditions says that "the unemployed are, as a class, a selection from the unfit; and on the whole, those most in want are the most unfit." Of course, no employer can afford to pay a man for doing poor work. Unfitness may be either a misfortune or a fault. In either case, society suffers, and must learn how to prevent the increase of defective members by making industrial training a part of general education.—Youth's Companion.

The Hon. William L. Taylor

Attorney General of the State of Indiana, and

The Hon. Robert B. Hanna

Candidate for Congress,

Will Open the Republican Campaign in Allen county at the Republican Headquarters, 105 Calhoun St., on Friday, September the 7th, at 8 o'clock p. m.

SPICES.

No food product is as much manipulated and adulterated as are the spices which are so necessary an adjunct to the household. This manipulation is so generally known, that pure food laws were passed by a number of states in an endeavor to stop the practice, but without avail. Recognizing the conditions as they exist, we carry a line of

"PURE FOOD" GROUND SPICES,

and guarantee them to be absolutely free from any admixture whatever. The following comprises a full list of our "PURE FOOD" spices:

Allspice, Zanzibar Capsicum, African Capsicum, Saigon Cinnamon, Cloves, Jamaica Ginger, African Ginger, Mace, Mustard, Nutmegs, Black Pepper, White Pepper.

138-146 West 14th Street, New York City, N. Y.

Facing the Future.

There comes a time to most women when they must face the future of wifehood and motherhood. What that future has in store for them depends largely upon themselves. To a healthy woman the obligations and consequences of marriage are a lasting happiness. To a woman suffering from irregularity or other ailments of the sex, marriage may prove a mockery and motherhood a misery. Where such irregularity exists Dr. Pierce's Favorite Prescription can be used with the assurance that health will speedily be restored. It is the most reliable medicine known to medical science for the cure of diseases which affect the delicate womanly organs. "Favorite Prescription" is a non-alcoholic medicine and is also free from opium cocaine and other narcotics.

"At an early stage of married life," writes Mrs. Flora Arn, of Dallas, Jackson Co., Mo., "I was greatly bothered with painful periods, also a troublesome drain which rendered me very weak and unfit for work of any kind. I became so thin there was nothing left of me but skin and bone. My husband became alarmed and got me a bottle of 'Favorite Prescription.' After he saw the wonderful effects of that one he got me two more, and after I used those up there was no more pain, and I began to gain in flesh very rapidly. I owe all praise to Dr. Pierce and his wonderful curative medicines."

Dr. Pierce's Medical Adviser sent free on receipt of stamps to pay cost of mailing only. Send 21 one-cent stamps for book in paper covers, or 31 stamps in cloth to Dr. R. V. Pierce, Buffalo, N. Y.

INSPECTOR CONGER HERE.

W. L. Conger, of Indianapolis, special inspector for the rural free delivery mail service, was in the city this morning. Mr. Conger left today for Kendallville and within the next few days will drive over a number of routes which have been petitioned for in the northern part of the district.

PERCY H. REMINGTON DEAD.

Percy H. Remington, who was a resident of this city some years ago and was a student at the Fort Wayne High school, died Sunday morning, August 26, from consumption, at his home in Braddock, Pa., at the age of twenty-six years. Mr. Remington was assistant cashier of the state bank of Braddock, a position he has held since the organization of the institution in 1897. He has but recently made a trip to Colorado in the hope of benefiting his health.

FRIENDS HELP.

St. Paul Park Incident.

"After drinking a cup and a half of coffee once a day I always felt languid and dull, having no ambition to get to my morning duties. Then in about an hour or so a weak, nervous derangement of the heart and stomach would come over me with such force I would frequently have to lie down.

"At other times I had severe headaches; stomach finally became affected and digestion so impaired that I had serious chronic dyspepsia and constipation. Mrs. H. A. Hober, for many years state president of the W. C. T. U., a personal friend, told me she had been greatly benefited by quitting coffee and using Postum Food Coffee; she was troubled for years with asthma. She said it was no cross to quit coffee when she found she could have as delicious an article as Postum Food Coffee.

"Another lady, Mrs. Mary Baker, of Red Wing, Minn., had been troubled with chronic dyspepsia for years and found immediate relief on ceasing coffee and beginning Postum Food Coffee twice a day. She was wholly cured. Mrs. Judge Stocker, of Minneapolis, told me that Postum Food Coffee was a Godsend to her, her heart trouble having been relieved after leaving off coffee and taking Postum Food Coffee.

"So many such cases came to my notice that I concluded coffee was the cause of my trouble and I quit and took up Postum. I am more than pleased to say that my days of trouble have disappeared. I am well and happy." Mrs. Mary Harrington, St. Paul Park, Minn.

HARRY O AT HARTFORD.

In a great field of 2:08 pacers at Hartford, Conn., yesterday, Harry O, Centlivre's great son of Atlantic King, won the second heat in 2:07¼. The race then went over until today. Free Bond won the first heat in 2:07¾.

A POLICE COMMITTEE.

The policemen have appointed Captain Whitney, Sergeant Harkenrider and Officers Elliott, Knock and Greer a committee to visit the Wabash railway and try and arrange rates for an excursion to the Lafayette carnival the last week in September. The trip will probably be made on Thursday if it is decided to go at all. Superintendent Gorsline and Lieutenant Lapp are honorary members of the committee.

BIG CHECK ARRIVES.

Monday's mail brought to the Hamilton National bank one of the largest checks ever sent to a Fort Wayne institution. It called for $115,000 and bore the signature of the treasurer of the United States. The check was in payment of United States bonds held by the Hamilton bank and which had matured. They were the old U. S. 4½ issue, which were continued a few years ago at 2 per cent.

LANDAU PARTY INJURED.

Deer Lodge, Mont., Sept. 4.—A team of horses attached to a landau loaded with people returning from a picnic became frightened today and ran away. The landau was dashed against a building and five persons were seriously injured.

ENDURED DEATH'S AGONIES.

Only a roaring fire enabled J. M. Garrettson, of San Antonio, Tex., to lie down when attacked by Asthma, from which he suffered for years. He writes his misery was often so great that it seemed he endured the agonies of death; but Dr. King's New Discovery for Consumption wholly cured him. This marvelous medicine is the only known cure for Asthma as well as Consumption, Coughs and Colds, and all Throat, Chest and Lung troubles. Price 50c and $1.00. Guaranteed. Trial bottles free at Dreier Bros'. drug store.

BOYS' CLOTHING.

A few days more and the boys will be back in school, and you should take advantage of the few remaining days of their holidays to provide them with a new suit. All our new stock is in and, as you must know, we handle nothing but dependable qualities and at prices that are always reasonable.

The diplomatic musician who can tune up that concert of the powers can get a job and no questions asked.

The news of the duke of Manchester's bankruptcy creates a suspicion that he made the mistake of associating with financiers of New York instead of their heiresses.

Let it be noted that Arkansas has taken her usual place in the democratic column when observing tomorrow that Vermont has "grandly wheeled into line," etc. Nothing like keeping the political situation well balanced.

Shanghai would like to see all of China soundly whipped. Probably this feeling has grown naturally out of the relations between Shanghai and the remainder of China. But Shanghai not being in a position to do any of the whipping, might wisely refrain from the attempt to dictate to less biased or better informed statesmen.

To be described as "one of the most influential, able, conservative and distinguished leaders his party has had," etc., etc., it is only needful for the obscure citizen to address an "open letter" to some one and announce that he can no longer maintain his old political affiliations and be honest with himself and mindful of his duty to his country. Fame is dear to every heart and some achieve it at small cost.

Vermont is holding a state election today and next week the state election in Maine will take place. The result in each state is not in doubt, it being a mere question of republican majority. Both are as inevitably republican as Texas and Arkansas are democratic. Notwithstanding the certainty of the result there has been a good deal of activity displayed by the republican managers in the campaign up in that corner of the country. Vermont gave McKinley 40,000 majority in 1896 and Maine gave McKinley above 45,000. Republicans say that confidence in the re-election of McKinley has reduced republicans in those states to a condition of apathy which will affect the republican majorities. However, it has been felt that the results will have to be taken as in some measure an indication of the strength of the president and his policies in those states. If there is a heavy falling off it will be regarded as a danger signal. But on the other hand it is argued by some of the managers that a closer vote than usual would be a good thing as admonishing the party managers and masses everywhere of the great danger that lurks in an over-confident feeling.

The spread of the bubonic plague in Glasgow is becoming a serious matter. No port city that has extensive trade with the southern Asiatic regions can ever be regarded as wholly secure against importation of the plague, but it certainly seems that the authorities of Glasgow were not only tardy to recognize the danger that has come upon the city, but were reprehensibly slow to take stringent measures to prevent the spread of it. Something could be learned by European cities of seaport cities in the United States where the utmost vigilance is maintained by the health authorities and where such a danger as developed in Glasgow is stifled the moment it appears.

Hon. Carl Schurz very strongly objects to any confusion of the issues in the present campaign. The great German-American publicist is at the present time above all else anti-imperialistic and he believes the recent interview given out by Secretary Gage ostensibly to show that if Mr. Bryan is elected he will be able to so interpret the new currency law as to reduce the country practically to a silver basis is in reality a subtle attempt to alarm the gold democrats and independents who are going to support Bryan. General Schurz points out that if there is any weakness in the new currency law that will permit such an executive policy as to the standard of money it is due to republican duplicity, because the party had promised to firmly fix the finances of the country on a gold standard. But the most forcible point made by Mr. Schurz is that if there are any serious flaws in the law the secretary as an able financier can easily find them and with a republican congress and executive they may be remedied so effectively next winter before Mr. Bryan's inauguration as to forestall any executive construction that will put the country on a silver basis or any other than a gold basis.

BATTLE FLAGS RETURNED.

Columbus, Ohio, Sept. 4.—The colors of the Thirtieth Louisiana regiment, captured by the Forty-sixth Ohio volunteer infantry during the civil war, were returned to a committee of the survivors of the Louisiana regiment at the reunion of the Forty-sixth Ohio volunteer infantry at Worthington, a suburb of Columbus, today. The flags were captured at Ezra Courthouse, just outside of Atlanta, Ga., and have been in the relic room of the state capitol here for many years. Governor Nash was present and participated in the exercises.

PLACED IN THE ARCHIVES.

The Hague, Sept. 4.—The ratifications of the agreements and treaties resulting from the peace conference were formally placed in the foreign office archives today. The minister of foreign affairs, Dr. W. H. DeBeaufort, in a brief speech expressed the hope that the future historian will be able to declare that the work of the conference was of lasting benefit to humanity and proposed that an expression of this hope be conveyed to the czar. A telegram in this sense was subsequently dispatched to St. Petersburg.

HONORED BY THE EMPEROR.

Berlin, Sept. 4.—Emperor William has conferred the Order of the Red Eagle on Admiral Bendemann, commanding the German squadron in the far east for the services he has rendered in China.

A Wrong Notion

It is a mistake to suppose that baby must come with great pain and suffering. An expectant mother need only use the wonderful liniment called MOTHER'S FRIEND to escape the dread, danger, pain, distress and nervousness. Druggists sell this liniment for $1 a bottle. Wives are invited to send for our free illustrated book. It will tell them things they ought to know.
THE BRADFIELD REGULATOR CO., Atlanta, Ga.

SMALL RACE RIOT

PEACEFUL MARION AMBITIOUS TO BE UP TO DATE.

NEGROES AND WHITES CLASH

THE TROUBLE GREW OUT OF A BASE BALL GAME.

HAPPENINGS IN HOOSIERDOM

GENERAL NEWS OF THE STATE OF INDIANA.

Marion, Ind., Sept. 4.—A race war was started here yesterday at an amateur ball game. J. T. Rademaker was knocked down by a colored man. Rademaker's son-in-law, Charles Dwyer, then struck the negro with a ball bat, and a riot followed. Dwyer escaped to a residence, which was soon surrounded by 200 negroes, crying, "Kill him, lynch him." A riot call was sent to police headquarters, and a patrol wagon full of police dispersed the mob and rescued Dwyer.

A FLASH OF LIGHTNING.

Princeton, Ind., Sept. 4.—John W. Gladish, 27 years old, was struck by lightning near here and instantly killed. Together with his companion, Jesse H. Willis, they had just driven their team of horses under a farm shed for shelter. Willets was stunned and thrown beneath the horses, both of whom were knocked down by the flash. Gladish had been married but four months.

THE TRUNK EXPLODED.

Richmond, Ind., Sept. 4.—I. E. Hodson, a baggageman employed by the Panhandle, met with a peculiar accident yesterday afternoon. While handling a trunk, an explosion took place, reducing the trunk to fragments and badly burning Hodson about the eyes and face.

A LOSS TO THE STATE.

Terre Haute, Ind., Sept. 4.—Rev. William Mitchell has resigned as pastor of St. Luke's Episcopal church, to accept a call to the Church of the Holy Communion, at Redwood Falls, Minn. Rev. Mitchell came here five years ago from Kendallville, where he built a mission church. He has had charge of mission work in Rockville and Brazil, Ind., and Marshall and Martinsville, Ill., in addition to his work at St. Luke's.

HOW ABOUT FORT WAYNE?

Scottsburg, Ind., Sept. 4.—For several years the people of this part of the state have been trying to get the legislature to erect a monument over the graves of the victims of the Pigeon Roost massacre, but they have always met with failure. Recently the G. A. R. of this county began moving in the matter. There are but two points in Indiana of historical interest with reference to early Indian encounters. One of them is the battleground of Tippecanoe and the other Pigeon Roost. Appropriations have been made for the former, but the latter is unmarked, in the midst of an old field overgrown with weeds and briars, with nothing to mark the common grave of the twenty-two persons killed at that time, save an old sassafras tree.

A QUESTION OF BLOOD.

Portland, Ind., Sept. 4.—The marriage of Mrs. Samantha Vincent and Albert Faxon, whose nationality is questioned, and who is under bond awaiting trial in the Jay circuit court, is a very peculiar case. Mrs. Vincent was a well-to-do widow, with a farm of 150 acres, and drawing a pension of $12.50 a month. She also had some other property, and she made a good living for herself, her children all being adults and settled in life. She had reached the age of fifty-three years, and her once auburn hair had turned gray. Mrs. Vincent employed Faxon as a farm laborer. Their friendship ripened into love, and on last Wednesday Faxon came here and made application to the county clerk for a license to wed Mrs. Vincent. His eligibility to wed a white woman was questioned, and Alf Smith, a friend, made affidavit that Faxon had less than one-eighth colored blood. After this the clerk issued the license, and the couple were united in marriage by Rev. M. A. Harlan. They then left on a pleasure trip, going to Greenville, O., and other points. Both were well attired, and the sight of the gray-haired woman with the youthful looking husband, who appeared other than a genuine white man, attracted much attention. The couple returned here last Friday night, and on an affidavit by Corwin Alexander, a son-in-law, City Marshal Carr placed Faxon under arrest. The bride was much distressed over the arrest, and tried hard that night to procure bond, and she cried bitterly when she found that she could not accompany him to jail.

Faxon was given a preliminary hearing on Saturday, and was placed under $500 bonds to await action of the grand jury. During the examination he was not at all disturbed. Friends of Faxon claim that he is really less than one-eighth negro blood, but this remains to be proven. The woman's friends are trying in every possible way to separate the couple, but so far have been unsuccessful. Mr. Faxon is but 22 years old.

TOOK AN OVERDOSE.

Hartford City, Ind., Sept. 4.—One of the saddest deaths that has occurred here in a number of years was that of Miss Margaret Lee, of Albuquerque, N. M., who died Sunday evening at the home of ex-Auditor James T. Trant, at whose home she was a guest. At the morning service at the Catholic church she sang a solo Sunday and at 9 o'clock was a corpse. Her death was due to an overdose of acetanild headache powders, which she had purchased at Terre Haute. The deceased was 29 years of age and the accomplished daughter of Judge W. D. Lee, of Albuquerque, N. M., who was a relative of the late Robert E. Lee, commander-in-chief of the confederate army. She was an accomplished young lady who had spent much of her life in travel. No funeral arrangements will be made until the arrival of her relatives, but it is thought the remains will be taken to Albuquerque for burial.

THE PLAGUE IN GLASGOW

THIRTEEN CASES NOW UNDER TREATMENT.

Rumor in London of an Outbreak of the Plague in That City Has No Confirmation.

Glasgow, Scotland, Sept. 4. A bulletin issued by the medical officers of Glasgow this morning shows that an additional plague case has been reported. The total is now 13; doubtful cases, 3; under observation, 103.

RUMOR OF PLAGUE IN LONDON.

London, Sept. 4.—A report was current to-day that two cases of the plague had been discovered in the vicinity of the London docks, but the medical officer, when questioned on the subject, said he knew nothing about the matter.

CAME FROM PLAGUE PORT.

New York, Sept. 4.—The steamer State of Nebraska arrived to-day from Glasgow and reported all well on board. However, as she came from a plague port she was held at quarantine for examination. After her passengers and crew had been inspected and all found well the steamer was released and she proceeded to her dock at noon.

POLITICAL NOTES.

The democrats of Arcola will have a pole raising next Friday evening. John H. Aiken will deliver an address.

The Jefferson club will hold a special meeting this evening to complete the organization of the marching club. The uniforms have arrived and can be secured at Lehman's clothing store. A drum corps will also be organized and there is talk also of organizing a drill corps of twenty-four men to make fancy movements during parades on the streets.

UNIFORMS ARRIVE.

The first consignment of uniforms for Capt. O. C. Meyer's newly organized company G, of the Indiana national guard, arrived this morning and within a short time will be issued to the members. The entire equipment of the company is to be entirely new and of the most approved pattern.

SOLDIER'S WIFE DIES.

Denver, Col., Sept. 4.—Mrs. Corliss, wife of Col. A. W. Corliss, of the Second United States infantry, died at Fort Logan today after a long illness. Colonel Corliss is now en route to China with his regiment. He passed through Denver a few days ago, but his orders did not permit him to go to his wife's bedside.

DIVIDENDS ON HECLA SHARES.

Boston, Sept. 4.—The directors of the Calumet and Hecla Mining company today declared a dividend of $20 per share.

Detroit is one of the most beautiful cities in America. You can go there next Sunday for $1.60 via Wabash and Steamer. Train leaves 5:50 a. m. 2tf

CONCORDIA'S YEAR BEGINS

LUTHERAN COLLEGE WILL OPEN WEDNESDAY.

Nearly Sixty New Students to Enter—Parochial Schools Convened Today.

Tomorrow morning a new year's work begins at the big Lutheran educational institution on Maumee avenue. Concordia college has always stood in high favor with a wide reputation, and for several days the students have been gathering in from widely divergent points to be in readiness for the opening classes tomorrow.

A very large proportion of those present last year, with the exception of the class of graduates, are returning, and in addition there are about sixty new students enrolled. The attendance will be about 175, and the faculty remains the same as last year, with the addition of Professor Dorn, who succeeds Professor Duemling. Among the new collegians are a number of young men from Europe.

PAROCHIAL SCHOOLS OPEN.

The Catholic parochial schools of the city, with the exception of St. Patrick's, opened this morning for the fall term and each school reports a much increased membership over that of the previous term. The total number of scholars is estimated at about 2,500, an increase of about 200.

The Catholic high school in Library hall opened this morning with forty pupils in attendance, a gratifying increase over last term. Brother Marcellus is in charge and has as assistants Brothers Ephraim, who was superior here three years ago, and Brother Ernest. Brother Marcellus is also principal of the boy's school, and in that department is assisted by Brothers Tobias, Florian, Cassian and Peter. Rev. John Durham is head of the high school and the brothers' school is under the direction of Rev. P. J. O'Reilly. Very Rev. John Guendling is in charge of St. Augustine's academy, which opened this morning with 325 pupils.

St. Patrick's school opens tomorrow morning, with 500 pupils and the largest per cent. increase of any of the parochial schools. Rev. Father Delaney expects to add more school room to that already occupied, and a new teacher will be engaged. A number of improvements have been made in the school during the summer, slate blackboards having been placed in every room.

The various German Lutheran schools commenced the fall season this morning and the reports from the heads of the various schools show a gratifying increase in the number of pupils. There are two new Lutheran schools, Concordia and Emmaus. The latter school has not been completed and will not open until later in the season.

SLAIN BY REJECTED SUITOR.

Denver, Col., Sept. 4.—Alvina Bolen, eighteen years old, a daughter of Hans Bolen, proprietor of the Metropolitan hotel, was shot and instantly killed on Sixteenth street by Wm. Baragar, a rejected admirer. Baragar then swallowed poison, but prompt medical attendance saved his life. He was committed to jail.

THE BRAVERY OF WOMAN

Was grandly shown by Mrs. John Dowling, of Butler, Pa., in a three years' struggle with a malignant stomach trouble that caused distressing attacks of nausea and indigestion. All remedies failed to relieve her until she tried Electric Bitters. After taking it two months, she wrote: "I am now wholly cured and can eat anything. It is truly a grand tonic for the whole system, as I gained in weight and feel much stronger since using it." It aids digestion, cures dyspepsia, improves appetite, gives new life. Only 50c. Guaranteed, at Dreier Bros'. drug store.

FACE HUMORS

Pimples, Blackheads, Red Rough, Oily Skin
PREVENTED BY
Cuticura SOAP

MILLIONS of Women Use CUTICURA SOAP, exclusively, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and healing red, rough, and sore hands, in the form of baths for annoying irritations, inflammations, and chafings, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and many sanative antiseptic purposes which readily suggest themselves to women and mothers, and for all the purposes of the toilet, bath, and nursery. No amount of persuasion can induce those who have once used it to use any other, especially for preserving and purifying the skin, scalp, and hair of infants and children. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odors. No other medicated soap ever compounded is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in ONE SOAP at ONE PRICE, viz., TWENTY-FIVE CENTS, the BEST skin and complexion soap, and the BEST toilet and BEST baby soap in the world.

Cuticura Complete External and Internal Treatment for Every Humor, consisting of CUTICURA SOAP (25c.), to cleanse the skin of crusts and scales and soften the thickened cuticle; CUTICURA OINTMENT (50c.), to instantly allay itching, inflammation, and irritation, and soothe and heal, and CUTICURA RESOLVENT (50c.), to cool and cleanse the blood. A SINGLE SET is often sufficient to cure the most torturing, disfiguring, and humiliating skin, scalp, and blood humors, with loss of hair, when all other fails. The Set, $1.25. POTTER D. AND C. CORP., Sole Props., Boston. "How to Cure Face Humors and all other Humors," free.

REPLIES TO GAGE

CARL SCHURZ ON SECRETARY'S SCARE TALK.

NO DANGER OF SILVER BASIS

REPUBLICANS CAN MAKE LAW STRONGER.

HE ASKS GAGE TO RETRACT

COUNSELS HIM ON EVILS OF PANIC-BREEDING.

New York, Sept. 4.—Carl Schurz has addressed the following open letter to Lyman J. Gage, secretary of the treasury:

"Dear Sir:—The newspapers of August 26 published an interview with you in which you were quoted as saying that 'there is no doubt Mr. Bryan (if elected president) could order his secretary of the treasury to make payment in silver of all the public debt payable in coin, and for all current disbursements of the government as well, which amount to $1,500,000 to $1,750,000 per day, and that he would give such an order, too, is very certain, if he is in the same mind that he was in 1896.' You went on to say that although Mr. Bryan 'would have great difficulty in doing that at once,' owing to the small silver resources of the government, yet he might accomplish it in time, as the mere announcement of such a purpose 'would stop the inflow of gold or at least very largely diminish payments in gold and correspondingly increase payments into the treasury of silver and silver certificates;' that this would practically put the government on a silver basis, ruin its credit and bring incalculable disaster upon the business interests of the country.

DENIED BY MR. SCHURZ.

"Having for a great many years taken a deep and somewhat active interest in the establishment of a sound monetary system in the United States, I may without impropriety publicly address to you a few remarks in reply to your public statement. I emphatically deny, Mr. Secretary, that the danger set forth by you in your interviews really exists, and that any president will be able to do what you say might be done unless the republican party in control of the government in both its legislative and executive branches prove itself utterly dishonest in its profound purpose to maintain the gold standard.

"This denial is not based upon the reasoning of those of your critics who seek to show by figures that a president desiring ever so much to put the country upon a silver basis would lack the means for doing so. On the contrary, for argument's sake, I will accept all you say on that point. But you omit to mention a fact of decisive importance.

EFFORT TO CAUSE ALARM.

"If the executive, as you say, possesses the discretion of 'paying silver in settlement of all interest on the public debt not specifically payable in gold, and of making its daily disbursements to its creditors in silver,' it is owing to a flaw in the currency law passed at the last session of congress—a law which, as the spokesman of the republican party promised, was to put the gold standard upon an impregnable basis. It was suggested at the time by some of the critics that this law was purposely so manipulated by republican politicians in the senate as to leave the possibility of the subversion of the gold standard by executive action open in order to enable the republicans in the present presidential campaign to say that the election of a republican president was absolutely necessary to save the gold standard and to prevent dreadful economic disaster. Whether any such scheme entered into that legislation I do not assume to determine. Certain it is, however, that this feature of the law is now so used, and that you, Mr. Secretary, actually do so use it for the evident purpose of alarming the business community and the possessing classes generally.

A QUESTIONABLE COURSE.

"I hardly need to say to you that the spreading of false alarms of this kind is a very questionable and reprehensible thing for anybody, and especially for a secretary of the treasury. And I call your prediction of the possibilities specified by you and of the disasters sure to follow a false alarm for a very simple reason. Whoever may be elected president on November 6, there will be another session of congress before he will take office on March 4, 1901. The republicans will have strong majorities in both houses of that congress. The executive, too, will be in their hands. They will, therefore, be able to make such laws as they please. They will thus have full power and ample opportunity before the inauguration of the next president to pass any legislation required to make it utterly impossible for any president to break down the gold standard in any way you, Mr. Secretary, describe in your interview. A simple enactment in two or three lines substantially providing that it shall be the duty of the secretary of the treasury to pay in gold or silver, at the option of the creditor, all kinds of indebtedness of the United States now payable in coin may be sufficient.

CAN REMOVE FEAR OF CHANGE.

"And if there should be another flaw in the present law dangerous to the gold standard in any other way you, Mr. Secretary, able financier as you are, will surely detect it and find a legislative remedy and have it ready in the shape of a well-matured bill to be submitted to congress at the opening of the session. In short, the republicans, controlling both the legislative and the executive branches of the government, will next winter have ample power and opportunity to do what they ought to have done at the last session—to put the currency law in such a shape that the gold standard cannot possibly be shaken by executive action, no matter who may occupy the presidential chair—and thus remove, to that extent at least, the basis of our monetary system from the changeful game of party politics.

"Do you see any reason for doubting that congress at its next session will do this? It is quite evident that, if there is any substance at all in your prediction of disaster, the republicans in congress cannot refuse to do it without proving that the professed solicitude of the republican party for the maintenance of the gold standard is arrant hypocrisy. But if there be any wavering I am convinced public opinion will, in case of necessity, compel them to take the necessary steps.

URGES A RETRACTION.

"You will thus have to admit, Mr. Secretary, that when you sounded your note of alarm you had overlooked the most important fact that you and your party friends—that is, the republican majority in congress, led by the administration of which you form so important a part—will be able easily and promptly to remedy the defects of the law which you have described as a source of terrible danger, and therefore your note of alarm was, to say the least, a mistaken one. It may suggest itself to you as a matter worthy of grave consideration whether you should not retract what you have said. In fairness to the business community, which should not be unnecessarily disquieted, especially not by those in authority. I am sure many of your fellow-citizens are anxious to know what you may have to say on this aspect of the situation. Very respectfully yours,

"C. Schurz."

"Bolton Landing, Lake George, N. Y., Sept. 1."

NO SUCCESSOR ELECTED.

New York, Sept. 4.—At the offices of the Southern Pacific Railroad company to-day it was said no meeting of the board of directors had been called as yet to fill the place made vacant by the death of the late Collis P. Huntington. A press dispatch to the effect that the work on the proposed line from Durango to Mazatlan had been abandoned was denied.

STEEL TRUST DIVIDEND.

New York, Sept. 4.—A meeting of the directors of the American Steel and Wire company was held here to-day. The usual dividends were declared. No statement was given out as to the other business transacted by the directors.

TALK TO TEACHERS

ALLEN COUNTY INSTITUTE IS WELL UNDER WAY.

ATTENDANCE IS VERY LARGE

ABLE INSTRUCTORS ARE HEARD WITH PROFIT.

DR. BROWN ON PSYCHOLOGY

ARRANGING FOR THE TOWNSHIP GATHERINGS.

More than three hundred and fifty teachers are in attendance at the annual county institute to-day, and this number is in excess of the instructors employed in the public schools of the county. It is believed that practically every Allen county teacher is present, and in addition to these are other instructors from the parochial schools and a few of the public school teachers from adjacent counties. The audience to-day completely fills the auditorium of the West Jefferson Street Church of Christ, and the teachers are taking a deep interest in the proceedings.

Superintendent F. J. Young is presiding, and J. W. Hursh, of Perry township, has been elected secretary. At each session Prof. William Miles, of the Fort Wayne schools, conducts the musical program of several numbers, and this morning Rev. E. W. Allen conducted a brief devotional service.

TALKS OF NATURE STUDY.

Miss Anna E. Logan, primary supervisor of the Cincinnati public schools, is giving the Allen county teachers some valuable instruction in primary work. Miss Logan began with a presentation of "The Child's Basis of Knowing," detailing at some length the primary foundation of the child's receptive faculties, and told of the methods which will best develop the young mind. Miss Logan began this morning upon her topic proper—"Nature Study"—and it is already quite certain that she will prove one of the most popular and valuable instructors of the institute. Miss Logan's work is intensely practical—largely a recital of her own experiences in primary instruction. She explains thoroughly the system of nature study now in general use in the primary schools. All nature, and particularly animal life, appeals to the child life, and is especially valuable in encouraging the development of the powers of observation, and the results of its use in broadening and deepening the child's conception of human life are most pronounced. Interspersed with the instructions Miss Logan charmingly relates incidents of school life showing the adaptation of the methods of nature study, and she holds the attention of the teachers with the closest interest.

DR. BROWN'S LECTURES.

Dr. J. F. Brown, vice president of Earlham college, at Richmond, has awakened a pronounced interest, also, in his presentation of "Educational Psychology," for he handles the subject in a manner that is plain and forcible. This morning, among other things, Dr. Brown said:

"Psychology has for its purpose to give an account, and, so far as possible, an explanation of the facts of consciousness. First, we must get at the facts, and then the explanation. There are three general divisions of the subject—general psychology—such as may be found in the text books; and third, and what is of most value and importance to the teacher, the psychology of the individual.

"A knowledge of psychology is very helpful to the understanding of literature, history and the actions of individuals. We shall discuss only educational psychology, a few selected principals having a special bearing upon education. A knowledge of psychology is not designed to displace a knowledge of subject matter.

THE GREATEST NEED.

"A more thorough scholarship is probably the greatest need of teachers today. Modern psychology is especially devoted to the exploration of the facts of consciousness, by reference to physical conditions; hence the emphasis upon the physical structure of man. Man is a complex being, the product of a long process of development. Differentation of physical structure has been accompanied by a differentation of functions. Within the nervous system, which is the special organ of consciousness, there is a differentation of structure and of function also, certain parts having to do especially with certain activities. A comparison of the human brain with the brains of the higher brutes show many startling resemblances, the great difference being that the human cerebrum is so much more largely developed. To both resemblances and differences we must look for an explanation of many of the facts of human consciousness."

This afternoon Dr. Brown took up "Habit" in its relation to psychology. In part he said: "Habit has its seat in the nervous system, and is due to the elasticity of nerve matter. It is trite to say that it means much in education, but from the physiological point of view the important thing is to make the nervous system an ally and not an enemy."

Another interesting feature of the afternoon was "Our Ancestors," by Dr. B. Von Kahlden, of the Fort Wayne schools, in which the speaker took up German history, religion and mythology.

The institute will continue until Friday noon. Ladies of the West Jefferson street church are serving meals to the teachers in the dining hall of the church.

TOWNSHIP INSTITUTES.

Immediately at the close of the county institutes the townships will each hold their first institute of the year, and committees are now preparing programs for these meetings. The dates selected are as follows:

Friday Afternoon—Wayne and Washington townships, at the Elektron building.

Saturday—St. Joe and Adams townships, at the Elektron building.

Monday—Lafayette and Pleasant townships, at No. 6, Lafayette township.

Tuesday—Jefferson, Jackson and Monroe townships, at Townley.

Wednesday—Madison and Marion townships, at Hoagland.

Thursday—Lake and Aboite townships, at the Elektron building.

Friday—Perry and Eel River townships, at Hontertown.

Saturday—Springfield, Scipio, Maumee, Milan and Cedar Creek township, at Maysville.

County Superintendent Young will be present at each of these township meetings.

NEED A CHECKING SYSTEM.

A well-filled train drew into Victoria station and the passengers crowded around the huge pile of luggage, pulling and hauling with the porters at trunks, bags and bundles of rugs, says the London Daily Mail.

A tall, middle-aged gentleman picked up a black leather steamer trunk, holding it by one end. At the other end of the box was a lady, who said, "Kindly drop this box, it is mine."

"I beg your pardon, madame," retorted the tall man, "I am sure it is mine."

They put down the box and examined it, but it bore no distinguishing marks. Just then a third claimant picked it up and proceeded to carry it away, and he in turn was stopped by a young man who protested loudly that the trunk was his; and he proceeded to prove it by turning the box over and showing three initial letters painted on the leather strap on the side. Even then the third claimant failed to show satisfaction, and the dispute nearly ended in fisticuffs.

These scenes, which are not infrequent, created much consternation and astonishment among the foreigners, who constituted the majority of the passengers. They were loud in their complaints of the manner in which British railways neglect their passengers' luggage, never forgetting, however, to charge for carrying it.

The advent of the "Twopenny Tube," with all its modern improvements, will probably have the effect of stimulating the other railway companies to better things, and the traveling public may some day be most agreeably surprised to learn that the simple system of luggage checking, which is used even in Haiti, has been adopted in England.

AMERICANS MORE RATIONAL.

Our crowds may, and do, have riproaring times when the occasion demands it; but surely they do not become asinine as do European crowds. If they mobbed their president as did that Parisian crowd a few months ago they wouldn't be content with so ignoble a result as breaking his hat with a cane. They may stand around newspaper offices looking at bulletins, but even on election night they don't rush away in mad, screaming hordes, every few moments yelling hysterically "a has" something or somebody.

In London, wherever crowds gather for any purpose, from an unveiling to an excursion, street hawkers are on hand with two things that they call respectively "teasers" and "ticklers." The "teaser" is an empty bladder tied to a stick, and the "tickler" is a long feather. The "teaser" is affected most by the male representative of English dignity, and the "tickler" captures the fond feminine heart. The male goes into raptures of joy when he succeds in hitting somebody—a respectable elder gentleman preferred—with his toy. The female trips gayly through the streets, tickling the ears of masculine persons to whom she has not been introduced.

And among the "lower orders" who are as undignified as are the costermongers of London? We have no class that delights in wearing grotesquely bell-shaped trousers, with huge pearl buttons down the sides, and coats with immensely broad braid bindings and also profusely covered with pearl buttons as big as trade dollars.—London Press.

The Bell has Rung.
Straw Hats are Called in.

Your fall hat is here waiting—not one style or two, or three, as the "exclusive" hatters, but over fifty distinct blocks to select from. The man we can't fit and fit perfectly ought to go bare-headed. Hat store $3 Derbies for

$2.00.

No charge for the label. Other stylish hats modeled after the Dunlap, Knox and Youmans fall shapes at

$1, $1.50, $2.50 and $3.

We do not deal in back numbers. Our styles are up to date. If you buy your fall hat here you will be satisfied with it.

Mansfield	65	60	.520
Anderson	53	69	.434
New Castle	42	84	.333
Marion	35	86	.289

Jack Harper was in the box for Fort Wayne again yesterday afternoon and twirled his usual ineffective game. He was as wild as a March hare and allowed eight visitors to walk to first on balls and hit another, besides being credited with one wild pitch. His support was not gilt-edged and each of the errors credited to the home team was costly, especially so being Hollingsworth's failure to handle Babb's pretty throw which should have retired the Quakers and beat them out of two runs. Figgemeier did the twirling for New Castle and he grew better as the game progressed. The errors behind him were just as costly as those made by Fort Wayne, the first two scores by Fort Wayne in the initial inning counting on Van Buren's rank muff of an easy fly to the outfield. Latimer was behind the bat for New Castle, Graffius being under the weather, and Manager Wadsworth played first base. There were no distinct features of the game outside the wild twirling of Harper. The complete story of the game is best told in the following full score:

FORT WAYNE.

Indianapolis, 3-2; Kansas City, 1-1.
Milwaukee, 1; Cleveland, 0.

NOTES OF THE GAME.

The attendance yesterday did not exceed 700.

After today New Castle plays two more games and then Anderson comes Friday and Saturday.

Reub Waddell returned to the National league yesterday and let the Bostons down with four little singles.

Toledo is climbing the Inter-State ladder very rapidly and if the Fort Waynes do not take a brace the Mud Hens will land in second place.

The South Waynes challenge any club in the city for a game of ball, to be played Sunday, Sept. 9. Answer by calling Home 'phone 158 south.

The Frenchtown Grays defeated the Ravens 20 to 14. Batteries—Grays, J. Linskey, A. Lauer and G. Lauer; Ravens, J. Alt, Walter Wagner and McAfee.

The New Castles played their usual fast game yesterday and deserved to win. Nattress had a trio of errors at short, but Figgemeier never weakened.

Pat Wright has accepted terms with the Marion team and will probably finish the season at first base with the tail-enders. It would be pleasant to Pat if he could bent out his old comrades—the New Castles.

Wheeling has had a monopoly on forfeited games this season, all on account of the changes made in the schedule during the playing season. It is doubtful if the patrons of any base ball league were ever asked to keep track of a worse schedule in the history of the national game.

THE ROUTE TO THE POLE.

Although the eastern coast of Greenland is much nearer to Europe than the western, it is really much more inaccessible to explorers and far less is known about it. The eastern side of the continent is colder than the other. A small branch of the gulf stream flows up the western coast and mitigates the severity of the temperature. That route to the pole, therefore, has proved the most popular with explorers. Brainerd and Lockwood were thus enabled to carry the American flag to above 83d parallel of latitude. Peary chose this path as the most promising. And the Norweigen, Sverdrup, who followed him up to the Artic regions two summers ago likewise.—New York Tribune.

BASE BALL

Tomorrow, New Castle vs. Fort Wayne. Game called at 3:30.

A POWDER MILL EXPLOSION

removes everything in sight; so do drastic mineral pills, but both are mighty dangerous. No need to dynamite your body when Dr. King's New Life Pills do the work so easily and perfectly. Cures Headache, Constipation. Only 25 cents at Dreier Bros', drug store.

One hundred dozen Knee Pants to choose from at 50c.

SHOW YOUR COLORS

Next week. A full line of Red, White and Blue Bunting and National Flags at
THE PEOPLE'S STORE.

THE MARKETS.

Chicago, Sept. 4.—Weakness characterized trading in wheat for the greater part of the morning. The market was affected by larger world's shipments, easy cables and better weather in the northwest. October opened 9/8c lower at 74⅞c, touched 73½c on a little local demand and then dropped to 74⅛c. Local receipts (two days) were 848 cars, 43 of contract grade, while for the same period Minneapolis and Duluth reported 1,143 cars, against 414 last week and 2,200 a year ago. World's shipments were 6,176,000 bushels.

The corn weakness later dragged wheat down. October, on the real buying, rallied to 74⅜c, but broke to 74⅛c and closed weak, 1@1⅛c lower at 74⅛@74⅛c.

Corn opened steady, October ⅛c higher at 39⅛c to 39¼c, helped by higher Liverpool cables and light country offerings. On local selling the market reacted to 38¾c. The volume of trade early was small. Receipts were 546 cars.

Corn closed weak at ¾@⅞c lower at 38⅛c.

Oats were dull and steady, October opening a shade higher with corn at 21⅜c to 21½c. Opening prices held for some time. Receipts were 1.009 cars for two days.

Provisions were strong and active early, helped by light hog receipts and a good cash demand over the holiday. October pork opened 12½c higher at $11.17½ and sold to $11.12½; October lard opened 5@7½c higher at $6.82½ to $6.85, and October ribs 5c higher at $7.12½, selling to $7.10.

THE CLOSE.

Prices at the close were as follows:

Wheat—Sept., 73⅞c; Oct., 74⅛@74⅛c; Nov., 75c.

Corn—Sept., 39⅛c; Oct., 38¼c; Nov., 36⅜c.

Oats—Sept., 21c; Oct., 21¼c; Nov., 21⅜c.

Pork—Sept., 10.97½; Oct., $11.07½; Jan., $11.30.

Lard—Sept., $6.77½; Oct., $6.80@6.82½; Nov., $6.77½; Dec., $6.60; Jan., $6.57½.

Ribs—Sept., 37.22½; Oct., $7.10@7.12½; Jan., $5.95@5.97½.

Flax—Cash N. W., $1.43½; Cash S. W., $1.43; Sept., $1.43½; Oct., $1.40.

CHICAGO LIVE STOCK.

Chicago, Sept. 4.—Cattle—Receipts, 6,500, including 2,500 westerns and 1,000 Texans; market generally steady. Good to prime steers, $5.60@6.10; poor to medium, $4.60@5.55; stockers and feeders, $3.35@4.80; cows, $2.80@4.50; heifers, $3.00@5.00; canners, $2.00@2.75; bulls, $2.65@4.65; calves about the same as last Tuesday, closing weak. $5.00@7.50; Texas fed steers, $4.25@5.00; Texas grass steers, $3.25@4.25; Texas bulls, $2.50@3.40.

Hogs—Receipts today, 13,000; tomorrow, 24,000; left over, 2,468. Market active to 10c higher; top, $5.50. Mixed and butchers, $5.00@5.50; good to choice heavy, $5.10@5.42½; rough heavy, $4.90@5.05; light, $5.15@5.50; bulk of sales, $5.15@5.37½.

THE DAY ON WALL STREET.

New York, Sept. 4.—The progress of prices in foreign securities marked during the holidays here caused small gains in the opening dealings in the international stocks. The conspicuous features, however, were Steel and Wire and People's Gas. The former rose 1¼, while the latter on running sales of 2,500 shares was quoted from 93⅞ down to 93¼, compared with 94, Friday's close.

The advancing tendency of the market was checked by heavy sales of high-priced specialties. Sugar fell 1⅝, Brooklyn Transit 1⅝, and People's Gas 1¼ in all. Railroad stocks lost their slight gains in some cases, but in others the advantage was maintained. Pittsburg, C., C. & St. L. preferred lost 2⅞. There was very little doing in Standard stocks.

A firmer tone generally permeated the market in the second hour. Sugar rallying a point. People's Gas, on the other hand, continued to droop, reaching a decline of about 2½ points.

Bonds were quiet and firm.

NEW YORK PRODUCE.

New York, Sept. 4.—Butter—Receipts, 17,712 pkgs; market steady; creamery, 17½@22c.

Cheese—Receipts, 10,610 pkgs; market steady; large white, 10¼c; small white, 10c; large colored, 10½@10⅜c; small colored, 10¼c.

Eggs—Receipts, 17,104 pkgs; market firm; western, regular packing, at mark, 10@16c; western, loss off, 16½@18c.

Sugar—Raw, steady; fair refining, 4¼c; refined, steady; granulated, $6.15.

Coffee—Market easy; No. 7 Rio, 8½@8⅝c.

THE POULTRY MARKET.

New York, Sept. 4.—Alive, steady; springers, 11½@12½c; fowls, 10c; ducks, per pair, 35@60c; geese, 70c@$1.00. Dressed, weak; springers, 11@12½c; fowls, 9@10½c.

THE MONEY MARKET.

New York, Sept. 4.—Money on call nominally at 1¼@1½ per cent; prime mercantile paper, 4@5½ per cent; sterling exchange steady with actual business in bankers' bills at $4.87½ for demand and at $4.84¼ for 60 days; posted rates, $4.85 and $4.88½; commercial bills, $4.83¾@4.83¾; silver certificates, 61¾@62½c; bar silver, 62c; Mexican dollars, 48¾c.

FORT WAYNE MAN LOSES.

Little Rock, Ark., Sept. 4.—The entire democratic ticket, headed by the Hon. Jeff Davis, of Pope county, for governor, was elected in Arkansas yesterday. Early returns indicate that the vote will be lighter than was expected. H. L. Remmell, the republican candidate for governor, made a good showing and his increased vote over two years ago will probably reduce the usually large democratic majority. There was no opposition to the democratic ticket for any office except the governorship. A fair estimate places the total vote as follows: Davis (dem.), 100,000; Remmell (rep.), 40,000; Files (pop.), 3,000. Davis' majority, 57,000.

DEATHS AND FUNERALS.

GOEBEL.

Mrs. Mary Goebel, of this city, died Monday at a hospital at Richmond, where she has been for several weeks receiving treatment. Mrs. Goebel was thirty-seven years of age, and the daughter of Mr. and Mrs. Henry Gardt, of 271 Harrison street. She leaves two little daughters, Margaret and Regina. Other relatives are the parents, three brothers, Henry, Stephen and Peter Gardt, and two sisters, Mrs. Frank Bode and Mrs. Mathias Schramm, all of this city.

The remains will reach the city at 4 o'clock this afternoon and will be removed to the home of her brother, Stephen Gardt, 101 Force street.

Funeral services are to be held Thursday morning from St. Peter's Catholic church.

ODDOU.

Charles L., the infant son of Mr. and Mrs. Frank Oddou, of 116 East Jefferson street, died on Monday from spasms, at the age of three days.

Funeral services will be held Wednesday morning at 9 o'clock from the Cathedral and will be private.

FUNERAL ANNOUNCEMENTS.

Sisney.—Funeral services of Charles Sisney, infant son of Mr. and Mrs. Henry Sisney, of 20 Locust street, will be held Wednesday morning from Bower's chapel, on the Maysville road.

PYTHAGORAS' THEORY TRUE.

In the earliest times in which men began to give anything like scientific attention to the movements of the heavenly bodies, the planets, or "wanderers," as their name implies, appear to have been regarded sometimes as living beings, mostly deified heroes, and sometimes as the abodes of these beings. The men of these ages naturally took what they saw for granted and believed the earth to be the center of the universe, with the sun, moon and other heavenly bodies moving round it. In course of time, as observation became more exact, the irregularity of the apparent orbits of the planets was noted and accounted for by fixing them in revolving crystalline spheres or zones, the smaller inclosing the earth and the rest outside working at varying instances and at varying speeds. In each of these a planet was fixed, and so the irregularity was accounted for, swiftness or slowness of revolution being taken as a criterion of proximity or distance. This was practically the theory adopted in what is called the Ptolemaic system. This system had been shaping itself from the times of Plato and Aristotle, and remained generally accepted until the demonstrations of Copernicus demolished it. It is, however, well worthy of note that the Pythagoras, about five centuries before Christ, had advanced the true theory of the universe, that is to say, the revolution of the earth and its sister planets around the sun. This, however, conflicted strongly with the preconceived ideas of the philosophers of Greece and Rome, and subsequently with those of the theologians, who considered that they were bound to consider the earth as the center as well as the end and aim of creation. Hence, ie was not until something like 2,000 years after the death of Pythagoras that his theory was practically confirmed by the astronomers of the sixteenth and seventeenth centuries.

A pneumatic rocking chair has just been patented. The air cushions attached to the rockers are very similar to ordinary cycle tires.

HIS EYEBALL BADLY BURNED

GEORGE MOHR HAS A PAINFUL EXPERIENCE.

Bumblebees Cause a Runaway and Lester Sarrazin Is Hurt—The Accidents.

George Mohr is confined to his home on East Washington street suffering from a painful burn upon his right eyeball, the result of a peculiar accident. Mr. Mohr was walking along the street last evening smoking a cigar when a companion playfully pulled the cigar from his mouth. In the scuffle which ensued the lighted end of the cigar came in contact with Mr. Mohr's right eye, severely burning the cornea. Dr. A. K. Hammond dressed the burn, and while it is most painful no permanent injury is anticipated.

BEES CAUSE A RUNAWAY.

Lester Sarrazin, residing along the St. Joe river some miles northeast of the city, was painfully injured in a runaway a few days ago. Mr. Sarrazin's team walked into a nest of bumblebees and the stings of the insects caused the horses to run away. Mr. Sarrazin was thrown from the wagon and badly injured.

TOOK A HEADER.

While riding his cycle near Huntertown Sunday, Andrew Archer, of this city, was violently thrown by his wheel striking an obstruction. Mr. Archer suffered some painful bruises, though his injuries are not serious.

A SALOON AT MAYSVILLE.

For several years the residents of Springfield township have been fighting the establishment of a saloon in Maysville and so successful were they that for more than a year past there has been no place in the little town where liquor could be purchased. This morning Commodore Hickman was granted a license to establish a saloon in the town and there was no remonstrance filed against him. His application was printed in a German paper and residents of Maysville knew nothing of his intentions until too late to make a successful remonstrance.

Thursday afternoon the county commissioners will try the remonstrance against John M. Himbert, who desires to establish a saloon on East Creighton avenue in the Tenth ward. A remonstrance signed by 408 voters of the ward has been filed with the commissioners, and this is fortynine more than half the voters at the last general election. Mr. Hays has retained C. A. Hays as his attorney and makes the claim that many signers had no legal right to do so.

LETTER CARRIERS MEET.

Detroit, Mich., Sept. 4.—A heated but one-sided discussion over the adoption of rules of order as governing the election of officers was the opening feature of the annual convention of the National Association of Letter Carriers, which began at 11:15 this morning. The full representation is 789 delegates, of whom 600 were present on the floor of Harmonic hall. Two Canadian carriers sent by their department were on the platform. The question of rules arose on a motion that the rules of order of the Scranton, 1899, convention be adopted. Among some amendments offered was one by Delegate C. D. Duffy, of Chicago, providing for a watcher and a teller to guard the interests of each candidate for office in the elections. Some vigorous speeches followed, mostly to the effect that if there were no underhand work going on nobody should object to having the count watched. Duffy's amendment finally prevailed by a big majority on a viva voce vote.

DISCUSS A WAGE SCALE.

Detroit, Mich., Sept. 4.—The third conference between the wage committee of the Amalgamated Association of Iron, Steel and Tin Workers and representatives of the great iron and steel firms on the puddling and mill scale for 1900 began this afternoon. The following steel firms are represented at the conference: The Republic Iron and Steel company, the American Steel company, the Union Rolling Mill company, of Cleveland, and the Standard Chain company, of Columbus, O. There are twenty-two members of the amalgamated conference committee and they spent the morning conferring together at the Griswold house. An agreement is looked for from this conference as the Amalgamated association has given its committee more discretionary power than it has had at previous conferences.

THE PRESIDENT'S PLANS.

Washington, Sept. 4.—According to present intention the president will not go to Canton until after his trip to Somerset, Pa., to attend the wedding of his niece, which takes place on the 12th inst. It is probable that the presidential party will leave here for Somerset on Monday, the 10th, but whether he will return to Washington from there or go on to Canton has not yet been determined.

GRAIN-O

THE FOOD DRINK

Do you know that three-quarters of all the world's headaches are the result of using tea and coffee?

So physicians say.

Quit them and the headaches quit.

Grain-O has the coffee taste, but no headaches.

All grocers; 15c. and 25c.

GREAT EXPECTATIONS

Are the incentive that often lead people to visit strange butcher stores and test the quality of their meats. There is trouble ahead for any of our patrons that try it. They will never find such tender, succulent, prime and high grade roasts, chops, steaks as we send to your order at all times.

ECKART MEAT MARKET

SHOP AND RAIL.

MEMPHIS EMPLOYES HONOR THEIR LATE PRESIDENT.

ALL ENGINES AND CARS STOP

AND SILENCE PREVAILS FOR FIVE MINUTES.

OLD MAN'S NARROW ESCAPE

STEVE SCHELLENBERGER RESCUES HIM FROM WHEELS.

From 1:15 to 1:20 o'clock yesterday afternoon every locomotive every car, every piece of machinery and every employe on the Memphis railroad system from Kansas City to Birmingham, Ala., were idle. This action was taken as a mark of respect to the memory of the late president, E. S. Washburn, of the Memphis system, who died at Rye Beach, N. H., last Friday. At the end of the five minutes traffic was resumed. The funeral services of President Washburn were held shortly after noon at St. Andrew's chapel, Rye Beach, N. H.

PREVENTED AN ACCIDENT.

Stephen Schellenberger, foreman of Pennsylvania car inspectors, saved the life of an aged man at the south depot yesterday afternoon. John Goodfellow, of Columbia City, arrived at the station just as No. 9 was pulling out for the west and attempted to climb aboard. He grabbed the hand rail, but was too feeble to pull himself upon the step and was being dragged along in a most perilous position when Mr. Schellenberger came to his assistance. The train was stopped and the old gentleman placed aboard in safety. A moment's delay in rescue must have surely resulted in the death of the old man, for his hold could not have been maintained, and had he loosened it he would have gone under the wheels.

ACTIVITY IN BLACK HILLS.

There is considerable mining activity in the Black hills, and a number of new mines are being opened up. Comparisons made between the present condition of mining in the Black hills and that of Colorado, Idaho and other western precious metal states are not at all unfavorable to the former. Last year upward of $8,000.000 was taken from Lawrence county mines, one of them being the Homestake. There is said to be not more than one stamp mill standing idle in the county. And yet the Black hills mining industry can be said to be practically in its infancy, for there are great areas which will ultimately prove of great productiveness that yet remain unnoticed and unexploited.

PETOSKEY EXCURSION.

The Grand Rapids and Indiana company ran its second excursion of the season to Petoskey and other northern Michigan points today. The number of tickets sold at this point was not as great as the number for the former excursion, but it was fully up to the expectations of the officials. The excursion train proper ran as the second section of No. 7 and it took on excursionists at all points between this city and Kalamazoo, leaving the latter city with every seat in the long string of cars occupied. No. 3, which leaves this city at 4:05 this afternoon, will also carry excursionists and may have to run in two sections also.

NEW CHIEF DISPATCHER.

Yesterday morning W. C. Heth became chief dispatcher on the Detroit division of the Wabash, with headquarters at Montpelier, O., succeeding G. W. Turner, who has been called to a higher position on a western road. Mr. Heth was chief dispatcher some years ago, but resigned to take another position.

INSPECTING THE ROAD.

A party of Nickel Plate officials will arrive in the city about 4 o'clock this afternoon on a special train. They are out on an inspection trip. In the party are A. W. Johnson, general superintendent; John MacKinzie, superintendent of motive power; Mr. Hart, at the head of the maintenance of way department; C. D. Gorham, division superintendent, and S. K. Blair, trainmaster.

BRAKEMAN BADLY HURT.

Brakeman Creager, who resides in Bellevue, O., and works on the Nickel Plate "short haul" between Bellevue and Leipzic, met with an accident Saturday night which will leave him a cripple if he escapes with his life. He was walking over the train and fell between the cars in such a manner that the wheels caught and cut off a portion of his right foot. His left leg was also broken in two places and he sustained other injuries to his body and limbs. His condition is very serious and the attending surgeon does not hold out much hope for his recovery. The unfortunate man is quite a favorite and his fellow trainmen deeply sympathize with him.

GOES OUT OF SERVICE.

The Pennsylvania dummy train which during the assemblage season at Winona ran between that place and Warsaw, went out of service yesterday. Conductor Joseph Keeler and Engineer J. W. McCarthy, who had charge of the dummy, will return to their former positions on the road.

HISTORICAL PARAGRAPHS.

The Romans constructed tracks consisting of two lines of cut stones. These were the precursors of the modern railroad.

The first rail tracks were made of wood and were the invention of miners in the Hartz mountains.

In 1730 the wooden rails was covered with an iron strap, and castiron rails began to be used in 1768. Wrought iron rails were patented in 1820.

The attempt to move wheels by steam dates back to the seventeenth century, when a number of experiments were made.

Newton experimented with a steam motor in 1680. Dr. Robinson described in 1759 a steam vehicle. James Watts devoted himself from 1769 to 1785 to the development of the steam engine which became the parent of the modern engine.

Oliver Evans constructed, at the beginning of the present century, a carriage propelled by steam and exhibited it in 1804 at Philadelphia in the presence of 20,000 spectators.

In 1814 George Stephenson began to apply himself to the construction of an improved locomotive. The first line on which his invention was used was the Liverpool and Manchester railway.

The first railway, or tramway, act was passed in England in 1758.

In 1824 a charter was granted to the Darlington and Stockton railway, and the road was opened in September, 1825, and was the first public carrier of goods and passengers.

The first German railroad was built between the cities of Nuremberg and Furth in 1835. It was four miles long.

In Austria the building of railroads was greatly discouraged until 1836.

The French began railroad agitation in 1832. The first railroad—the Western—was opened between Paris and Rouen in 1837.

Belgium began the construction of railroads in 1834 and the first line (Brussels, Malines) was opened May 5, 1835.

The first line in Switzerland was between Zurich and Aarau and was completed in 1847.

In Italy railroad enterprises have received attention since 1853.

The first road in Spain was opened in 1848, between Barcelona and Mataro.

In Portugal very little railroad building was done previous to 1863.

In Denmark the first railroad was built on the island of Seeland in 1847.

Norway built its first railroad from Christiana to Eidsvold in 1854, and Sweden commenced railroad building two years later.

The first line of railroad in the Russian empire was constructed from St. Petersburg, sixteen miles, to Tsavoksji—Sielo in 1842.

British India opened her first railway for public traffic between Bombay and Tannah in 1852.

In Asiatic Turkey the first line was opened between Smyrna and Trianda, December 24, 1860.

The first and principal line in Japan was opened between Tokio and Yokohama in 1872.

The first railroad in China, seven miles long, was built by an English company and in 1886 it was purchased by a Chinese company.

Lines were opened in Java in 1869, in Ceylon in 1867, Burmah in 1889, Malay peninsula 1885, Sumatra 1876, Cochin China 1885.

The first railroad on African soil was from Alexandria to Cairo and was opened in 1856.

The beginning of the railroad system of Algiers dates back to 1860.

The first road in Tunis was built in 1872.

The French colony, on the Senegal river, has a number of short lines, of which the first was opened in 1883.

Port Natal built her first railroad in 1860. It was two miles long and extended from the city of Durbun to its harbor.

The introduction of railroads into Australia dates back to the sixth decade of the present century.

The United States of Colombia built the Panama railroad from Colon to Aspinwall in 1855.

Venezuela opened in 1860 a road fifty-six miles long.

Ecuador constructed in 1876 a road from Jaguachi to Puente de Chimbo, a distance of forty-three miles.

The first railroad in Peru was built in 1851, connecting the seaport Callao with the capital, Lima.

In Bolivia the first railroad was built about twenty-six years ago.

Chile was the first of the South American states to build a railroad, and opened a line from Caldera to Copiapo in 1850.

The Argentine Republic opened its first road from Buenos Ayres to Belgrano in 1862.

The oldest road in Brazil is the Petropolis road. It was opened on December 16, 1856.

The principal roads of Uruguay were built between 1865 and 1875.

Central America has less than 600 miles of railway. Nicaragua completed its first road in 1880, Honduras in 1871, San Salvador in 1882, Guatemala in 1884.

The first railroad in Cuba was opened in 1837.

The first Mexican railway was opened January 1, 1873.

In Canada about fifteen miles of railway was built as early as 1837.

The first American railroad, on which an English locomotive was used, was the Carbondale & Honedale tramway, operated in 1826 by the Delaware & Hudson Canal company.

The first railroad of importance in the United States was the Baltimore & Ohio, opened in 1830. It was then fourteen miles long.

The first road on which a locomotive engine of American manufacture was used was the South Caroline railroad, which was begun in 1830.

The old "Bee Line" road was opened for traffic in 1851.

The Pittsburg, Fort Wayne & Chicago, an extension of the Pennsylvania, was completed to Chicago in 1858.

The first railroad to receive a land grant from the United States government was the Illinois Central. This grant was passed September 20, 1850.

The first consolidation of railroads of any importance took place in 1853, when eleven different roads between Albany and Buffalo were united to form the New York Central.

In 1830 there were twenty-three miles of railroads in operation. In 1899 there are more than 186,000 miles.

Persia's first railroad, seven miles long, was opened June 25, 1888.

INDUSTRIAL NOTES.

A. Wilson, the coppersmith, is at Rome City, visiting his brother-in-law.

S. B. Kleber, engine hostler at the Pittsburg round house, is sick and off duty.

Otto E. Schlink, apprentice boilermaker at the Pittsburg shops, is taking a vacation.

Brakemen C. E. Gaskins, F. E. Lesley and W. B. Rooney, of the Pittsburg, are sick.

After a month's illness, Machinist John Wichmann has returned to his work in the Bass shops.

Master Mechanic B. Fitzpatrick, of the Pittsburg, has returned to the city, after a two weeks' stay in the east.

Eugene Simonton, a flue cutter at the Pittsburg shops, went to Toledo yesterday to spend a week with relatives.

Last week there were repaired and turned out of the Pittsburg back shops engines 161, 247, 316, 427 and 534.

Mr. R. J. Fisher will leave tonight for Columbus and other Ohio railway centers in the interest of the Bass foundry.

Machinist Frank Freuchtnich, of the Wabash shops, was sent to Toledo this morning on business for the company.

W. D. Toomey, of Bourbon, is working at the east yard office of the Pittsburg during the absence of Operator West.

H. E. W. Koenig, of the Pittsburg planing mills, has taken a vacation and last night went to Pitsburg to visit a few days.

Frank Closs, of the electric works, returned from Defiance last night, making the journey home on his bicycle in company with his wife.

Councilman William Hosey, who had been enjoying a two weeks' vacation, resumed his work in the Pittsburg machine shop this morning.

John Mannock and Joseph Fegen, boilermakers in the Pittsburg shops, have returned from Chicago, where the former went to consult an oculist.

An improved turret lathe, built by James & Lamson, arrived at the Wabash shops this morning and is being connected with the shafting and made ready for operation.

C. P. Cherry resumed his place at the desk in the Pennsylvania store room this morning, after an absence of about two weeks. He had been sojourning at Rome City.

C. A. Smith, a fireman on one of the Wabash local freight trains, has gone to Toledo to join his wife and children and accompany them home. They have been visiting in that city.

Engineer Andrew Sullivan, who has charge of a switch engine in the Wabash shops, is sick and was taken to the company's hospital at Peru this morning. Engineer Church, of Peru, will have temporary charge of the switch engine during Mr. Sullivan's sickness.

Brakemen C. Bittner and D. C. Watts, of the Nickel Plate, have been off duty a couple of days on account of sickness.

A. J. Stricker, clerk for Chief Dispatcher W. H. Tigar, of the Pittsburg, is taking a two weeks' vacation and George J. Worth is performing the clerical duties in that office.

C. Schaumann, foreman of the cabinet department of the Pittsburg shops, has recovered from an illness that kept him from his work one month. He reported for duty this morning.

It is stated that the Chicago & Rock Island carried more Grand Army people into Chicago last week than any other line running into that city, its business exceeding that of the Pennsylvania.

Fred H. Jacobs, draftsman at the Bass works, has returned from Latta lake, where he spent a couple of days in fishing. He caught some fine fish, included being a black bass which weighed over four pounds.

Mr. and Mrs. Morris J. Keller and son, of Toledo, are visiting relatives and friends in the city. Mr. Keller has charge of Wabash passenger cars in Toledo. Five or six years ago he resided in this city.

The Pennsylvania has secured estimates of the cost of construction of three large vessels to transport bituminous coal to foreign countries, construction of which will be commenced as soon as keel room can be had.

Engineer S. D. Crist was taken sick at Crestline last night and had to come home on No. 21 this morning. During the dull season Mr. Crist has been firing on the package local train between this city and Crestline.

Engineer W. Slagle is suffering from an accident to his eyes and is off duty. The optics were burned a day or two ago. Engineer J. Leeper and Fireman F. Spiedel are off duty on account of sickness. All are Pennsylvania employes.

Mr. W. W. Atterbury, superintendent of motive power of the Pennsylvania east of Pittsburg, was in the city yesterday. Before taking his present position Mr. Atterbury was master mechanic of the western division of the Fort Wayne road.

Edmund Hindle and David Watterson, Nickel Plate conductors, who had been taking a two weeks' vacation, resumed work yesterday. Switchman C. L. Louthain and Brakeman L. C. Payne also reported for work on the same road after a few days' absence.

Frank Girard, who had a leg injured last week, and I. Sorg, who was sick, were able to resume work in the Pittsburg blacksmith shop this morning. Henry Geerken, the boilermaker, who had an ankle injured last Thursday, was also able to resume work this morning.

Foreman Frank Sarver, of the Pennsylvania boiler shop, was at Pittsburg yesterday to see his wife, who has been lying ill there for two or three weeks. He found the lady better and able to walk about the house. Mrs. Sarver will probably be able to come home the latter part of the present week.

C. O. Ransburg, W. P. O'Brien, H. C. Strangman and J. E. Clark are off duty on account of sickness; Peter Junk is kept at home by the sickness of his baby and Peter Lepper is off duty on account of the sickness of his wife. J. Boone is taking a layoff to look after some private business. They are all employed in the Pittsburg shops.

G. F. Warner, assistant to the general secretary of the Pennsylvania Railroad Young Men's Christian Association department, yesterday assumed the secretaryship of the railroad branch of the Y. M. C. A., at Selma, Ala. James C. Nesbit, a fireman on the Pennsylvania lines, succeeds Mr. Warner at Pitcairn. Mr. Warner, previous to engaging in the association work, was a passenger brakeman on the Pennsylvania.

The order prohibiting newsboys selling books and papers on the Lehigh Valley road was the result of a newsboy on the train attempting to sell the president of the road a book of Frenchy character, sealed, for $1.50, finally whispering to the official, whom he did not know, that he might have it for fifty cents. The president ordered an investigation of the stock carried by newsboys, and then ordered that they be dispensed with on trains.

John Sherridan resigned a position he held in the Fruit House for eleven years and this morning became an employe of the Fort Wayne Electric company, being assigned to the instrument packing department in the store room. Other new employes who began work this morning are Harry Wells, Frank DeWald, H. W. Hart, Ed Stephan and Chris E. Rhein. James Dalton, who had been sick about four weeks, resumed his old place in the works this morning.

J. L. SIEVERT, Wholesale and Retail Optician and Jeweler, 79 Calhoun Street.

AN ACCIDENT AT THE RACES

FRANK PEARSE THROWN FROM SULKY AND HURT.

He Had Driven Harry C. in Two Winning Heats—Events on Program.

There was a large crowd at the races given yesterday afternoon under the auspices of the Amateur Driving club at the mile track and everything passed off smoothly until the last heat of the 2:25 trot, when an accident to Frank Pearse, driver of C. M. MacDougal's Harry C., marred the otherwise fine sport of the afternoon. Harry C. won two heats and was leading in the third when he fell between the half and three-quarter mile posts and Mr. Pearse was hurled to the ground, the drivers of John N. and W. B. being forced to pull to one side to avoid running over the prostrate man. Mr. Pearse was stunned by the fall and was immediately conveyed to St. Joseph hospital, where he was attended by Dr. J. E. Miller, who found that the seventh and eighth ribs on the right side were fractured and another injured. He was also injured in one hand, but no serious results are anticipated. No time was taken on this heat and no award of money was made, although first will probably be given to Harry C., inasmuch as he had two heats and there would hardly have been time to start another. His showing in the race had been the best.

All the events were hotly contested and altogether the meeting was the most successful given under the auspices of the club. Red Elgin won the 2:20 pace, but was compelled to do some stunts in speed by Carton. Wayne Chief, Herman Tapp's great stallion, lowered his record from 2:21 to 2:18¼. Summaries:

Special event, two-year-old.

Mae King, by Atlantic King, 2:09¾. Time—2:30.

2:20 pace, 3 in 5:

Time—2:21, 2:21, —.

CORONER HOLDS INQUEST.

St. Louis, Sept. 4.—The coroner's inquest was held to-day upon the bodies of Patrolmen Nicholas Beckmann and John Looney, who were shocked to death last night by the crossing of the police telephone wires with a heavily charged electric light wire. All of the fourteen other patrolmen and police department employes who received shocks and burns are now reported out of danger.

CENSUS BULLETINS.

Washington, Sept. 4.—The census bureau announces that the population of Hartford, Conn., is 79,850, as against 53,230 in 1890. This is an increase of 26,620, or 50.01 per cent.

The bureau announces that the population of Richmond, Va., is 85,050, as against 81,388 in 1890. This is an increase of 3,662, or 4.5 per cent.

ORDERED TO CHINA.

Winton Bennett, of this city, is a member of the Fourth infantry now stationed at Rosario, P. I., awaiting orders from the war department to proceed to China. Mr. Bennett, who has been in the islands for a year, writes an interesting letter to friends in the city, and states that the boys of the fighting Fourth are very anxious to get a chance at the boxers. Mr. Bennett is a member of company E.

ARRESTING THE RIGTERS.

Akron, O., Sept. 4.—Up to the present time nineteen arrests have been made of persons alleged to have taken part in the recent riots in this city. H. Earl and Charles Fink were taken into custody to-day, charged with rioting. A special grand jury will probably be called to-day to take up the cases. Nearly three hundred witnesses will be examined.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney and Co. Testimonials free. Sold by Druggists, price, 75c per bottle.

Hall's Family Pills are the best.

One hundred dozen Knee Pants to choose from at 50c.

KRATZSCH BROS.

The secretary of one of the largest copper manufactories in New York uses as a paper weight a die for a copper coin struck for the famous campaign between Andrew Jackson and the United States bank. It has been used on the secretary's desk for thirty-five years.

Three hours in Detroit, 130 miles of water ride, and a delightful day's outing, all for $1.60 via Wabash R. R. and Steamer next Sunday. Train leaves at 5:50 a. m. 2tf

In Italy the Southern Railroad company is going to have built eighteen locomotives, 121 passenger cars, thirty-two baggage cars and 1,000 freight cars. Foreign concerns will be allowed to compete.

Healthy Hair.

The organism of the human hair is most delicate; each hair must live and breathe to be healthy. The road to ruin for most hair is through improper treatment. Our knowledge of hair makes it possible for us to take the best of care of it. In addition to taking care of the hair we handle a full line of hair goods and stimulants for the head and hair. If you have any affection of the scalp we can supply you with proper remedies.

Maryville, although the biggest town in Northwest Missouri, has been without a pool or billiard table for 10 years. Two are now to be opened there, licenses having been granted for them at the recent meeting of the county court.

PLEAS OF GUILTY

ENTERED IN COURT BY FOUR CRIMINALS.

THE JUDGE FIXES PUNISHMENT

TWO GO TO JAIL AND OTHERS TO PRISON.

MANY ATTORNEYS IN COURT

CAREY PLEADS NOT GUILTY OF FORGERY - NOTES.

After a ten weeks' vacation Judge O'Rourke reconvened circuit court this morning in the regular September term. There was a large attendance of attorneys who have cases on the docket, but the bigger portion of the forenoon was devoted to the hearing of criminal cases.

John Cameron was arraigned on a charge of burglary, etc., he being charged with stealing a gold watch and other jewelry from Albert Heller. J. H. Aiken, defendant's attorney, entered a plea of guilty to a charge of petit larceny and Judge O'Rourke finding that Cameron was 31 years old, sentenced him to serve from one to three years in Michigan City prison.

Thomas Downey was charged with petit larceny, he having been accused of stealing brass from the Fort Wayne Traction company. Attorney M. T. Stokes, for defendant, entered a plea of guilty and he was sentenced to serve forty days in jail and pay a fine of $1.

Roy McNeal, the 17-year-old lad charged with robbing the Brudi home in Adams township, entered a plea of guilty to a charge of burglary and was sentenced to serve from two to fourteen years in the Jeffersonville reformatory. J. H. Aiken was his attorney.

Charles Herrington, charged with petit larceny, entered a plea of guilty through his attorney, M. T. Stokes, and was sentenced to serve thirty days in the county jail and pay a fine of $1. Herrington was charged with stealing 200 feet of rope from P. A. Randall.

In the case of the state vs. Henry Trubenbach, for alleged unlawful fishing, Ryan & Ryan, attorneys for defendant, made a motion to quash the affidavit and information. The motion was not argued nor decided.

Charles J. Carey was arraigned on a charge of forgery. He entered a plea of not guilty and was remanded to jail to await trial. P. B. Colerick represented Carey in court. It will be remembered that Carey several months ago attempted to pass a check bearing the forged signature of a prominent Decatur business man.

NOTES.

Judge O'Rourke has appointed John Morris, jr., P. B. Colerick and W. H. Reed a committee to inquire into the qualifications of Harry F. Kenerk to become a member of the Allen county bar.

The board of children's guardians in the circuit court this morning adopted the Bauserman, Piepers, Donnelley and Schramm children. Application for guardianship had been made several weeks ago in each case.

Judge O'Rourke has ordered the grand jury to convene next Monday. Several important cases will be referred to them for consideration by Prosecutor Emrick.

The case of John Ellsworth vs. Jason Horn has been appealed from James Aiken, justice of the peace of Lafayette township, to the circuit court. Underwood & Dawson are plaintiff's attorneys.

John Koste, sr., filed an affidavit in 'Squire Bullerman's court charging George Byroads with assault and battery on John Koste, jr. Byroads was arrested and brought into court by a neighbor who acted as deputy constable. The deputy stepped out of the court room with his prisoner before the trial and Byroads skipped. Sheriff Melching now has the warrant for his arrest.

Ida Miller and Maggie Haag, two young women charged with petit larceny, will be arraigned in the circuit court Wednesday morning. It is anticipated that they will plead guilty and receive jail sentences.

Special Judge W. J. Vesey heard evidence in the divorce case of Malissa Brindle vs. Daniel Brindle and awarded a decree to the wife, who was given the custody of all the minor children, $450 alimony and the possession of personal property.

A. L. Hubbard, father of Sid Hubbard, has been appointed superior court bailiff, Rufus Snyder having been transferred to the circuit court.

Ed Nicodemus is home from his outing at Lake George and this morning resumed his duties as superior court clerk.

Dr. Maurice Rosenthal has returned from a visit with relatives in Rome City.

CARD OF THANKS.

We do hereby express our sincere gratitude to the many kind friends and neighbors who assisted us in many ways during the death of our son James.

"It's a good thing SLAVEY'S have it."

Buying A Stove

Is an important undertaking. If you get an unsatisfactory article, there's misery ahead for you all the time. Some stoves cook well, but eat up an awful amount of fuel. Other stoves are economically inclined in this respect, but won't bake well. The Sterling is built of good, solid stuff. It doesn't cost much to run it; it bakes beautifully, and its price is $28.00. That amount couldn't buy the same qualities in any other store.

BOTH PHONES 149 SLAVEY'S UP-TO-DATE HARDWARE STORE 19 AND 21 W. MAIN ST.
